## KEY:

## Assurance Opinion

| HIGH | There is a sound system of control designed to achieve the system objectives and these are <br> being consistently applied. No High recommendations made. |
| :--- | :--- |
| SUBSTANTIAL | Whilst there is a basically sound system there are weaknesses which put some of the control <br> objectives at risk and/or there is evidence that the level of non compliance with some controls <br> may put the system objectives at risk. No High recommendations made. |
| LIMITED | Weaknesses in the system of control are such as to put the system objectives at risk and/or the <br> level of non compliance puts the system objectives at risk. |
| MINIMAL | Control is generally weak leaving the system open to significant error or abuse, and/or significant <br> non compliance with basic controls leaves the system open to error or abuse. |

## RAG Status

| G | - | Audits | Actions agreed and implemented. |
| :--- | :--- | :--- | :--- |
|  |  | Follow Ups | Actions implemented. |
|  |  |  |  |
| A | - | Audits | Actions agreed and officers committed to implement within agreed timescale. |
|  |  | Follow Ups | Actions in process of being implemented within agreed timescale with some implemented. |
|  |  |  |  |
| R | - | Audits | Actions agreed |
|  |  | Follow Up | Little or no progress made to implement actions within agreed timescale. |

## Recommendation Priority Rating

| HIGH | Matters that are fundamental and material to the system of internal control for the area under review. We <br> believe that matters observed might cause a system objective not to be met or leave a risk unmitigated and <br> need to be addressed as a matter of urgency. |
| :---: | :--- |
| MEDIUM | Matters that are significant to the system of internal control under review but do not require immediate action. <br> A system objective may still be met in full or in part or a risk adequately mitigated but the weakness <br> represents a significant deficiency in the system. |
| LOW | Matters that require attention and would improve the overall control levels for the area under review but are <br> not vital to the overall system of internal control. |
