## **EXPLANATORY FOREWORD BY THE ACTING DIRECTOR OF FINANCE AND SECTION 151 OFFICER**

### **1. INTRODUCTION**

- 1.1 The Council must prepare and publish a Statement of Accounts each year. The following pages include the Accounts for the year ended 31 March 2012. The purpose of this foreword is to provide an explanation of the Council's overall financial position, including the main influences on the accounts, and to assist in the understanding of the accounting statements.

### **2. ABOUT THE STATEMENT OF ACCOUNTS**

- 2.1 The Statement of Accounts demonstrates the financial performance of the Council for the year-ended 31 March 2012 and shows the financial position at the end of that period. The Statement has been prepared and presented in accordance with prescribed guidance (the Code of Practice on Local Authority Accounting in the United Kingdom 2011/12).
- 2.2 As far as possible plain language has been used throughout this publication. As technical language is required in some areas a definition of financial terms has been included. A Summary of Accounts, highlighting the main information contained within the Statement, is also available and is published on the Council website at [www.wirral.gov.uk](http://www.wirral.gov.uk).
- 2.3 A brief description of the main statements and areas covered:-
- Statement of Responsibilities sets out the responsibilities of the Council and of the Acting Director of Finance and Section 151 Officer.
  - Annual Governance Statement shows how the Council has ensured the effectiveness of systems for ensuring it operates legally and that public money is properly used and accounted for.
  - Main Financial Statements comprise four key statements:-
    - Movement in Reserves Statement shows the movement on the different reserves that the Council holds.
    - Comprehensive Income and Expenditure Statement shows all income and expenditure for the Council.
    - Balance Sheet shows the financial standing of the Council at 31 March 2012 detailing all assets and liabilities.
    - Cash Flow Statement shows the inflows and outflows of cash arising from transactions with other parties.
  - Notes to the statements provide further detail and explanation of the items contained within the Main Financial Statements.
  - The Collection Fund and notes cover the Council Tax and Non-Domestic Rates collected and paid to the precepting authorities and the national Non-Domestic Rate pool.
  - Pension Fund covers the financial position of the Merseyside Pension Fund which is managed by Wirral Council.
  - Glossary of Financial Terms explains the technical terms used.

### 3. CHANGES IN ACCOUNTING POLICIES IN 2011/12

- 3.1 The Statement of Accounts has been prepared and presented in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom (the Code) issued by the Chartered Institute of Public Finance and Accountancy (CIPFA).
- 3.2 After the significant changes to the 2010/11 Accounts with the implementation of International Financial Reporting Standards (IFRS) the Statement of Accounts 2011/12 incorporates one main change. The Council was required to amend its accounting policy for heritage assets and recognise them at valuation. Notes 14 and 50 provide further details of the accounting changes which do not impact upon the level of spend and the Council Tax.

### 4. REVIEW OF THE FINANCIAL YEAR

#### 4.1 REVENUE EXPENDITURE AND INCOME

- 4.1.1 The spending on services provided to the people of Wirral is met from Government Grants and the local taxpayer through the Council Tax. In 2011/12 there was no increase in Council Tax from 2010/11 and revenue spending was paid for from a combination of Government Grants, Council Tax and other income.

#### Summary of expenditure

- 4.1.2 In March 2011 the Council agreed a net expenditure budget of £302 million for 2011/12. The table shows how this became the revised budget and how this compares to the actual expenditure for the year.

	<b>Budget</b>	<b>Actual</b>	<b>Variation</b>
	<b>£ million</b>	<b>£ million</b>	<b>£ million</b>
<b>Spend</b>			
Service expenditure	302.0	302.0	-
Adult Social Services	+4.0	+4.0	-
Other Services	+1.1	+1.1	-
EVR / VS Funded in 2011/12	-4.4	-4.4	-
Departmental variations	+2.0	-3.7	-5.7
Council Tax Reimbursement	-	+4.0	+4.0
<b>Total spend</b>	<b>304.7</b>	<b>303.0</b>	<b>-1.7</b>

<b>Funded by</b>			
Government Grants/Council Tax	295.0	295.0	-
Use Of Balances	9.7	8.0	-1.7
<b>Total Income</b>	<b>304.7</b>	<b>303.0</b>	<b>-1.7</b>

4.1.3 The financial position is regularly monitored, particularly for those areas most prone to variation and, whilst pressures were experienced during the year, actions were taken to address these issues which resulted in the net underspend, and increase in balances, of £1.7 million.

- Adult Social Services were allocated additional resources of £4 million for the re-provision of services and for the retention of Fernleigh.
- The Early Voluntary Retirement / Voluntary Severance scheme costs were funded in 2010/11 when they were originally budgeted for in 2011/12.
- Adult Social Services overspent by £5.9 million, primarily on care services.
- One-off gains from treasury management activities realised £3.7 million.
- Further improvements in the management of Housing and Council Tax benefit saved £2.7 million in the year.
- There was an unused Efficiency Investment Budget of £3.5 million.
- The requirement to include the Council Tax reimbursement for 2012/13 in the 2011/12 accounts required £4 million to be provided for in the accounts.

### **General Fund Balances**

4.1.4 At the end of the year there was £20.8 million in General Fund balances with the main contributions being from:-

- Housing Benefit reserves and provisions of £5 million as a result of improvements in processing and recovery of grant from Government.
- Working Neighbourhoods Fund reserves and provisions of £3.3 million.
- £2.7 million set aside for Early Voluntary Retirement / Voluntary Severance funding as the Government gave permission to treat as capital spend, statutory redundancy costs.

4.1.5 The Budget for 2012/13 included the use of £9.6 million of balances resulting in a balance of £8.8 million at 31 March 2013. With the Council Tax Reimbursement funded in 2011/12 the projected balance is now £14.7 million. A minimum of £6 million represents a prudent level of General Fund balances consistent with sound financial management.

### **Financial Statements**

4.1.6 The Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement show the financial performance and the net spend charged against Council Tax.

4.1.7 The table shows how the gross expenditure was distributed across services in 2011/12 in accordance with the Service Reporting Code Of Practice analysis.

<b>Expenditure</b>	<b>£000</b>	<b>%</b>
<b>Service</b>		
Central services to the public	43,715	5
Cultural and related services	44,612	6
Planning services	15,565	2
Environmental and regulatory services	28,756	4
Education and children's services	373,355	47
Highways and transport services	19,897	2
Other housing services	153,571	19
Adult social care	118,488	15
Corporate and democratic core	5,559	1
Non distributed costs	(2,395)	(1)
<b>Cost of Services</b>	<b>801,123</b>	<b>100</b>
Other operating expenditure	106,706	
Financing and investment	71,788	
<b>Provision of Services</b>	<b>979,617</b>	

4.1.8 The table shows how the gross expenditure was funded in 2011/12:-

<b>Funding</b>	<b>£000</b>	<b>%</b>
Specific Government Grants	426,395	47
General Government Grants	187,511	21
Council Tax	132,528	15
Fees and Charges	109,064	12
Financing and Investment Income	48,518	5
<b>Provision of Services</b>	<b>904,016</b>	<b>100</b>

4.1.9 The Specific Grants include £206 million for the Dedicated Schools Grant which is paid directly to the Council and £166 million in respect of Housing and Council Tax Benefits. The General Grants include the main Government funding being the Revenue Support Grant. During the last year there have been further reductions in the scale of Government support with both revenue and capital grants reduced.

## 4.2 CAPITAL EXPENDITURE AND INCOME

4.2.1 During 2011/12 almost £47 million was spent on capital projects including the acquisition and improvement of assets and infrastructure. The spending incurred by Department and the funding is shown below.

<b>Department</b>	<b>Spend</b>	<b>%</b>
	<b>£000</b>	
Adult Social Services	928	2
Children & Young People	22,090	47
Finance	4,164	9
Law, HR & Asset Management	2,930	6
Regeneration, Housing & Planning	7,104	16
Technical Services	9,396	20
<b>Total</b>	<b>46,612</b>	<b>100</b>

- 4.2.2 The largest project was the improvement works to the Bidston Viaduct with the Council making a contribution towards this largely Government funded scheme. Within Children and Young People the £12 million Birkenhead High School for Girls Academy is progressing well. Over £5 million was spent on Pensby Primary School which completed in May 2012 with the works at Cathcart Street Primary School and Woodlands Primary School completing early in 2012/13.
- 4.2.3 Under Finance the main item is the spending on statutory redundancy payments which the Government gave permission for the Council to treat as capital spending in 2011/12.
- 4.2.4 Investment into regeneration continues with this being targeted to the former Housing Market Renewal areas in Birkenhead and Wallasey and supported by Government grant. Continuing into future years the commitments are in excess of £5 million.
- 4.2.5 The Council continues to make improvements to the highways infrastructure with works on highways, bridges and road safety comprising the investment under Technical Services.

Source	Funding	%
	<b>£000</b>	
Borrowing	17,585	38
Capital Receipts	3,000	6
Revenue, Reserves & Contributions	1,663	4
Grants	24,364	52
<b>Total</b>	<b>46,612</b>	<b>100</b>

- 4.2.6 The main source of funding came from grants allocated by Central Government for specific schemes or projects and primarily investment in schools. In 2011/12 over £24 million of grants have been, or are expected to be, received to fund the total spend of £47 million with the balance met from a combination of borrowing and capital receipts generated from the sale of surplus assets.

### 4.3 BALANCE SHEET

- 4.3.1 The Balance Sheet at 31 March 2012 shows a net asset position of £83 million. The net worth of the Balance Sheet excluding the Net Pensions Liability is a net asset position of £478 million.

#### 4.3.2 Assets and Investments

As part of the rolling programme of valuations a further series of assets were revalued during the year. In total the Council had an asset portfolio valued at £647 million at 31 March 2012. The majority of this related to land and buildings which accounts for £446 million with infrastructure assets, including roads, included at £104 million, whilst heritage assets are now separately identified. The asset valuation is affected by the requirement to transfer school assets to Academies when they become independent of the Council for no financial return.

Total investments at 31 March 2012 were £102 million with the majority of investments being on a short term basis with financial institutions. Throughout 2011/12, as in previous years, the over-riding approach was one of security and liquidity with the diminution in investment return being the acceptable risk / reward consequence. The investment income during the year totalled £2.3 million with an average rate of return of 0.9%.

#### **4.3.3 Liabilities and Borrowing**

The major sources of funding for Council borrowing have traditionally been private sector institutions (banks and building societies) and the Public Works Loans Board (PWLB). As part of effective treasury management, opportunities presented by the market to generate interest savings are pursued and this proactive management is undertaken in line with approved Government and statutory guidance (Code of Practice for Treasury Management in Public Services).

In managing debt the aims are to reduce the overall exposure to interest rate movements, to lower long-term interest charges paid and smooth the maturity profile without compromising longer-term stability. Debt rescheduling has become more challenging and places greater emphasis on the timing and type of new borrowing. No debt rescheduling took place in 2011/12.

At 31 March 2012 the long term debt totalled £244 million. This was with financial institutions and the Public Works Loans Board being spread over a range of maturity dates. This also includes the debt of the former Merseyside County Council which Wirral manages on behalf of the other Local Authorities and agencies.

