## WIRRAL COUNCIL

### CABINET

2 JUNE 2011

<b>SUBJECT:</b>	<b>EARLY INTERVENTION GRANT – OPEN COMMISSIONING</b>
<b>WARD/S AFFECTED:</b>	<b>ALL</b>
<b>REPORT OF:</b>	<b>INTERIM DIRECTOR OF CHILDRENS SERVICES</b>
<b>RESPONSIBLE PORTFOLIO HOLDER:</b>	<b>COUNCILLOR ANN MCLACHLAN</b>
<b>KEY DECISION?</b>	<b>YES</b>

#### 1.0 EXECUTIVE SUMMARY

1.1 This report outlines the recent tendering exercise for services and support to children, young people and families via the Early Intervention Grant. Based on the outcomes of this tendering exercise the report makes recommendations for providers of these services and seeks approval from Cabinet to proceed to offering contracts totalling £2,821,828

1.2 From 2011/2012 the Early Intervention Grant (EIG) replaced specific funding of a range of programmes supporting children, young people and families:

- 0-19
- Think Family
- Teenage Pregnancy
- Positive Activities for Young People (PAYP)
- Sure Start
- Youth Opportunity Fund
- Youth Crime Action Plan
- Young People's Alcohol and Substance Misuse
- Aiming High for Disabled Children (AHDC)

Funding for this grant will run from 2011 until 2015 (although later allocations have still to be confirmed). The guidance from the Department for Education indicates that the EIG will support the following services:

- Sure Start Children's' Centres
- Short breaks for disabled children
- Targeted support for vulnerable young people
- Targeted support for families with multiple problems.

The government also announced that while the EIG will fund these programmes the grant is not ring fenced and local decision making would determine priorities and commissioning requirements.

- 1.3 As part of the 2011-12 budget for the Children and Young Peoples Department, the EIG has been identified as being £17.9m. The EIG includes a range of commitments including Surestart, short breaks for disabled children (leading on from Aiming High for Disabled Children) and Connexions. After a detailed review of these commitments for 2011/2012 it has been identified that £2,556,828 was available for open commissioning of services. A number of partners are also making available funds to commission services as part of this exercise. This includes NHS Wirral (£100k), DAAT (£40k), Children and Young People Department Core Budget (£55k), Teenage Pregnancy (£40k) and Wirral Partnership Homes (£30k to be confirmed). In total £2,821,828 is available to commission services
- 1.4 Within Wirral there is now more intelligence and robust data to inform and support decision making than has previously been available. Returns from the Common Assessment Framework (CAF), Joint Strategic Needs Assessment (JSNA), ASSET the Youth Offending Service Evaluation tool kit and returns from internal monitoring are providing detailed information which is informing priority setting. Following consideration of the intelligence available, commissioning themes to act as a framework for commissioning priorities are as follows:
- Early intervention and support for families in difficult circumstances (parenting and compromised parenting). (Priority area 1)
  - Children and Young People with Disabilities. (Priority area 2)
  - Improving behaviour in Children, Young People and Families. (Priority area 3)

These priorities were agreed by Wirral Childrens Trust and support the goals in the Your FAMILY: Children And Young People section of the Councils Corporate Plan 2011-2014. A range of evidence based service areas were identified for each of the three priority areas above – these are detailed in Appendix 1.

- 1.5 Early Intervention Grant funded services will be delivered within the following principles:
- Early intervention: to intervene to stop the problem developing.
  - Early prevention: acting proactively to ensure that problems do not arise in the first place.
  - Early identification: identifying problems early or identifying the risk of problems early.
  - Personalisation: the provision of greater personalised support.
- 1.6 In Wirral, the Early Intervention Grant (EIG) will be used to drive service delivery which is prompt, appropriate, effective and planned with the family and child. Planning will be based on the principle of Early Intervention and Prevention, which is one of the principles underpinning Wirral's Children and Young

People's Plan. A key outcome of the commissioning of the EIG will be services working together with shared priorities to ensure there is no duplication or gap in services. Providers will have a duty to engage with Common Assessment Framework / Team Around the Child processes to ensure better outcomes.