#### **4.3.4 Retirement Benefits**

All Councils fully adopt the accounting policies contained within International Accounting Standard 19 "Employee Benefits". The principle behind IAS19 is that an organisation should account for retirement benefits when it is committed to pay them, even if the actual payment will be many years in the future.

The actuaries engaged by the Council have estimated the underlying long term commitment to pay retirement benefits to be £395 million at 31 March 2012, which is an increase of £60 million from 31 March 2011. This has arisen due to the worse than expected performance of the financial markets, both nationally and globally, and this is expanded upon in the Merseyside Pension Fund Accounts and Annual Report.

The recognition of this liability in the accounts has a substantial effect on the net worth of the Council and it is important to note that this change reflects the actuarial valuations and is not an immediate demand upon the Council's resources. The payments made by the Council to the Pension Fund are reviewed every three years as part of the triennial revaluation of the Pension Fund. An investment strategy is then determined which aims to recover the deficit over a stated period (presently 25 years).

The liability for teachers' discretionary added year payments rests with the Council and under scheme regulations is funded on a "pay as you go" basis with annual payments to retired teachers.

#### **4.3.5 Reserves**

Reserves are reported as usable or unusable. Usable reserves may be used to support services, subject to any statutory limitations on their use such as for the Capital Receipts Reserve which can only be used to support capital expenditure or repay debt. Unusable reserves are not available to fund services and include the Pensions Reserve which reflects the changes in actuarial gains and losses (see note on Retirement Benefits) and the Capital Adjustment Account which includes assets written-off on disposal or sale and includes the reduction in assets with schools transferring to Academies as referred to under Assets and Investments.

The Council seeks to maintain a level of General Fund balance sufficient to meet any unforeseen events. £6 million is the minimum level based upon an assessment of the risks involved in managing the overall budget and recent experiences in terms of spending compared to the budgets allocated. This General Fund balance will vary as a result of the financial decisions of the Council. When setting the annual budget sums in excess of the prudent level can be, and are, used to help provide for services.

The usable reserves are regularly reviewed to assess whether they are adequate for the purpose intended and whether the sums involved are still required. At 31 March 2012 the major usable reserves were in respect of School balances, Housing Benefit, Working Neighbourhoods Fund and Debt Restructuring and Financing. The former are only available for use by the schools.

#### **4.4 GOVERNANCE**

- 4.4.1 The Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk.
- 4.4.2 The Annual Governance Statement, although no longer required as part of the Statement of Accounts, has been included. The Leader and Acting Chief Executive have agreed a series of actions to address those matters identified as requiring action to further enhance the governance arrangements.

#### **5 FUTURE DEVELOPMENTS**

- 5.1 The global economic situation has affected, and will continue to affect public services in a variety of ways. The Government actions to reduce the public sector deficit have been widely publicised and will continue placing further pressure upon the public sector and the financial position of the Council.

- 5.2 In supporting local Council taxpayers the Wirral Council Tax has not been increased for two consecutive years. Initiatives such as extending the Council Tax relief scheme to over 70's households also support local people. As in preceding years income from some Council services is affected and the ability of individuals to meet their financial obligations has been recognised and a further increase was made in the sums set aside for potential bad debts.
- 5.3 The coming year(s) will be as challenging as the recent past with continued pressures on all main services, particularly care services for both adults and children. In recognition of these pressures additional resources were allocated towards initiatives in Adult Social Services and Children and Young People Services.
- 5.4 The Medium Term Financial Strategy is reviewed annually and regularly updated through reports to Cabinet on the Projected Budgets for future years.

This includes details of the evolving Government proposals regarding the future changes to the financing of local government as well as emerging actions by the Council to address any gap between the projected spend and likely resources.

- 5.5 Based upon the information presently available from the Government the Council's Projected Budget for 2013/15 shows a gap between the planned spend and likely resources of over £60 million. The Council has reduced budgets by almost £60 million between 2011/13 but the scale of the reduction will lead to further difficult decisions around the provision of services and the priorities of the Council over the coming years.
- 5.6 Whilst looking for ways to deliver improved services, further improve efficiency and reduce waste the Council, in developing future proposals, continues to look for modern and cost effective methods of providing services and to explore alternative commissioning options.

## **6 CONCLUSIONS**

- 6.1 The Statement of Accounts provides information about Council expenditure and income for the year and the overall financial position at the end of the financial year. It is a key element in reporting how Council finances have been managed whereas the Council Tax Explained booklet issued with the Council Tax demands at the beginning of each year sets out the plans for the year.
- 6.2 The Council continues to strive to promote and enhance all aspects of financial management. The future promises to be as challenging as the recent past and the Council retains a sound financial base, including the General Fund balance plus the specific provisions and reserves, from which to respond to the challenges.

**TOM SAULT**  
**ACTING DIRECTOR OF FINANCE AND SECTION 151 OFFICER**  
**WIRRAL COUNCIL**

## STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

### The Council's Responsibilities

The Council is required to:-

make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Acting Director of Finance and Section 151 Officer;

- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- approve the Statement of Accounts.

### The Acting Director of Finance and Section 151 Officer's Responsibilities

The Acting Director of Finance and Section 151 Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practice as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code), and is required to give a true and fair view of the financial position of the Council at the accounting date and its income and expenditure for the year ended 31 March 2012.

In preparing this Statement of Accounts the Acting Director of Finance and Section 151 Officer has:-

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent; and
- complied with the Code.

The Acting Director of Finance and Section 151 Officer has also:-

- kept proper accounting records which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that the Statement of Accounts provides a true and fair view of the financial position of Wirral Council at 31 March 2012 and its income and expenditure for the year ended 31 March 2012.

Tom Sault  
Acting Director of Finance and Section 151 Officer  
28 September 2012

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WIRRAL BOROUGH COUNCIL**

**To be included after the Financial Statements have been audited**

## **ANNUAL GOVERNANCE STATEMENT 2011/2012**

**To be included following approval**

This page is intentionally left blank

# **Main Financial Statements**

## MOVEMENT IN RESERVES STATEMENT

This Statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance for council tax setting purposes. The Net Increase/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to, or from, Earmarked Reserves undertaken by the Council.

	General Fund Balance £000	Earmarked General Fund Reserves £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000	Total Usable Reserves £000	Unusable Reserves £000	Total Council Reserves £000

## COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This Statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Restated 2010/11				2011/12		
Gross Expenditure £000	Gross Income £000	Net Expenditure £000		Gross Expenditure £000	Gross Income £000	Net Expenditure £000
40,637	32,771	7,866	Central services to the public	43,396	33,412	9,984
42,663	12,673	29,990	Cultural and related services	44,612	12,566	32,046

## BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

<b>Restated 1 April 2010 £000</b>	<b>Restated 31 March 2011 £000</b>		<b>Notes</b>	<b>31 March 2012 £000</b>

## CASH FLOW STATEMENT

The Cash Flow Statement shows the Changes in Cash and Cash Equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

<b>Restated 2010/11 £000</b>		<b>2011/12 £000</b>
(26,976)	Net (surplus) / deficit on the provision of services	75,282
(47,974)	Adjust net (surplus) / deficit on the provision of services for non cash movements (Note 25)	(92,361)
42,398	Adjust for items in the net (surplus)/ deficit on the provision of services that are investing or financing activities (Note 25)	22,379

(34,558)	Cash and Cash Equivalents at the beginning of the reporting period	(58,372)
(58,372)	<b>Cash and cash equivalents at the end of the reporting period (Note 19)</b>	<b>(37,779)</b>

# **Notes to the Main Financial Statements**

## NOTES TO THE MAIN FINANCIAL STATEMENTS

### 1. ACCOUNTING POLICIES

#### GENERAL

The accounts have been prepared in accordance with the International Financial Reporting Standards (IFRS) Code of Practice on Local Authority Accounting in the United Kingdom 2011/12 (the Code), as recommended by CIPFA, supported by guidance notes on the application of accounting standards. The accounting convention adopted is historical cost modified for the valuation of certain categories of non current assets and financial instruments. They are also prepared on a going concern basis. The Code of Practice specifies the principles and practices of accounting required to prepare a Statement of Accounts which provides a true and fair view of the financial position and transactions of the Council and is based on approved international accounting standards, except where these might conflict with specific statutory accounting requirements.

In accordance with the Code, the Council has adopted a number of principles to be followed in selecting accounting policies to be used and the corresponding disclosures needed to help users to understand those selected policies and how they have been implemented. In doing so, the Council tries to ensure that the policies selected are the most suitable to its particular circumstances for the purpose of providing a true and fair view of the financial position and transactions of the Council. Policies are reviewed regularly to ensure their appropriateness and are changed as necessary to maintain this position. In such cases a full disclosure will be provided.

The concepts that the Council has regard to in selecting and applying these policies are:-

The qualitative characteristics of financial information

- Understandability.
- Relevance.
- Materiality.
- Reliability.
- Comparability.

Pervasive accounting concepts

- Accruals.
- Going concern.
- Primacy of legislative requirements.

Accounting policies can be defined as the principles, bases, conventions, rules and practices applied that specify how the transactions and other events are to be reflected in the financial statements through recognising, selecting measurement bases for, and presenting assets, liabilities, gains, losses and changes in reserves.

The annual update of the Code has resulted in a number of changes in accounting policy. The main changes are detailed below:-

- Heritage Assets.
- Carbon Reduction Commitment Allowances

## **ACCRUALS OF INCOME AND EXPENDITURE**

The Council's Statement of Accounts is kept on an accruals basis, in accordance with the Code of Practice.

To account for income and expenditure in the financial year in which goods and services are received or rendered, amounts included in the accounts are based on actual invoices received or raised after the year end. Where actual amounts are not known estimates are included based on an assessment of the value of goods and services received or rendered. Any estimates are calculated using the best available information.

Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. If debts are not likely to be settled, the balance of the debtor is written down and a charge made to revenue for income that may not be collected.

Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows set out by contract.

## **CAPITAL RECEIPTS**

Sales of assets give rise to capital receipts if the receipt exceeds £10,000. These are recorded on an accruals basis and, if required, are divided into a reserved part (based on applicable statutory requirements) and a usable part (the balance).

Usable receipts are credited to the Capital Receipts Reserve and are available to finance capital expenditure. Reserved receipts are credited to the Capital Adjustment Account and there they reduce the Council's Capital Financing Requirement. The Secretary of State has determined that, under provisions included in the Local Government Act 2003, the Council is required to pay over to the Department for Communities and Local Government (DCLG) a proportion of receipts derived from the disposal of housing land.

## **CARBON REDUCTION COMMITMENT ALLOWANCES**

The Council participates in the Carbon Reduction Commitment (CRC) and is required to buy and surrender allowances, retrospectively on the basis of carbon emissions. As energy is used carbon is emitted and a liability for this occurs. This has resulted in the Council being required to purchase allowances. For 2011/12 these have been measured as the best estimate of the expenditure required to meet requirements to purchase allowances. The estimated cost of the allowances is included in our service costs shown in the Comprehensive Income and Expenditure Statement and has been apportioned to services on the basis of energy consumption.

## **CASH AND CASH EQUIVALENTS**

Cash includes all bank credit balances and overdrafts held by the Council as part of its normal cash management, including all deposit accounts accessible without notice.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Cash and cash equivalents include cash in hand and deposits held at call with financial institutions.

## **CONTINGENT ASSETS AND LIABILITIES**

These are not accrued in the accounting statements but will be disclosed by way of notes if there is a possible obligation/receipt which may require a transfer, payment or receipt of economic benefits. The note discloses the nature of the asset or liability and an estimate of its financial effect.

## **DEBT REDEMPTION (THE MINIMUM REVENUE PROVISION)**

Debt is redeemed as and when it falls due. Under regulations issued by the Department for Communities and Local Government, the Council has approved an MRP Statement. Detailed rules placed a single duty to charge an amount of MRP which the Council considers 'prudent'.

The Council approved the following MRP policy for the 2011/12 financial year:

- (a) The Council will apply the Regulatory method in respect of supported capital expenditure and the Asset Life method in respect of unsupported capital expenditure.
- (b) For prudence, when the asset life method is applied to funding of an asset with a life of greater than 25 years the Council will apply a default asset life of 25 years.
- (c) MRP in respect of PFI and leases brought on to the Balance Sheet under International Financial Reporting Standards will also be calculated using the asset life method and will match the annual principal repayment for associated deferred liability.

Ex-Merseyside County Council debt is managed in a separate Fund. Interest is charged to constituent Authorities at the average rate for the Fund. Principal repayments are made on the basis of equal instalments over 38 years commencing 1 April 1988.

## **EMPLOYEE BENEFITS**

### **Benefits payable during employment**

Benefits payable during employment cover short-term employee benefits (other than termination benefits) that are due to be settled within 12 months of the year end. They include benefits such as salaries, paid annual leave and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of outstanding leave that staff have earned but not taken before the year end. The accrual is charged to the Service lines within the Comprehensive Income and Expenditure Accounts but then reversed out through the Movements in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

## Termination benefits

Termination benefits are dealt with separately from other employee benefits because the event which gives rise to an obligation is the termination rather than employee service. Termination benefits are payable as a result of either:

- a) An employer's decision to terminate an employee's employment before the normal retirement date, or
- b) An employee's decision to accept voluntary redundancy in exchange for those benefits. Termination benefits are often lump-sum payments.

The benefits are charged on an accruals basis to Service lines in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employments or has made an offer to encourage voluntary redundancy.

## Post employment benefits

Employees of the Council are members of two separate pension schemes which provide members with defined benefits (retirement lump sums and pensions) related to pay and service. The schemes are as follows: -

- The Teachers' Pension Scheme, administered by Capita Hartshead on behalf of the Department for Education (DfE) for teachers. The arrangements for this scheme mean that liabilities for these benefits cannot be identified with the Council. The scheme is, therefore, accounted for as if it were a defined contributions scheme - no liability for future payments of benefits is recognised in the Balance Sheet and revenue accounts are charged with the employer's contributions payable to the Teachers' Pensions Agency in the year. The pension cost charged to the accounts is the contribution rate set on the basis of a notional fund.
- The Local Government Pension Scheme, administered by the Merseyside Pension Fund for all other employees. From 1 October 1987 the Council has administered this Fund on behalf of all scheduled and admitted bodies. The Council operates a defined benefit scheme and costs are charged to the Council's accounts on the basis of a three-yearly actuarial valuation. In 2011/12 the payment to the Fund was comprised of a contribution towards the past deficit and 12% of pensionable pay. The latest valuation was at 31 March 2010 and determined the contributions for the years 2011/14.

Further information on the specific accounting policies may be found in the section dealing with the Merseyside Pension Fund.

Post employment benefits are accounted for in accordance with IAS19. The principle behind this is that an organisation should account for retirement benefits when it is committed to give them, even if the actual payment will be many years in the future. This reflects the Council's commitment in the long-term to increase contributions to make up any shortfall in attributable net assets in the Pension Fund.

The liabilities of the Merseyside Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method - i.e. an assessment of the future payments that will be made in relation to future retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc and projections of projected earnings for current employees.

The assets of the Merseyside Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:-

- quoted securities - bid market value.
- unquoted securities - professional estimate.
- unitised securities - average of the bid and offer rates.
- property - market value.

The change in the net pension's liability is analysed into seven components:-

- (i) current service cost - the increase in liabilities as a result of years of service earned this year, allocated to the revenue accounts of services for which the employees worked.
- (ii) past service gains - the increase in liabilities arising from current year decisions where the effect relates to years of service earned in earlier years, debited to the Surplus or Deficit on the Cost of Services in the Comprehensive Income and Expenditure Statement.
- (iii) interest cost - the expected increase in the present value of liabilities during the year as they move one year closer to being paid, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.
- (iv) expected return on assets - the annual investment return on the Fund assets attributable to the Council, based on an average of the expected long-term return, credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- (v) gains/losses on curtailments - the results of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees, debited or credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- (vi) actuarial gains/losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. These are effected in the Pension Reserve.
- (vii) contributions paid to Merseyside Pension Fund - cash paid as employer's contributions to the Pension Fund.

Statutory provisions limit the Council to raising Council Tax to cover the amounts payable by the Council to the Pension Fund in the year. In the Movement in Reserves Statement on the General Fund Balance this means that there is an appropriation to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and any amounts payable to the Fund but unpaid at the year-end.

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirement. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are either accrued in the year of the decision to make the award or reimbursed to the Pension Fund over a five-year period.

## **EVENTS AFTER THE BALANCE SHEET DATE**

Where a material event occurs after the Balance Sheet date, favourable or unfavourable, which provides evidence of conditions that existed at the Balance Sheet date, the amounts recognised in the Statement of Accounts are adjusted to reflect this.

Where a material event occurs after the Balance Sheet date, that is indicative of conditions that arose after the Balance Sheet date, the amounts recognised in the Statement of Accounts are not adjusted to reflect this

Events after the Balance Sheet date are reflected up to the date when the Statement of Accounts are authorised for issue, which is the date they are validated by the Acting Director of Finance and Section 151 Officer.

## **EXCEPTIONAL ITEMS AND PRIOR YEAR ADJUSTMENTS**

Exceptional items are, where appropriate, included in the cost of services to which they relate in order to give a fair representation of the accounts.

Material adjustments applicable to prior years arising from changes in accounting policy or from the correction of fundamental errors are accounted for by restating the comparative figures for the preceding period in the Statement of Accounts and supporting notes. If there is a material effect on the outturn for the preceding period this is disclosed where practicable.

## **FINANCIAL INSTRUMENTS**

A financial instrument is any contract that gives rise to a financial asset of an entity and a financial liability or equity instrument in another. The term "financial instrument" covers both financial assets and liabilities and includes, amongst others, trade receivables and payables, borrowings, financial guarantees, bank deposits and loans receivable.

### **Initial Recognition**

Financial instruments will be recognised on the Balance Sheet when, and only when, the holders become a party to the contractual provisions of the instrument, i.e. when the purchasers become committed to the purchase or, in the case of the loan, the cash changes hands. Sales and disposals of financial assets will be recognised in the same way.

Trade receivables and payables will, in contrast, only be recognised when the goods and services have actually been delivered or received.

## **Initial Measurement**

Financial assets and liabilities are measured initially at fair value less transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability.

## **Financial Liabilities**

Financial liabilities are initially measured at fair value and carried at their amortised costs. Annual charges to the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability multiplied by the effective rate of interest for the instrument.

## **Financial Assets**

Financial Assets are classified into two types:

- Loans and Receivables – assets that have fixed or determinable payments but are not quoted in an active market.
- Available for sale – assets that have a quoted market price and/or do not have fixed or determinable payments.

## **Loans and Receivables**

Loans and receivables are initially measured at fair value and carried at amortised costs. Annual credits to the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most loans the Council has made this means that the amount presented in the Balance Sheet is the outstanding principal receivable and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year. Where assets are identified as impaired because of a likelihood arising from a past event that payment due under the contract will not be made, the asset is written down and a charge is made to the Comprehensive Income and Expenditure Statement.

## **Available for Sale Assets**

Available for sale assets are initially measured and carried at fair value. Where there are no fixed or determinable payments, income is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable to the Council.

Financial assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:-

- Instruments with quoted market prices – the market price.
- Other instruments with fixed or determinable payments – discounted cash flow analysis.
- Equity Share with no quoted market price – appraisal of the valuation.

Changes in fair value are balanced by an entry in the Available for Sale Reserve and the gain/loss is recognised in the surplus or deficit on revaluation of available for sale financial assets. The exception is where an impairment loss has been incurred. These are debited to the Comprehensive Income and Expenditure Statement along with any net gains/losses for the asset accumulated in the Reserve. Where fair value cannot be measured reliably the instrument is carried at cost (less any impairment).

**Instruments entered into before 1 April 2006**

The Council has entered into a number of financial guarantees that are not required to be accounted for as financial instruments. These guarantees are reflected in the Statement of Accounts if a provision or contingent liability note is required.

**Disclosure of the nature and risk arising from Financial Instruments**

The Council activities expose it to a variety of financial risks such as:

- Credit risk – the risk that other parties might fail to pay amounts due.
- Liquidity risk – insufficient funds available to meet commitments.
- Market risk – financial loss as a result of changes in interest rates.

In order to minimise these risks the Council complies with the CIPFA Prudential Code, the CIPFA Treasury Management in Public Services Code of Practice and Investment Guidance issued through the Local Government Act 2003.

**FOREIGN CURRENCY**

The Council maintains its accounts in sterling. Income and expenditure arising from transactions undertaken in foreign currency are converted into sterling at the exchange rate in operation at the date the transaction occurred.

**GOVERNMENT GRANTS AND OTHER CONTRIBUTIONS**

Government grants and other contributions are accounted for on an accruals basis and recognised in the accounting statements when the conditions for their receipt have been complied with and there is reasonable assurance that the grant or contribution will be received. This also applies to grants in respect of revenue expenditure funded from capital under statute.

Specific revenue grants and contributions are credited to the relevant service to match the expenditure to which they relate. General revenue grants, such as Revenue Support Grant and the contribution from National Non-Domestic Rates, are made to finance the general activities of the Council and are credited to the Comprehensive Income and Expenditure Statement in the year receivable.

Grants related to the funding of capital expenditure are credited to financing and investment income and expenditure at the foot of the Comprehensive Income and Expenditure Statement when the conditions regarding their use are met. This income is reversed out in the Movement in Reserves Statement to either the Capital Adjustment Account, if the grant has been used to finance capital expenditure in the year or to the Capital Grants Unapplied Account until it is applied. Grants with conditions attached are held as receipts in advance in the Capital Grants Receipts in Advance in the Movement in Reserves Statement. The grant is credited to the Comprehensive Income and Expenditure Statement when the conditions no longer apply.

## **GROUP ACCOUNTS**

Group Accounts are covered by IFRS 3 Business Combinations.

An assessment of the criteria for the completion of group accounts has been undertaken and the conclusion reached that there was no requirement to produce such accounts. Only the Council's share of Joint Arrangements that are not entities have been included in the Statement of Accounts.