- 1.7 With the support of the Corporate Procurement Team an open tender exercise was started on 15 February 2011 and through its various stages final evaluation of tenders has recently been completed.
- 1.8 20 providers are being recommended to deliver 39 different services, with total 12 month contract value of £2,821,828. A full range of provision has been identified and providers have been recommended. This competitive process has resulted in more activity and better targeting of services to vulnerable children, young people and families for families than is currently provided. Details of recommendations for each service area are provided in section 2 below.
- 1.9 An EIG Forum will be established that will bring together providers, commissioners and other partners to begin an ongoing dialogue about delivery and development across the whole of the EIG. This will help to identify further opportunities for improving outcomes for vulnerable children, young people and families. This will be in addition to normal contract monitoring arrangements.
- 1.10 Exempt information - Appendix 2 lists the bidders not being recommended for funding and Appendix 3 lists current providers of services who have not been recommended. The reason for exemption is 3.b in line with Council Procedures," disclosure would prejudice the efficiency and effectiveness of the use of Council resources;"

## **2.0 RECOMMENDATION/S**

- 2.2 Details of providers who submitted tenders for evaluation and that have not been recommended for funding are listed in exempt Appendix 2

### **3.0 REASONS FOR RECOMMENDATION/S**

- 3.1 The priorities and services have been based on detailed needs analysis and consideration of evidenced based delivery. An open procurement process has been used to identify providers that perform best against the agreed evaluation criteria. The recommendations deliver the full range of services to support comprehensive delivery of the vision of the Early Intervention Grant.

### **4.0 BACKGROUND AND KEY ISSUES**

- 4.1 Priority Area 1 Parenting/reducing compromised Parenting. This priority area builds on the successful outcomes of the 0-19 Parenting and Prevention commissioning in 2010-2011. It is targeted at supporting children, young people and families whose needs are not fully met by universal services. It is anticipated that all services will be delivered Wirral wide whilst reflecting patterns of need and risk within the community.
- 4.2 In order for services to be successful they will need to support vulnerable children, young people and adults. Better outcomes will be secured for children by identifying families at risk of poor outcomes and
- providing support at the earliest opportunity
  - strengthen the ability of family members to provide care and support to each other
- 4.3 Services will provide targeted parenting programmes and one-to-one support to help parents develop their skills and confidence in managing children's behaviour.
- 4.4 Within this priority area activity has been focussed through use of the data intelligence provided by the Team around the Child and the Common Assessment Framework. This has then enabled activity and services to be targeted at more vulnerable families. More Black and Minority Ethnic Families and Young Carers will be able to access services.
- 4.5 Priority Area 2 Children and Young People with Disabilities. Building on the very successful outcomes of the Aiming High for Disabled Children programme each local authority now has a statutory duty to follow the 'The Breaks for Carers of Disabled Children Regulations.

These regulations state:

A local authority must provide, so far as is reasonably practicable, a range of services which is sufficient to assist carers to continue to provide care or to do so more effectively. In particular, the local authority must provide, as appropriate, a range of:

- day-time care in the homes of disabled children or elsewhere,
- overnight care in the homes of disabled children or elsewhere,
- educational or leisure activities for disabled children outside their homes, and
- services available to assist carers in the evenings, at weekends and during the school holidays.

4.6 A short breaks service should:

- Be based on a needs assessment of the local disabled child population, taking into account the voice of disabled children, young people and their families (participation and feedback);
- Use fair, understandable and transparent eligibility criteria that enable short breaks to be accessed easily by families.
- Offer reliable and regular local short break provision, tailored to families needs. These could include:
- Provide and monitor positive outcomes for children by promoting friendships and by encouraging social activities, new experiences and supportive relationships with carers.
- Ensure that provision is available on a planned and regular basis and at the times when families and young people, need breaks.
- Provide fit for purpose and age appropriate.
- Promote information about services available appropriately and regularly to families.