## **HERITAGE ASSETS**

Heritage assets are assets which have historic, artistic, scientific, geophysical or environmental qualities. This group of assets are held and maintained principally because of their contribution to knowledge and culture.

This group of assets, including collections, above de minimis are recognised in the Balance Sheet wherever possible at valuation or cost. In some instances this has not been possible. The distinctive and rare nature of this group of assets can make valuations complicated, and in some cases values are not obtainable, either due to the nature of the assets or the high cost of obtaining valuations. In these cases, the assets are not included as a value on the Balance Sheet but detailed in notes to the Statement of Accounts.

The carrying amount of heritage assets are reviewed where there is evidence of impairment e.g. where an item has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any impairment would be recognised and measured in accordance with the policies on impairment. Because the various categories of heritage assets have indeterminate lives and/or high residual values it is not considered appropriate to charge depreciation.

## **INTANGIBLE ASSETS**

Expenditure on assets that do not have physical substance but are identified and controlled by the Council (e.g. software licences) is capitalised when it will bring benefits to the Council for more than one financial year. The balance is amortised to the relevant service revenue account over the economic life of the investment to reflect the pattern of consumption of benefits.

A purchased intangible asset is capitalised at cost. Internally developed intangible assets are only capitalised if there is a readily ascertainable market. They are reviewed for impairment at the end of the first full financial year following operation.

## **INVESTMENT PROPERTIES**

The Council classifies investment properties as property which is held exclusively for revenue generation or for the capital gains that the asset is expected to generate. In this respect, the asset is not used directly to deliver the Council's services. Any property that is used to facilitate the delivery of services as well as earn rentals or, for capital appreciation, does not meet the definition of an investment property, is accounted for as property, plant and equipment.

An investment property is measured initially at cost. After initial recognition, investment property is measured at fair value. A gain or loss arising from a change in the fair value of investment property is recognised in the Comprehensive Income and Expenditure Statement for the period in which it arises. The fair value of investment property reflects the market conditions at the Balance Sheet date. An investment property held at fair value is not depreciated.

## **JOINT ARRANGEMENTS THAT ARE NOT ENTITIES (JANE)**

A JANE is a contractual arrangement under which the participants engage in joint activities that do not create an entity because it would not be delivering a service or carrying on a trade or business of its own.

Under a JANE the Council engages in a joint activity with another organisation, but this arrangement is not carrying out a trade or business of its own. The Council accounts for its own transactions within the arrangement, for example, income and expenditure arising within the JANE.

## **LEASING**

Leases are classified as either finance leases or operating leases based on the extent to which risks and rewards incidental to ownership of a leased asset lie with the lessor or the lessee. Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of any legal agreement.

### **The Council as Lessee**

#### **Finance Lease**

The Council, as lessee, recognises finance leases as assets and liabilities at amounts equal to the fair value of minimum lease payments. Minimum lease payments are apportioned between the finance charged and the reduction of the outstanding liability. The finance charge is calculated so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

The depreciation policy for assets held under finance leases is consistent with the depreciation policy for owned assets.

#### **Operating Leases**

Lease payments under an operating lease are recognised as an expense on a straight line basis over the lease term.

## **The Council as Lessor**

### **Finance Lease**

The Council, as lessor, recognises assets held under finance lease as receivable at an amount equal to the net investment in the lease. The lease payment receivable is treated as repayment of principal and finance income. The finance income is calculated so as to produce a constant periodic rate of return on the net investment.

### **Operating Lease**

Items of property, plant and equipment subject to operating leases are presented according to the nature of the asset.

Income from operating leases is recognised on a straight line basis over the lease term. Depreciation policy for depreciable leased assets is consistent with the depreciation policy for other similar assets.

### **Arrangements containing a lease**

An arrangement comprising a transaction that does not take the legal form of a lease but conveys a right to use an asset (e.g. an item of property, plant and equipment) in return for a payment or a series of payments, may be accounted for as though the arrangement is, or contains, a lease.

Determining whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether:

- a) Fulfilment of the arrangement is dependent on the use of a specific asset or assets.
- b) The arrangement conveys a right to use the asset.

## **LOCAL TAXES**

### **Council Tax**

Council Tax debtors are shown exclusive of the proportions attributable to the major preceptors. Council Tax income for the financial year credited to the Comprehensive Income and Expenditure Statement is the accrued income for the year together with the share of the surplus/deficit on the Collection Fund at the end of the previous financial year. The difference between this amount and the Council Tax income credited to the General Fund is a reconciling amount in the Movement in Reserves Statement.

### **National Non-Domestic Rates**

A National Non-Domestic Rates creditor represents the amount collected on behalf of the Government but not yet paid over at the Balance Sheet date. A National Non-Domestic Rates debtor represents the amount collected on behalf of the Government but overpaid at the Balance Sheet date.

## **NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS**

### **Non-Current Assets held for sale**

The Council classifies assets as non-current assets held for sale if the carrying amount is to be recovered through a sale rather than through continued use. The criteria for such a classification also includes the asset being available for immediate sale in its present condition, the sale must be highly probable, there must be a management plan to sell the asset and it is being actively marketed. The sale also has to be expected to be completed within one year from the date of classification, although there are exceptions.

Assets classified as held for sale are valued at the lower of carrying value immediately prior to classification and fair value less costs to sell where known. If assets no longer meet the criteria to be classified as held for sale, they are reclassified back to non-current assets and valued at the lower of its carrying amount before it was classified as held for sale: adjusted for depreciation, amortisation or revaluations that would have been recognised had it not been classified as held for sale, and its recoverable amount at the date of the decision not to sell.

### **Discontinued operations**

The consequences of discontinued operations will be presented separately in the Comprehensive Income and Expenditure Statement.

To qualify as discontinued operations, activities must cease completely. Prior periods presented in the financial statements are restated for discontinued operations so that current and prior periods relate to all operations that have been discontinued by the end of the reporting period being presented.

## **NON-DISTRIBUTED COSTS**

The definition of non-distributed costs is limited to past service costs of surplus assets, settlements, curtailments, unused IT facilities, other unrealisable assets, impairment losses and depreciation relating to specific assets and revenue costs.

## **OVERHEADS**

In line with the Service Reporting Code of Practice 2011/12, charges or apportionments for the costs of support services are made to all users. Support service costs are allocated using the most appropriate basis available, for example, allocated on the basis of actual time spent by staff on the various services. Other bases are used to allocate computing costs which are allocated on the amount of central processing use and Service Level Agreements. Administrative Buildings are allocated on the basis of area occupied. The costs of the Corporate and Democratic core and of Non-Distributed costs are each allocated to a separate objective expenditure head and are not apportioned to other expenditure heads.

## **PRIVATE FINANCE INITIATIVE (PFI)**

Where the Council has entered into a PFI or similar contract then the Council will recognise the asset and liability on the Balance Sheet and account for it as if it was a finance lease if:-

- this involves an operator constructing, acquiring or enhancing and then operating and managing an asset in order to provide or enable the Council to provide services to the public; and,
- the Council controls or regulates the services provided through use of the asset and has a significant residual interest in the asset.

The Council will then recognise the asset and liability on the Balance Sheet and account for it as if it was a finance lease. The remaining service element of the contract payment will be charged to revenue as incurred.

## **PROPERTY, PLANT AND EQUIPMENT**

### **Recognition**

All expenditure on the acquisition, creation or enhancement of property, plant and equipment is capitalised on an accruals basis in the accounts. Expenditure on the acquisition of or expenditure that adds to, and not merely maintains, the value of an existing asset, is capitalised, and classified as property, plant and equipment, provided that it yields benefits to the Council and the services it provides, for a period of more than one year. This excludes expenditure on routine repairs and maintenance of property, plant and equipment that is charged directly to service revenue accounts. It does, however, include expenditure such as the acquisition of land and buildings, and the construction and enhancement of roads, buildings and other structures.

A de minimis level of £10,000 applies. The cost of any project with expenditure below £10,000 is charged to revenue rather than being capitalised.

The Council maintains a detailed asset register of all assets that it owns and recognises under finance leases and PFI contracts. The basis of valuation and depreciation for each category of asset is included in a note to the Statement of Accounts.

### **Measurement**

Property, plant and equipment are valued on the basis recommended by CIPFA and in accordance with the Statements of Asset Valuation Principles and Guidance Notes issued by The Royal Institution of Chartered Surveyors (RICS). Property, plant and equipment are classified according to the Code.

The following are included in the Balance Sheet using the measurement basis:-

- Infrastructure assets and community assets are included in the Balance Sheet at historic cost net of depreciation, where appropriate.
- Other land and buildings, vehicles, plant and equipment are included at fair value.
- Property, plant and equipment under construction are held at cost.
- Surplus assets are included at fair value.

In accordance with CIPFA guidance, all assets, with the exception of infrastructure, were revalued by the end of March 2003. Qualified valuers employed within the Department of Law, HR and Asset Management, using the valuation techniques referred to above, undertook the valuation exercise. A further valuation of all assets was undertaken on the basis of a rolling programme by March 2012.

Increases in valuations are credited to the Revaluation Reserve except where they arise from the reversal of an impairment or revaluation loss previously charged to the surplus or deficit on the provision of services.

Revaluation gains are depreciated with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost. This amount is transferred each year from the Revaluation Reserve to the Capital Adjustment Account. The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date when it came into existence. Gains arising before that date have been consolidated in the Capital Adjustment Account.

Assets are recognised into components for depreciation purposes when the component has a significant cost compared to the total cost of the item and a different useful life to the remainder of the asset. Enhancement expenditure requires the de-recognition of the component replaced or restored, and the new component reflected in the carrying amount even where parts of an asset were not previously recognised as a separate component.

The Council does not capitalise borrowing costs where it is incurred during the period the asset is under construction.

## **Impairment**

The value of each category of assets is reviewed at the end of each reporting period to assess whether there is any evidence of impairment loss. This would arise, for example, from a significant decline in the asset's market value, evidence of obsolescence or physical damage, a change in the regulatory environment within which the Council operates or a commitment to undertake a significant re-organisation. All impairment is written off against any revaluation gains attributable to the relevant asset in the Revaluation Reserve, with any excess being charged directly to the service.

The reversal of both impairments and revaluation losses made to services cannot exceed the carrying amount that would have been determined / net off amortisation or depreciation / had no impairment or revaluation loss been recognised for the asset in prior years. The reversal of an impairment loss is recognised in the circumstance that the increase in value is mirrored by the reversal of the event that caused the original impairment to be recognised. Impairment is also charged where there has been expenditure that has not resulted in any upward revaluations.

## **Depreciation**

Depreciation is charged on all Property, Plant and Equipment assets with a finite useful life apart from non-depreciable land, community assets and assets that are not yet available for use (i.e. under construction). It is calculated on the amount at which the asset is included in the Balance Sheet less an estimate for its residual value.

Revaluation gains are also depreciated with an amount equal to the difference between current values depreciated charged on assets and the depreciation that would have been chargeable based on their historic cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

## **Disposals**

When an asset is disposed of the value of the asset in the Balance Sheet is written off to the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

No assets are revalued immediately prior to disposal unless legislation requires/allows the Council to do so.