4.7 Priority Area 3 Risk Taking behaviour in Children, Young People and Families. The services/ activities covered by Priority Area Three are expected to target young people identified as being at risk of engaging in negative behaviour. Now funded through the Early Intervention Grant this was previously commissioned through the Positive Activities for Young People (PAYP). The priorities driving the commissioning were gathered from a number of areas including the Common Assessment Framework (CAF) returns, information from the Youth Offending Service and the Asset assessment tool and data gathered to underpin the priorities in the Children and Young People's Plan identify the priorities.

4.8 Underpinning the work has been the requirement to ensure that as few young people as possible would require intensive support. The services/ activities areas recommended for commissioning under Priority Area Three are a mix of targeted and universal support services and activities. The imperative of the mix of provision is to ensure that if young people are in need of intensive support they are assessed and supported to the appropriate intervention. It is important that young people are moved from a high to low level of need to one of self managing and accessing universal services. The commissioning process has included in its application process, questions to test the organisation's understanding of targeted and universal services and their understanding of how their service contributed to the Early Intervention Strategy.

4.9 Process: A full open tendering process was used to identify proposed providers. This was undertaken with full support and guidance of the Corporate

Procurement Unit. The approach utilised was to use a Pre-Qualification Questionnaire stage (PQQ) to identify providers to Invite To Tender stage (ITT).

4.10 Organisations proceeding to the ITT stage completed full tender documents including detailed method statements and pricing schedules. Each Priority Area was evaluated by its own panel. Each panel had a core membership of:

- Children and Young People's Department
- NHS Wirral
- Link Forum
- Young people or Parent/Carers

Priority Area 3 had additional membership from Merseyside Police and Merseyside Fire and Rescue Service.

4.11 Panel members were fully involved in the evaluation of each tender including interviewing each provider.

4.12 A total of 34 organisations submitted at least one tender resulting in a total of 101 tenders across all priority areas being evaluated.

4.13 Providers scoring the highest overall score through the evaluation have been selected as the proposed provider for each service area. For some service areas e.g. PA2.1 Weekday and Weekend Leisure/Play activities it is necessary to ensure that we have a suitable spread of provision by type, location and user group. In these cases providers have been proposed where they are evaluated more highly than other providers offering a comparable service.

4.14 Evaluation was split between Quality (80%) and Price (20%), which was agreed with Corporate Procurement. The rationale for this split is that the EIG is about early intervention and the quality of the intervention is of paramount importance, not least as the better the quality of the intervention the less likely the needs are to escalate and become more pressing and expensive. In addition, the services are outcome focussed and they will not all be identical so direct comparison of costs in all cases is difficult. 20% of the evaluation relates to cost and it will mean that for similar services with comparable quality, the most cost effective is likely to be evaluated more highly overall. Quality was determined by evaluating method statements, interview and presentation.

## **5.0 RELEVANT RISKS**

5.1 A table giving details of current providers of services or elements of services who have not been recommended as providers in this report, will be found in the exempt Appendix 3.

5.2 All children, young people of families who currently receive a service or intervention will continue to receive this support, albeit in some cases with a different provider. Indeed, the EIG approach and using open procurement has increased the capacity we have locally to support vulnerable children, young people and families.

- 5.3 Commissioners will work closely with existing providers and any new providers to ensure continuity of support and to facilitate effective and smooth transition of services.

## **6.0 OTHER OPTIONS CONSIDERED**

- 6.1 The contracts for the provision of services funded by the previous grants streams had already been extended by six months until the 30th June 2011 in line with a cabinet decision. To extend contracts further could open the Council to challenge about transparency and in addition services needed to be re-provided and redesigned to meet the overall vision of the EIG, as opposed to the different visions of the now ended grant programmes.