Amounts in excess of £10,000 are classified as capital receipts. Such receipts from disposals are accounted for on an accruals basis and credited to the Capital Receipts Reserve. A proportion of receipts relating to housing disposals are paid over to Central Government as a 'housing pooled capital receipt'. This is charged to the Net Operating Cost section of the Comprehensive Income and Expenditure Statement and the same amount is appropriated from the Usable Capital Receipts Reserve and credited to Movement in Reserves Statement.

## **Charges to Revenue for Property, Plant and Equipment**

All general fund service revenue accounts, including support services and trading accounts, are charged with the following amounts to record the real cost of all assets used in the provision of services:-

- Depreciation attributable to the assets used by the relevant service.
- Impairment/revaluation losses attributable to the clear consumption of economic benefits on non-current assets used by the service.
- Amortisation of intangible assets attributable to the service.

The financing of capital expenditure from revenue is disclosed separately as an appropriation in the Movement in Reserves Statement.

## **PROVISIONS**

The Council sets aside provisions for specific future expenses that are likely or certain to be incurred but the amount and timing of which cannot yet be determined accurately. They are only made where there is a present obligation based on a past event, it is probable that a transfer of economic benefit will occur and a reliable estimate can be made of the obligation.

Provisions are charged to an appropriate service line in the Comprehensive Income and Expenditure Statement in the year the Council becomes aware of the obligation. When payments for expenditure are incurred to which the provision relates they are charged directly to the provision. They are reviewed at the Balance Sheet date and adjusted as necessary to reflect the current best estimate.

The principal provisions relate to bad debts and insurance. The former have been deducted from debtors in the Balance Sheet, rather than being shown in provisions. As part of compliance with IFRS 7, "Financial Instruments: Disclosure", amounts shown as due from debtors are individually or collectively (for debts that are not significant) reviewed for impairment. Any known uncollectable debts will be written off to the appropriate service account. The insurance provision relates to outstanding liability claims. The figure is the sum indicated by actuaries, updated by an internal assessment, as being required to fund claims for years up to and including 2011/12.

## **REPURCHASE OF BORROWING**

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Comprehensive Income and Expenditure Statement in the period during which the repurchase or early settlement is made.

Where repurchase has taken place as part of a restructuring of borrowing with substantially the same overall economic effect when viewed as a whole, the premiums or discounts can respectively be deducted from or added to the amortised cost of the new or modified loan. The write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate. If the repurchase has been determined as substantially different, the premiums or discounts are immediately fully written-off to revenue.

For premiums and discounts that have been charged to the Comprehensive Income and Expenditure Statement, Government regulations allow for the impact on the General Fund balances to be spread over future years with an offset through a transfer to the Financial Instrument Adjustment Account shown within the Movement in Reserves Statement.

Balances held in the Financial Instrument Adjustment Account will be written-off to revenue in accordance with the Government regulations.

## **RESERVES**

Amounts set aside for purposes falling outside the definition of provisions are considered as reserves. Reserves are an accumulation of previous years' surpluses, deficits and transfers and are categorised as either "Usable" or "Unusable". Reserves include earmarked reserves set aside for specific policy purposes and balances that represent resources set aside for purposes such as general contingencies and cash flow management. Reserves are created by appropriating amounts through the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account in that year to score against the cost of services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back to the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.

The Usable reserves held at 31 March 2012 include:-

- General Fund.
- Earmarked Reserves.
- Capital Receipts Reserve.
- Capital Grants Unapplied.

The Unusable reserves include:-

- Revaluation Reserve.
- Available for Sale Financial Instrument Reserve.
- Pension Reserve.
- Capital Adjustment Reserve.
- Financial Instrument Adjustment Account.
- Collection Fund Adjustment Account.
- Short Term Accumulating Compensated Absences Account.

Usable reserves are those the Council may use to fund either revenue or capital expenditure. Unusable reserves are kept to manage the accounting process and they do not represent usable resources for the Council.

An estimation technique applies to the Insurance Fund Liability Reserve which is similar to that referred to in the section on provisions.

## **REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)**

Revenue expenditure funded from capital under statute represents expenditure that may be capitalised but does not result in the creation of an asset. It is amortised to revenue over an appropriate period consistent with the consumption of the economic benefits controlled by the Council. Consequently, these items are normally written off as expenditure to the relevant service revenue account in the year of payment. If financed from existing capital resources or borrowing, a transfer to the Capital Adjustment Account from the Movement in Reserves Statement reverses out the amounts charged to the Comprehensive Income and Expenditure Statement so that there is no impact on the level of Council Tax.

## **VALUE ADDED TAX (VAT)**

Income and expenditure excludes any amounts related to VAT, as VAT collected is payable to HM Revenue and Customs and VAT paid is recoverable from them. VAT is included in the Comprehensive Income and Expenditure Statement only if it is irrecoverable.

The Glossary of Financial Terms provides an explanation of technical terms and abbreviations.

## **2. ACCOUNTING STANDARDS ISSUED BUT NOT YET ADOPTED**

For 2011/12 the only change not adopted relates to IFRS 7 Financial Instruments: Disclosures (transfer of financial assets). The impact of this amendment will be reported in the 2012/13 accounts and will not have a material or significant effect on the Council's financial statements.

### 3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The following are critical judgements that have been made in the process of applying the accounting policies and that have the most significant effect on the amounts recognised in the Statement of Accounts:

- There is a high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- The treatment of schools in the Wirral area that are Government funded but not under the direction of the Local Education Authority is currently under review by CIPFA. The Council has determined that there is not yet sufficient guidance on the treatment of the assets in the Balance Sheet. These assets, which are in excess of £50 million, are not included in the Statement of Accounts.

### 4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2012 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
<b>Pensions Liability</b>	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	<p>The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, a 0.1% increase in the discount rate assumption would result in a decrease in the pension liability of £17.599 million. However, the assumptions interact in complex ways. During 2011/12, the Council's actuaries advised that the net pensions liability had increased by £60.154 million. This increase includes:</p> <ul style="list-style-type: none"> <li>• a decreased actuarial valuation of scheme assets of £63.205 million;</li> <li>• increased pension costs recognised for the scheme of £28.081 million</li> <li>• employer contributions actually paid of £31.132 million.</li> </ul>

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
<b>Property, Plant and Equipment</b>	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings would increase by £0.5 million for every year that useful lives had to be reduced. Over a period of 5 years (before the next valuation takes place) this could result in an error of £2.1 million - this is not material.
<b>Leases</b>	Within the Council departments and schools a number of leases have been identified. In determining their fair value a number of assumptions have been made about their values with some being determined from the cost of similar assets or rental income.	As the total depreciated value of leases is £3 million the effect of the estimation is not material.

This list does not include assets and liabilities that have recently observed market price.

## 5. MATERIAL ITEMS OF INCOME AND EXPENSE

For 2011/12 three Council schools have become Academies. This is treated as a loss on disposal of a non-current asset in the Comprehensive Income and Expenditure Account and amount to in excess of £30 million.

For 2010/11 items in the Comprehensive Income and Expenditure Statement that are not disclosed on the face of the Statement but are material include pension costs and curtailments within Non Distributed costs line. These two items amount to a credit of £58.8 million. This was a one off gain that has not been repeated in 2011/12.

## 6. EXCEPTIONAL ITEMS

Exceptional Items are disclosed in this note as, due to their nature and for the infrequency of the events giving rise to them, this allows the readers to have a better understanding of the financial performance for the year in comparison to previous years.

For 2010/11 the accounts contained two exceptional items:

A total of £21.3 million in additional Termination Benefits (referred to in note 41) have been incurred during 2010/11.

A past service pension gain of £60.8 million is included within the Non-Distributed Costs line in the Comprehensive Income and Expenditure Statement. This follows the Chancellor of the Exchequer's June 2010 Budget announcement to changes in public

sector pension arrangements. Future pension increases will be based on the anticipated lower Consumer Price Index rather than on the Retail Price Index. Past service costs and curtailments form the total Non- Distributed Costs total.

<b>Non-Distributed Costs Line</b>	<b>£000</b>
Past Service Gain	(60,849)
Curtailments	5,582
<b>Total</b>	<b>55,267</b>

## 7. EVENTS AFTER THE BALANCE SHEET DATE

The Council's cabinet on 6 September 2012 decided to utilise £7.2 million of the Working Neighbourhood Earmarked Reserve detailed in note 9, page 62, to fund services in the 2012/13 financial year.

The Code requires the disclosure of the date that the financial statements were authorised for issue and therefore the date after which events will not have been recognised in the Statement of Accounts. This date is set at 28 September 2012, in respect of the preparation of the audited Statement of Accounts for 2011/12.

## 8. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total Comprehensive Income and Expenditure recognised by the Council in the year, in accordance with proper accounting practice, to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

2010/11	Usable Reserves			Movement in Usable Reserves £000	Movement in Unusable Reserves £000
	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied £000		
<b>Adjustments primarily involving the Capital Adjustment Account:</b>

## 9. TRANSFERS TO/FROM EARMARKED RESERVES

The Council keeps a number of reserves in the Balance Sheet that have been set up to earmark funding for future spending plans. These are held for costs which are likely to be incurred but their timing is not certain and they cannot be met from annual budgets. A review of reserves was carried out as part of the 2012/13 budget setting process. The following describes each earmarked reserve where the balance is in excess of £0.25 million on either 31 March 2011 or 31 March 2012.

Earmarked Reserves	Balance at 1 April 2009 £000	Movement 2009/10 £000	Balance at 31 March 2010 £000	Movement 2010/11 £000	Balance at 31 March 2011 £000	Movement 2011/12 £000	Balance at 31 March 2012 £000
Schools Balances	9,214	(787)	8,427	3,306	11,733	34	11,767
Housing Benefit	13,995	1,300	15,295	(3,140)	12,155	(1,000)	11,155
Insurance Fund	14,074	(294)	13,780	(4,243)	9,537	98	9,635
Working Neighbourhood Fund	5,524	6,255	11,779	(1,477)	10,302	(2,343)	7,959
Debt Restructuring	7,022	919	7,941	-	7,941	-	7,941
Minimum Revenue Provision	4,400	-	4,400	-	4,400	-	4,400
Community Fund Asset Transfer	-	-	-	3,721	3,721	(420)	3,301

### Schools Balances

These are earmarked for use purely by the schools. The balance consists of: -

	£000
Schools underspending	11,992
Schools overspending	(225)
Net Schools balances	11,767

### Housing Benefit

There is an ongoing issue relating to the previous Housing Benefit Supporting People arrangements, the potential claw-back of subsidy against recent years and sums set-aside for the further development of integrating supporting IT systems.

### Insurance Fund

This is primarily required to cover possible liability insurance claims. The overall estimate of the amount required to cover these is based on an actuarial investigation which seeks to estimate the ultimate claims arising in respect of each risk period, adjusted to allow for any subsequent deterioration in the Council's claims experience. The basis for calculation of the provision is claims not yet reported but anticipated.

### Working Neighbourhood Fund

Working Wirral resources are used to commission activity to deliver the Investment Strategy priorities of tackling worklessness, improving skills levels and increasing enterprise, business growth and investment. The reserve represents the sums identified for the delivery of the programme which covers a number of years.

### Debt Restructuring and Financing

To cover the premiums associated with the early repayment of debt, future interest rate increases and costs associated with the termination of leases.

### Minimum Revenue Provision (MRP)

The Capital Finance and Accounting Regulations 2008 introduced new methods for calculating the MRP. The reserve has been established to offset any resultant increase in costs.

### Community Fund Community Asset Transfer

The Community Fund grant has been allocated by Wirral Partnership Homes and this is the balance of the grant to implement the Community Fund Asset Transfer. After progress made in 2011/12, the funding is to be used by 31 March 2013.

### Intranet Development

For the expansion and development of ICT services in the implementation of the programme agreed as part of the IT Strategy.

### Local Pay Review

The amount identified, and set-aside, to fund the costs of implementing proposals to harmonise and simplify working arrangements as well as meeting the requirements arising from the implementation of equal pay legislation.

**One Stop Shop / Libraries IT Network**

To develop the Information Technology systems within the One Stop Shops and libraries as part of the provision of a more integrated service.

**Supporting People Programme**

Permission has been granted from the Department for Communities and Local Government (DCLG) to retain any administration and specific programme grant for use in future years. This reserve is to be spent on a number of initiatives to support people in need to live in their own homes.

**Cosyhomes Insulation**

To facilitate a programme of insulation in homes throughout Wirral.

**Schools Harmonisation**

To fund the potential costs associated with implementing Phase 2 of the Local Pay Review which relates to those employees within schools.

**Stay, Work, Learn Wise**

The Stay, Work, Learn Wirral Wise grant may be required to be repaid.

**Schools Capital Schemes**

This is for the delivery and completion of capital schemes within schools.

**Matching Fund**

The aim is to provide funds for any special initiatives that may arise involving grants, which will need to be matched by the Council.

**20MPH Zones**

This has been set up to part fund a four year programme to provide 20mph speed limits in residential areas within Wirral.

**Home Adaptations**

To facilitate a programme of minor adaptations to improve standards of living.

**West Wirral Schemes**

To support regeneration schemes in West Kirby and Hoylake. The reserve is to be used as match funding for any capital schemes developed in the future.

**Merseyside Information Service Termination Costs**

This has been created to cover any further potential costs from the winding up of this organisation. It will be used when the accounts for the services have been finalised.

**ERDF Match Funding**

The Council has applied for European Regional Development funding over a 2 year period to support its Business Support Programme, aiming to promote and support new and existing businesses with a view to consolidating and expanding economic activity. Support from the European Regional Development Fund will be dependent upon match funding of 50% from the Council.

**Strategic Asset Review**

Reserve established to support the implementation of the review and includes funding for Guinea Gap and capacity building activities.

**Planned Preventative Maintenance**

Fund held to complete a programme of planned preventative maintenance within the Law, HR and Asset Management department and at a number of libraries.

**Heritage Fund**

Funding for individuals, associations and communities to enhance the recording, preservation and protection of the urban, maritime and rural heritage of Wirral.

**Schools Automatic Meter Readers**

Reserve established to cover the running costs of installation and maintenance of automatic meter readers in Wirral schools. This initiative is to introduce meters over a three year period to assist schools in the implementation of the Carbon Reduction Commitment.

**Children's Workforce Development Council**

Income received in 2011/12 to fund training and supervision for newly qualified social workers. This will be used to fund the cost of training and supervising newly qualified social workers and to pay for agency cover if social workers are absent to go on training courses (Early Professional Development Scheme and Newly Qualified Social Workers Income) and will also be used to fund 2 posts (Social Work Improvement Fund).

**Schools Contingency**

Created to cover formula errors that would have been unknown at the time schools budgets were set. Such adjustments may result in an additional budget being allocated from this reserve.

**Business Improvement Grant**

Grants are awarded by a Business Support panel and are funded from a revenue budget. As at the 31 March 2012 grant awards totalling £342,010 were outstanding pending valid claims from the grantee. Such claims will be submitted and financially settled in the 2012/13 financial year.

**Local Area Agreement (LAA) Reward**

To fund agreed allocations of performance grant held by Wirral Council acting as the LAA accountable body. These will be paid to LAA partners in accordance with grant conditions.

**Primary Care Trust – Physical Activities**

Funding from the primary care trust for health related schemes. These will take place in Council sports centres and be organised by Sport Development.

**Schools Service IT**

The service is fully funded from schools contributions and this reserve supports the service in the event of changing demands for IT services from schools.

**Schools Summer Term**

To cover the cost of advisory teachers in the summer term in the event of schools not deciding to purchase services.

**Homeless Prevention**

The fund is used to offer loans to prevent repossessions and evictions.

**10. OTHER OPERATING EXPENDITURE**

<b>2010/11 £000</b>		<b>2011/12 £000</b>
44,564	Levies	44,975
17	Payments to the Government Housing Capital Receipts Pool	12
10,979	Gains / losses on the disposal of non-current assets	61,719
<b>55,560</b>	<b>Total</b>	<b>106,706</b>

The disposal of non current assets mainly relates to the transfer out of the Council's control of a number of schools e.g. the establishment of Academies. The Council no longer receives funding for these schools.

**11. FINANCING AND INVESTMENT INCOME AND EXPENDITURE**

<b>2010/11 £000</b>		<b>2011/12 £000</b>
14,489	Interest payable and similar charges	14,359
17,765	Pensions interest cost and expected return on pensions assets	10,917
(1,703)	Interest receivable and similar income	(2,247)
(3,072)	Income and expenditure in relation to investment properties and changes in their fair value	477
(72)	Gains and losses on trading accounts	(236)
<b>27,407</b>	<b>Total</b>	<b>23,270</b>

**12. TAXATION AND NON SPECIFIC GRANT INCOME**

<b>2010/11 £000</b>		<b>2011/12 £000</b>
132,013	Council tax income	132,528
137,844	Non domestic rates	121,312
63,149	Non-ringfenced government grants	47,750
41,620	Capital grants and contributions	18,449
<b>374,626</b>	<b>Total</b>	<b>320,039</b>

### 13. PROPERTY, PLANT AND EQUIPMENT

#### Movements on Balances

#### Movements in 2011/12:

## Depreciation

The following useful lives and depreciation rates have been used in the calculation of depreciation:

Other Land and Buildings - 1-60 years

Vehicles, Plant, Furniture & Equipment – 3-40 years

Infrastructure – 10-120 years

Surplus Assets – 5 years

Land and Buildings asset lives range from 1 to 60 years which reflect the service lives of the assets as assessed by the Council's valuers.

## Capital commitments

The major contractual commitments at 31 March 2012 are:

	£000
Pensby Primary School	6,009
Birkenhead Girls Academy	3,000
The Priory	621
Overchurch Infants School	587
Leasowe Road Bridge	518
Williamson Art Gallery	367
Woodlands Primary School	278
Bidston Moss Viaduct	247
Woodchurch High 3G Pitch	238

Similar commitments at 31 March 2011 were £4.7 million

## Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. All valuations were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

	<b>Other Land and Buildings £000</b>	<b>Surplus Assets £000</b>	<b>Total £000</b>
Carried at historical cost			
valued at fair value as at:			
31 March 2012	74,362	1,189	75,551
31 March 2011	35,076	80	35,156
31 March 2010	35,057	-	35,057
31 March 2009	101,516	794	102,310
31 March 2008	237,419	-	237,419
<b>Total Cost or Valuation</b>	<b>483,430</b>	<b>2,063</b>	<b>485,493</b>

## 14. HERITAGE ASSETS

## Heritage Assets: Five-Year Summary of Transactions

	2010/11 £000	2011/12 £000
<b>Cost of Acquisitions</b>	-	-
<b>Value Acquired by Donation</b>		
Fine Art	-	35
<b>Disposals</b>	-	-
<b>Impairment recognised in the period</b>		
Civic Regalia	-	116
Transport	-	10

Although the above note should provide the analysis for a five year period, it is not practicable that this can be undertaken and therefore in accordance with the Code the information is presented for the periods 1 April 2010 onward.

### Fine Art, Decorative Art and Other Collections

These collections are housed at the Williamson Art Gallery and the more important collections consist of:

#### Fine Art

British Watercolours – by a series of bequests and purchases, notably between 1920 and 1935 the Gallery has a significant collection of 18th and 19th century watercolour paintings and drawings by British artists.

The Liverpool School – Merseyside produced a large number of significant artists in the period 1810 to 1910 and the Liverpool School is well represented in the Williamson collections.

Philip Wilson Steer – born in Birkenhead in 1860 he became especially important in the artistic heritage of the Wirral. The Williamson now holds a collection of his work that is of national importance.

Local paintings – the Museum is virtually the only institution on Merseyside actively researching local historic and contemporary painters. Works by leading local artists are housed at the Museum.

There are over 5,000 items in the Fine Art collection, the most important of which are by Albert Joseph Moore (£200,000) and one attributed to Jan Breughel (£200,000).

#### Decorative Art and Other collections

The most important items are:

Several factories were producing porcelain of various types and quality in Liverpool between 1750 and 1800. The Knowles Boney collection of some 300 pieces is very comprehensive and was presented to the Museum some 55 years ago.

The collection of Della Robbia pottery forms an unrivalled addition to the history of Merseyside ceramics. Produced in Birkenhead between 1894 and 1906, items purchased in the 1920's from the founder Harold Rathbone forms the basis of this comprehensive collection.

Apart from these two important collections there is also a good collection of 18th and 19th century British ceramics.

When Lee Tapestry Works of Birkenhead closed in 1970 the Museum acquired a collection of drawings, photographs and fabric samples illustrating the work of Arthur H. Lee and Sons.

There are also collections of glass, metalwork, jewellery, furniture, maritime models, ethnography, artefacts, geology and others. In total there are over 4,700 items in these various collections.

### **Acquisition Policy**

The Museum recognises its responsibility in acquiring additions to its collections, to ensure that care of collections, documentation arrangements and the use of collections will meet the requirements of the Accreditation Standard. It will take into account limitations on collections imposed by such factors as staffing, storage and care of collection arrangements.

The Council has determined criteria governing future acquisitions including the subject of themes, periods of time and/or geographical areas and any collections which are not subject to further acquisition. The expansion of collections is achieved by donation, bequest and purchase using the Museum's own small purchase fund and grant aid from the Friends of the Williamson Art Gallery and Wirral Museums, The Art Fund and the MLA Purchase Funds administered by the Victoria and Albert Museum and Science Museum.

Examples of how this policy translates would include the plan to develop the collection of British watercolours in perceived areas of weakness e.g. Pre-Raphaelite artists and to seek additions to the Liverpool School. In the case of the various collections of porcelain, the Liverpool collection would be expanded only for exceptional items whereas there are no plans to add to the Oriental collection.

### **Disposal procedure**

The Museum does not undertake disposal motivated principally by financial reasons. The decision to dispose of material from the collections will be taken after full consideration of the reasons for disposal. This includes curatorial and financial reasons as well as the public benefit, the implication for the Museum's collections and collections held by museums and other organisations collecting the same material. External expert advice will be obtained and the views of stakeholders such as donors, researchers, local and source communities served by the Museum will also be sought.