## **7.0 CONSULTATION**

- 7.1 The priority themes were discussed and agreed by the Wirral Childrens Trust Board. Services users, young people and parents/carers were consulted as part of focus groups to help finalise the service specifications and the aspects of the tender evaluation. Similarly young people and parents/carers were fully involved in all aspects of the evaluation process, including the recommendations.

## **8.0 IMPLICATIONS FOR VOLUNTARY, COMMUNITY AND FAITH GROUPS**

- 8.1 This has been an open procurement process and the majority of the investment is to voluntary, community and faith groups. In addition LiNKS has provided representatives that were fully involved in all stages of the evaluation process and across all priority areas, including the recommendations.

## **9.0 RESOURCE IMPLICATIONS: FINANCIAL; IT; STAFFING; AND ASSETS**

- 9.1 This report identifies recommendations of £2,821,828. There are no staffing. IT or asset issues for Wirral Council. However, there are a couple of services which will move from one external provider to another, TUPE is a key obligation of all providers.

## **10.0 LEGAL IMPLICATIONS**

- 10.1 None identified.

## **11.0 EQUALITIES IMPLICATIONS**

- 11.1 The priority areas and service areas have been based upon review of local need and identifying suitable evidenced based interventions. Significantly a specific focus of the Early Intervention Grant on Wirral is to target vulnerable and at risk children, young people and families e.g. young carers, black and

minority ethnic families and victims of domestic violence. Equality was specifically identified as part of the evaluation of all tenders.

11.2 Equality Impact Assessment (EIA)

- (a) Is an EIA required? Yes  
(b) If 'yes', has one been completed? Yes (10/1/11)

**12.0 CARBON REDUCTION IMPLICATIONS**

12.1 None identified.

**13.0 PLANNING AND COMMUNITY SAFETY IMPLICATIONS**

13.1 None identified.

## **Appendix 1: Early Intervention Grant – Priority Areas:**

### **Priority Area 1 – Parenting and Compromised Parenting:**

Services will need to provide for vulnerable children, young people and adults to *secure better* outcomes for children by identifying families at risk of poor outcomes by

- providing support at the earliest opportunity
- strengthen the ability of family members to provide care and support to each other

This can be done through open access and targeted parenting programmes and one-to-one support to help parents develop their skills and confidence in managing children's behaviour. It is anticipated that all services can potentially be delivered Wirral wide whilst reflecting patterns of need and risk within the community.

#### **PA1.1 - *Early Intervention* Home Visiting – Age Range 0 - 5**

The service will support families with children under the age of five years and will offer flexible support in the home for families in Level 2 (targeted) of the Continuum of Need. This will include evenings and weekends when required. Demonstrating excellent links with key partners (particularly Children's Centres, schools and community groups) is an essential requirement for success. The service will offer support on a wide range of subjects, including housing, debt management, parenting, child behaviour, healthy lifestyles, including sexual health and child development. Expertise and experience in the early years is essential as well as a good understanding of the CAF and TAC structure within Wirral.

#### **PA1.2- *Targeted* Family Support – Age Range 5 – 19**

Targeted family support services will need to use a model which has been subject to a formal evaluation approach and be required to develop provision in line with the refreshed parenting and family support strategy. (<http://www.wirral.gov.uk/my-services/childrens-services/childrens-social-care/children-and-family-care/parenting-and-family-support>) These services can be provided either on a one-to-one through a dedicated key worker or in a group setting and will be required to work within the CAF/Team around the Child framework. A particular focus for this service area will be accessible provision in the evenings, and the inclusion of parents who are less likely to engage, with reference to fathers, parents with mental health problems, parents with learning difficulties/disabilities, teenage parents/to be and domestic violence.

### **PA1.2.1 - Evidenced Based Parenting Programmes/Groups – (Targeted at 5-13 / 13-19 age groups)**

The service will provide one or more of the following evidence based parenting programmes such as Triple P Teens, Family Links, Incredible Years, Strengthening Families Strengthening Communities, and Strengthening Families 10-14. This is to help improve parenting skills through increasing the accessibility of evidence based parenting programmes for children and young people at risk of negative outcomes.