A decision to dispose of a specimen or object, whether by gift, exchange, sale or destruction will only be taken acting on the advice of professional curatorial staff, if any, and not of the curator of the collection acting alone.

There were no disposals during 2010/11 or 2011/12.

## **Conservation and storage**

The Council maintains its access to professional conservation advice through its liaison with the National Museums Liverpool and freelance conservators. There is a programme in place encompassing environmental monitoring and control in display as well as storage areas. Improvements to the heating and humidifier equipment will be undertaken as necessary based on curatorial staff and conservation advice.

Staff maintain a programme of lighting monitoring and control consistent with the preservation and maintenance of collections. The programme will continue to replace perishable and dangerous materials used in the preservation and storage of the collections. Alternative materials will be consistent with good conservation practice. A record of all conservation work undertaken will be maintained.

## **Exhibition and public services**

The temporary and permanent exhibition policy includes specific periodic displays of all items in the collection where conditions and time to research permit. Exhibitions in non-gallery venues are also encouraged provided suitable conditions are available. Adequate interpretative facilities are ensured for permanent and temporary displays.

Subject to adequate notice and staff supervision any member of the public will be given controlled access to any stored item and related information.

Loan applications are sympathetically considered and the advice of conservation and curatorial staff will determine the feasibility of such applications.

The latest comprehensive valuation was undertaken during the 2008/09 financial year. The present Collection Management Plan suggests valuations to be reconsidered every ten years. This period is retained for the general overview, but consideration may be given to individual items in the interim, especially with regard to adjustments of attribution or identification. Valuations are based on the knowledge of the Principal Museums Officer.

Acquisitions are initially recognised at cost (where that cost is greater than £5,000) and donations are recognised at valuation.

## **Transport**

The Council has a long term commitment towards the development of a heritage trail embracing a transport museum with particular emphasis on Wirral's heritage. The collection of some 30 assets (excluding those on loan) is housed within the Wirral Transport Museum and primarily consists of a number of buses, the oldest being a Guy Arab double decker built in 1943 and a collection of motor cycles, the oldest a 1938 Norton H.

Valuations are based on the technical expertise of the transport museum's technical custodian and reflect an insurance write-off value based on the original funding less any labour costs to restore the vehicle, coupled with the expectation of market value in an open trade related auction. The latest valuation took place in January 2012. There is no specific time frame within which revaluations must take place, however they will be undertaken at regular intervals.

At present there are no active plans to increase the size of the collection.

More information about the Wirral Transport Museum, which houses the vehicle collection, is available on the Wirral Council Website.

(Please see <http://www.wirral.gov.uk/my-services/leisure-and-culture/arts-and-museums/local-museums-and-galleries/wirral-transport-museum> )

## **Civic Regalia**

The collection of civic regalia includes 28 items connected with civic functions undertaken as part of the mayoral role and civic events. It consists of mayoral badges, chains, borough maces etc. with the oldest item dated 1877. It also includes 18 items of memorabilia commemorating events and associations that are of local interest. These items are reported in the Balance Sheet at insurance valuation. The most recent valuation was undertaken in April 2012 by Mr. J. Phillips of St. George Valuations and is based on the likely cost of replacing the item valued with as near a comparable item as is available for purchase second hand. The valuation only reflects the inherent characteristics of the items and does not reflect the surrounding circumstances of the items e.g. their provenance. Revaluations are to be undertaken at a minimum of every ten years.

## **Buildings**

There are two buildings included in the valuation of heritage assets. These are Leasowe Lighthouse, which is the oldest brick built lighthouse in the country and Bidston Hill Windmill, which was operational until 1875. Leasowe Lighthouse is supported by the Friends of Leasowe Lighthouse, which has an active series of events. (See the website [www.leasowelighthouse.co.uk/cms/](http://www.leasowelighthouse.co.uk/cms/)) Similarly there is public access to Bidston Hill Windmill, supported by the Friends of Bidston Hill. For information, please see the "What's On" section of the Wirral Council website ([www.wirral.gov.uk/whats-on](http://www.wirral.gov.uk/whats-on) ).

## **Heritage Assets not reported in the Balance Sheet**

### **Sites of Special Scientific Interest (SSIs) or Biological Importance (SBIs)**

There are 12 SSIs which can be seen as the basic building block of site based nature/geological nature conservation legislation whereas SBIs (27 owned by the Council) are local non statutory sites. A number of these sites are already included in historic cost information within the Council's classification of Community Assets. However, because of their specific nature they only form part of an overall community asset and as such it is considered that any attempt to separately identify specific costs associated with the SSI or SBI would produce unreliable information. The decision has been taken therefore not to separately identify such assets within the Balance Sheet under the category of heritage assets.

## War memorials and other monuments

There are 146 such assets that the Council owns ranging from those commemorating historic events to historic personages. No reliable cost or valuation information is available regarding these assets. Because of their diverse and very individual nature and the lack of comparable market values, the Council considers that the cost of obtaining external valuations outweighs the benefit to the reader of the accounts in obtaining such information. Consequently, these assets are not included in the Balance Sheet.

## Archaeological sites

In the case of the 2 sites that are considered to be of an archaeological interest the Council does not consider that reliable cost or valuation information can be obtained because of the diverse nature of the assets and the lack of comparable market values. Consequently, any such assets are not included in the Balance Sheet.

## 15. INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

	2010/11 £000	2011/12 £000
Rental income from investment property	715	658
Direct operating expenses arising from investment property	(25)	(79)
Net gain	690	579

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

	2010/11 £000	2011/12 £000
Balance at start of the year	13,402	14,105
Additions:		15
Disposals		(16)
Net gains / losses from fair value adjustments	2,382	(1,056)
Transfers:		
To / from Property, Plant and Equipment	(1,679)	(698)
From Assets Held for Sale	-	1,200
Balance at end of the year	14,105	13,550

## 16. INTANGIBLE ASSETS

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets relate to purchased licences.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The major item of software relates to the Oracle financial systems and has been assigned a 10 year life.

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £322,000 charged to revenue in 2011/12 was charged to IT cost centres and then absorbed as an overhead across all the service headings in the Net Expenditure of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

<b>Intangible Assets</b>	<b>2010/11 £000</b>	<b>2011/12 £000</b>
Balance at 1 April	1,131	813
Purchases	11	107
Amortisation for the year	(329)	(322)
<b>Balance at 31 March</b>	<b>813</b>	<b>598</b>

## 17. FINANCIAL INSTRUMENTS

### FINANCIAL INSTRUMENTS BALANCES

The financial assets and liabilities disclosed in the Balance Sheet are analysed across the following categories:

Long Term	Short Term		Long Term	Short Term
31 Mar 2011	31 Mar 2011		31 Mar 2012	31 Mar 2012
£000	£000		£000	£000
		<b>Financial Liabilities</b>		
256,416	17,715	Borrowings	244,133	20,242
59,571	2,081	PFI Liability	57,616	1,827
2,045	2,804	Finance Lease Liability	1,088	1,072
<b>318,032</b>	<b>22,600</b>	<b>Total Financial Liabilities</b>	<b>302,837</b>	<b>23,141</b>
		<b>Financial Assets</b>		
3,795	60,627	Loans and Receivables	22,827	36,964
7,500	1,976	Available for Sale	7,500	1,005
<b>11,295</b>	<b>62,603</b>	<b>Total Financial Assets</b>	<b>30,327</b>	<b>37,969</b>

The table below reflects the composition of borrowing recorded on the Balance Sheet:

Long Term	Short Term		Long Term	Short Term
31 Mar 2011	31 Mar 2011		31 Mar 2012	31 Mar 2012
£000	£000		£000	£000
		<b>Borrowings</b>		
259,559	14,533	Nominal Amount	247,180	17,129
-	3,182	Accrued Interest	-	3,113
(3,143)	-	EIR Adjustments	(3,047)	-
<b>256,416</b>	<b>17,715</b>	<b>Total Amortised cost</b>	<b>244,133</b>	<b>20,242</b>

The table below reflects the composition of investments recorded on the Balance Sheet:

Long Term	Short Term		Long Term	Short Term
31 Mar 2011	31 Mar 2011		31 Mar 2012	31 Mar 2012
£000	£000		£000	£000
		<b>Loans and Receivables</b>		
4,011	60,133	Nominal Amount	22,768	36,601
316	494	Accrued Interest	(412)	363
(532)	-	Impairment/ Revaluation	471	-
<b>3,795</b>	<b>60,627</b>	<b>Total Amortised Cost</b>	<b>22,827</b>	<b>36,964</b>
		<b>Available for Sale</b>		
7,500	1,499	Nominal Amount	7,500	1,000
-	477	Impairment/ Revaluation	-	5
<b>7,500</b>	<b>1,976</b>	<b>Total Fair Value</b>	<b>7,500</b>	<b>1,005</b>
<b>11,295</b>	<b>62,603</b>	<b>TOTAL INVESTMENTS</b>	<b>30,327</b>	<b>37,969</b>

**GAINS AND LOSSES ON FINANCIAL INSTRUMENTS**

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments consist of the following items:

<b>2011/12</b>	<b>Financial Liabilities</b>	<b>Financial Assets</b>		
	<b>Liabilities Measured at amortised cost</b>	<b>Loans and Receivables</b>	<b>Available for sale assets</b>	<b>Total</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>	<b>£000</b>
Interest expense	(14,420)			
Impairment losses		61		
<b>Interest payable and similar charges</b>	<b>(14,420)</b>	<b>61</b>	<b>-</b>	<b>(14,359)</b>
Interest Income		1,407	370	
Gains on derecognition		-	470	
<b>Total Interest and Investment Income</b>	<b>-</b>	<b>1,407</b>	<b>840</b>	<b>2,247</b>
Gains on revaluation			5	
<b>Surplus arising on revaluation of financial assets</b>			<b>5</b>	
<b>Net gain/ (loss) for the year</b>	<b>(14,420)</b>	<b>1,468</b>	<b>845</b>	

This compares with the gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments in 2010/11:

<b>2010/11</b>	<b>Financial Liabilities</b>	<b>Financial Assets</b>		
	<b>Liabilities Measured at amortised cost</b>	<b>Loans and Receivables</b>	<b>Available for sale assets</b>	<b>Total</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>	<b>£000</b>
Interest expense	(14,495)	-	-	
Impairment losses	-	6	-	
<b>Interest payable and similar charges</b>	<b>(14,495)</b>	<b>6</b>	<b>-</b>	<b>(14,489)</b>
Interest Income	-	1,363	340	
Gains on derecognition	-	-	-	-
<b>Total Interest and Investment Income</b>	<b>-</b>	<b>1,363</b>	<b>340</b>	<b>1,703</b>
Gains on revaluation			1	
<b>Surplus arising on revaluation of financial assets</b>			<b>1</b>	
<b>Net gain/ (loss) for the year</b>	<b>(14,495)</b>	<b>1,369</b>	<b>341</b>	

## FAIR VALUE OF ASSETS AND LIABILITIES CARRIED AT AMORTISED COST

For each class of financial assets and financial liability, an authority is required to disclose the fair value of that class of assets and liabilities in such a way that a comparison with the carrying amount is possible.