This service will be focused on the inclusion of parents who are less likely to engage, with specific needs identified and with reference to fathers, parents with mental health problems, parents with learning difficulties/disabilities, teenage parents/to be and domestic violence.

Applicants within this Service Area will be required to identify which age range/s they are able to support.

- a) Age Range 5 – 13
- b) Age Range 13 – 19
- c) Age Range 0 – 19 (across the whole age range)

### **PA 1.2.2 - Intensive Family Support**

Using a model which has been subject to a formal evaluation approach (e.g. Family Intervention Project or equivalent) this service will be required to provide intensive support to vulnerable families and in particular those facing legal actions, evictions or who are affected by longstanding worklessness and poverty. Referral routes may include anti-social behaviour team, youth offending service, social landlords, social care etc)

Applicants within this Service Area will be required to identify which age range/s they are able to support.

- a) Age Range 5 – 13
- b) Age Range 13 – 19
- c) Age Range 0 – 19 (across the whole age range)

### **PA1.2.3 - Home Visiting**

The service will support families across a broad age range (5-19) working within the CAF/Team around the Child framework and will offer flexible support through home visiting. This will include evening and weekends and agencies will have to demonstrate excellent links with key partners particularly area teams, youth offending service, schools and community groups.

Applicants within this Service Area will be required to identify which age range/s they are able to support.

- a) Age Range 5 – 13

- b) Age Range 13 – 19
- c) Age Range 0 – 19 (across the whole age range)

#### **PA1.2.4 Domestic Violence Support**

Supporting children aged 5-13 and young people, including young parents/parents to be aged 16-18 who have been affected by, or victims of domestic violence. The long term preventative aim is to break the cycle of domestic violence with shorter term aims to enable children and young parents/parents to be to develop their own behaviour management/strategies. The service needs to demonstrate clear exit strategies for the children, young people and families including supporting them to develop healthy relationships within supportive social networks.

#### **PA1.2.5 Black and Minority Ethnic Families Support**

The service is primarily intended to assist Black and minority ethnic children with a particular focus upon children who are experiencing the negative effects of social isolation, family stress and racial harassment. Families will be encouraged and supported to make more effective links with the other agencies that provide services to meet their specific needs. The service provided will also work with the parents/carers of the referred children engaging them in activities to encourage better communication between parent and child, strengthening family relationships and develop skills and support networks.

Applicants within this Service Area will be required to identify which age range/s they are able to support.

- a) Age Range 5 – 13
- b) Age Range 13 – 19
- c) Age Range 0 – 19 (across the whole age range)

#### **PA1.2.6 Support for Young Carers**

This service will provide a “whole family” approach to ensure that children and young people who find themselves in the caring role are not disadvantaged and ensure that their attainment of health and social wellbeing is maintained. A particular focus of this service will be early intervention and prevention through a co-ordinated approach in partnership with schools, health and Adult Social Services.

Applicants within this Service Area will be required to identify which age range/s they are able to support.

- a) Age Range 5 – 13
- b) Age Range 13 – 19
- c) Age Range 0 – 19 (across the whole age range)

### **Priority Area 3 – Children and Young People with Disabilities:**

Following the successful outcomes of the Aiming High for Disabled Children programme each local authority now has a statutory duty to follow the 'The Breaks for Carers of Disabled Children Regulations coming into force on 1<sup>st</sup> April 2011.

These regulations are currently in draft but state:

A local authority must provide, so far as is reasonably practicable, a range of services which is sufficient to assist carers to continue to provide care or to do so more effectively.

In particular, the local authority must provide, as appropriate, a range of:-

- (a) Day-time care in the homes of disabled children or elsewhere.
- (b) Overnight care in the homes of disabled children or elsewhere.
- (c) Educational or leisure activities for disabled children outside their homes.
- (d) Services available to assist carers in the evenings, at weekends and during the school holidays.

To meet these regulations Wirral Council are aiming to procure a range of short break services to meet family needs.

A short breaks service should:

- Be based on a needs assessment of the local disabled child population, taking into account the voice of disabled children, young people and their families (participation and feedback).
- Use fair, understandable and transparent eligibility criteria that enable short breaks to be accessed easily by families.
- Offer reliable and regular local short break provision, tailored to families needs. These could include.
- Provide and monitor positive outcomes for children by promoting friendships and by encouraging social activities, new experiences and supportive relationships with carer.
- Ensure that provision is available on a planned and regular basis and at the times when families and young people, need breaks.
- Provide fit for purpose and age appropriate.

- Promote information about services available appropriately and regularly to families.

### **PA2.1 – Weekday and Weekend Leisure / Play Activities**

These will offer short breaks for children with disabilities on a regular basis, providing fun activities and the opportunity to socialise with children.

### **PA2.2 – Sitting Service**

Provide sitting services that supports parents with short breaks within the family home.

### **PA2.3 – Direct Payment Support Scheme**

Provide a scheme that supports parents with employment issues and will facilitate the recruitment of personal assistants.

### **PA2.4 – ASD Specialised Support**

To support families of children and young people with ASD and challenging behaviours to have a short break which will provided by a highly individualised support package, which will involve working in the family home, in the community and in other venues.

### **Priority Area 3 (PA3)**

#### **Behaviour in Children, Young People and Families.**

Wirral Council's Children and Young People's Department is looking to work in partnership with organisations that can provide exciting and stimulating youth support services that will challenge and inspire the young people of Wirral and provide them with innovative opportunities to develop their potential. Activities should provide young people, including those who are vulnerable and at risk, with diversionary activities and engage them in a Youth Offer which contributes to their personal development.

Providers will be expected to run activities that engage young people aged 13-19 in positive activities. It is expected that any programmes will be complementary to the other commissioned activities aimed at providing appropriate support to children, families and young people. Funded by the early Intervention Grant, activities will be provided in the evenings and at week-ends and in school holidays. Successful organisations will be those that demonstrate a practical effective response to the needs of young people. Organisations will have to demonstrate how young people have been involved in planning for service provision.

These activities / interventions have been pulled into the following Service Areas.

#### **PA3.1 – Risk Taking Behaviour (Crime/ Anti-Social behaviour/ Substance Misuse/ Risk of entering the Judicial System)**

It is anticipated that organisations will be offering opportunities that will encourage young people to engage in positive behaviour and achieve in school, employment or training. Providers will target young people who engage in risk taking behaviour which is evident in substance misuse, sexual activity and anti social behaviour and youth crime. Adopting an early intervention approach, organisations will be expected to provide activities which engage young people before they progress to a level whereby they will require intensive support.

Applicants within this Service Area will be required to identify which age range/s they are able to support.

- a) Age Range 8 – 13
- b) Age Range 13 – 19

### **PA3.2 – Advice / Guidance / Support Services**

Providers will be expected to provide Information/ advice to young people. This will be provided on a one to one basis and organisations will be expected to provide appropriate support to young people and access them to more targeted support as necessary. This may involve supporting young people in issues such as homelessness, sexual health, substance misuse, school attendance, family breakdown.

Age Range – 13 - 19

### **PA3.3 – Youth Arts / Big Nights / Youth Activities / Accredited Opportunities.**

Organisations will be expected to provide Big Nights such as Discos or Band Nights, Youth Arts activities and other diversionary activities such as the Duke of Edinburgh Award, and other sporting opportunities. Providers will be expected, where appropriate, to provide activities that can be accredited.

Age Range – 13 - 19

### **PA3.4 – Workshops (Risk Taking Behaviour / Substance Misuse).**

Workshops will be provided as part of the early preventative agenda to develop in young people an awareness of the consequences of risk taking behaviour while also developing resilience and protective behaviours.

Age Range – 13 - 19