The Council's borrowings are carried in the Balance Sheet at amortised cost. Investments consist of loan and receivables and available for sale financial assets. Loans and receivables are carried on the Balance Sheet at amortised cost. Available for sale assets are carried at fair value. Fair Value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. The Fair Value of a financial instrument on initial recognition is generally the transaction price.

The Council's debt outstanding at 31 March 2012 consisted of loans from the Public Works Loan Board (PWLb), market loans from banks and loans from other public bodies. The PWLB has provided the Council with Fair Value amounts in relation to its debt portfolio. The PWLB has assessed the Fair Values by calculating the amounts the Council would have had to pay to extinguish the loans on 31 March 2012. For the Council's market and other public bodies loans the lenders were requested to provide details of the Fair Values on each loan. Two banks responded to this request and provided details based on the estimated breakage costs of the loans. In the absence of Fair Values being provided by the remaining lenders, the Council has assessed Fair Value using the equivalent PWLB interest rates ruling on 31 March 2012.

The Council's investment portfolio at the Balance Sheet date consisted almost entirely of term deposits with Banks, call account deposits, Money Market Fund investments and a European Investment Bank (EIB) bond. The Money Market Fund investments and EIB bond are Available for Sale assets and are already shown in the Balance Sheet at fair value based on their quoted market price.

In the case of short term instruments and deferred liabilities (PFI, finance lease, etc) the Council deems the carrying amount to be a reasonable approximation of the fair value.

Carrying Amount as at 31 Mar 2011	Fair value as at 31 Mar 2011		Carrying Amount as at 31 Mar 2012	Fair value as at 31 Mar 2012
£000	£000		£000	£000
		<b>Financial Liabilities:</b>		
274,131	345,740	Borrowings	264,375	349,466
19,056	19,056	Trade Payables	22,990	22,990
<b>293,187</b>	<b>364,796</b>	<b>Total Financial Liabilities</b>	<b>287,365</b>	<b>372,456</b>
		<b>Financial Assets:</b>		
64,422	64,422	Loans and Receivables	59,791	59,878
8,864	8,864	Trade Receivables	14,186	14,186
<b>73,286</b>	<b>73,286</b>	<b>Total Financial Assets</b>	<b>73,977</b>	<b>74,064</b>

The fair value of financial liabilities is higher than the carrying amount because the Council's portfolio of loans includes a number of loans where the interest rate payable is higher than the current rates available for similar loans as at the Balance Sheet date.

The fair value for financial assets at the Balance Sheet date is higher than the carrying amount because the interest rate on similar investments is now lower than that obtained when the investment was originally made.

## 18. DEBTORS

	<b>31 March 2010 £000</b>	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Central government bodies	26,682	12,978	8,756
Other local authorities	5,793	4,396	778
NHS bodies	70	500	-
Collection Fund	5,255	4,988	4,044
Public corporations and trading funds	-	11	-
Other entities and individuals	28,353	32,940	40,064
<b>Total</b>	<b>66,153</b>	<b>55,813</b>	<b>53,642</b>

## 19. CASH AND CASH EQUIVALENTS

Cash comprises cash on hand and demand deposits. Balances classified as 'Cash Equivalents' fit the definitions of being short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

The net balance of Cash and Cash Equivalents is made up of the following elements at the Balance Sheet date:

	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Cash held by Authority	(3,694)	3,049
Call accounts (same day access funds)	11,716	15,000
Money Market Funds	50,350	19,730
<b>Total Cash and Cash Equivalents</b>	<b>58,372</b>	<b>37,779</b>

## 20. ASSETS HELD FOR SALE

	<b>Current</b>	
	<b>2010/11 £000</b>	<b>2011/12 £000</b>
<b>Balance outstanding at start of year</b>	2,099	2,957
Assets newly classified as held for sale	1,077	589
Revaluation gains	45	130
Impairment losses	(24)	(9)
Assets declassified as held for sale:	(70)	(2,121)
Disposals	(170)	(198)
<b>Balance outstanding at year-end</b>	<b>2,957</b>	<b>1,348</b>

**21. CREDITORS**

	<b>31 March 2010 £000</b>	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Central government bodies	14,176	11,846	8,096
Other local authorities	463	7,059	3,428
NHS bodies	33	300	278
Public corporations and trading funds	63	90	1
Other entities and individuals	51,218	41,895	40,691
<b>Total</b>	<b>65,953</b>	<b>61,190</b>	<b>52,494</b>

**22. PROVISIONS**

The following are the main provisions made by the Council:-

**Bad Debts**

This provision has been deducted from the debtors figure in the Balance Sheet and therefore does not appear in the provisions total.

	<b>Balance at 1 April 2011 £000</b>	<b>Movement in 2011/12 £000</b>	<b>Balance at 31 March 2012 £000</b>
Council Tax	6,384	919	7,303
Housing Benefit	6,109	433	6,542
Sundry Debtors	6,489	1,133	7,622
Summons Costs	592	43	635
	<b>19,574</b>	<b>2,528</b>	<b>22,102</b>

**Others**

The provisions figure shown in the Balance Sheet comprises:-

	<b>Balance at 1 April 2011 £000</b>	<b>Movement in 2011/12 £000</b>	<b>Balance at 31 March 2012 £000</b>
<b>Short Term</b>			
Council Tax Reimbursement	-	3,990	3,990
Other	2,052	(414)	1,638
Insurance Fund	1,200	-	1,200
Working Neighbourhood Fund	4,096	(3,383)	713
Carbon Reduction Commitment	-	488	488
You Decide	66	240	306
Land Charges	569	(319)	250
EVR/Severance	8,748	(8,748)	-
	<b>16,731</b>	<b>(8,146)</b>	<b>8,585</b>
<b>Long Term</b>			
Insurance Fund	4,530	370	4,900
Other	4,053	(3,915)	138
	<b>8,583</b>	<b>(3,545)</b>	<b>5,038</b>

### Insurance Fund

This is primarily required to cover possible liability insurance claims. The overall estimate of the amount required to cover these is based on an actuarial investigation, which seeks to estimate the ultimate claims arising in respect of each risk period. The basis for calculating the provision is claims actually reported as outstanding. The timing of future payments depends almost entirely upon when claims are settled, but are likely to run over a number of years.

### Council Tax Reimbursement

Council Taxpayers were notified through the Council Tax demands for 2012/13 that were sent in March 2012 of the reimbursement. This provision is to fund the reimbursement.

### Working Neighbourhood Fund

There are a number of contractual commitments to schemes that the Fund supports. The provision contains the sums identified for the delivery of schemes to reduce worklessness, increase apprenticeships and award grants.

### Carbon Reduction Commitment

To fund the purchase of allowances from the Government in 2012/13 which relate to 2011/12 and therefore have to be included within the 2011/12 financial year.

### You Decide

You Decide funding for Area Forums. Commitments to using this allocation have been made and this provision covers the funding of the actual activities and items that the Council has committed to implement.

### Land Charges

For claims for searches carried out in previous years and is to cover any Council liability for claims for income incorrectly charged in respect of searches.

## Other Provisions

All other provisions are individually insignificant in being below £0.25 million.

## 23. USABLE RESERVES

Usable Reserve	Balance at 1 April 2011 £000	Movement £000	Balance 31 March 2012 £000	Purpose of Reserve
General Fund	15,064	5,753	20,817	Resources available to meet future running costs for services.
Earmarked General Fund Reserves	90,237	(3,989)	86,248	See note 9 for further details.
Capital Receipts Reserve	8,272	965	9,237	Contains the proceeds of fixed asset sales that are available to meet future capital investment.
Capital Grants Unapplied	30,844	541	31,385	Government Grants and contributions received in year for projects.
<b>Total</b>	<b>144,417</b>	<b>3,270</b>	<b>147,687</b>	

The balance on the General Fund and Earmarked General Fund Reserves is available for funding both capital and revenue expenditure. The amounts relating to balances held by schools are accounted for as reserves and are not included in the General Fund Balance. The Capital Receipts and Capital Grants are held for capital purposes.

**24. UNUSABLE RESERVES**

<b>2010/11 £000</b>		<b>2011/12 £000</b>
149,953	Revaluation Reserve	150,913
476	Available for Sale Financial Instruments Reserve	4
255,678	Capital Adjustment Account	183,823
-	Deferred Capital Receipts	2,678
(3,794)	Financial Instruments Adjustment Account	(3,759)
(334,820)	Pensions Reserve	(395,078)
876	Collection Fund Adjustment Account	1,971
(5,178)	Accumulated Absences Account	(4,631)
<b>63,191</b>	<b>Total Unusable Reserves</b>	<b>(64,079)</b>

**Revaluation Reserve**

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost,
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

<b>2010/11 £000</b>		<b>2011/12 £000</b>	
<b>163,057</b>	<b>Balance at 1 April</b>		<b>149,953</b>
6,075	Upward revaluation of assets	17,770	
(12,845)	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of services	(6,489)	
<b>(6,770)</b>	<b>Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services</b>		<b>11,281</b>
(4,715)	Difference between fair value depreciation and historical cost depreciation	(4,492)	
(1,619)	Accumulated gains on assets sold or scrapped	(5,829)	
	Amounts written off to the Capital Adjustment Account resulting from IFRS restatement	-	
<b>(6,334)</b>	<b>Total amount written off to the capital Adjustment Account</b>		<b>(10,321)</b>
<b>149,953</b>	<b>Balance at 31 March</b>		<b>150,913</b>

The balance at 1 April 2010 has been increased by £11.761 million to reflect the change in accounting policy following the introduction for accounting for heritage assets.

### Available for Sale Financial Instrument Reserve

The Available for Sale Financial Instruments Reserve contains the gains made by the Council arising from increases in the value of its investments that have quoted market prices or otherwise do not have fixed or determinable payments. The balance is reduced when investments with accumulated gains are revalued downwards or impaired and the gains lost or disposed of and the gains are realised.

2010/11 £000		2011/12 £000
475	<b>Balance at 1 April</b>	476
2	Upward revaluation of investments	5
(1)	Downward revaluation of investments not charged to the Surplus/ Deficit on the Provision of Services	-
-	Accumulated gains on assets sold and maturing assets written out to the Comprehensive Income and Expenditure Statement as part of Other Investment Income	(477)
476	<b>Balance at 31 March</b>	4

### Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different accounting arrangements for the consumption of non-current assets and for their financing under statutory provisions. The Account is charged with costs of acquisition, construction or enhancement of assets. Depreciation, impairment losses and amortisations of assets are charged to the Comprehensive Income and Expenditure Statement with postings from the Revaluation Reserve to convert fair values to an historical cost basis.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

2010/11		2011/12	
£000		£000	£000
262,816	<b>Balance at 1 April</b>		<b>255,678</b>
	<b>Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:</b>		
(54,147)	Charges for depreciation, revaluation losses and impairment of non-current assets	(42,001)	
4,759	Historic cost adjustment on Revaluation losses on Property, Plant and Equipment	4,492	
(329)	Amortisation of intangible assets	(322)	
(4,169)	Revenue expenditure funded from capital under statute	(17,557)	
(10,979)	Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(59,858)	
(64,865)			(115,246)
	<b>Capital financing applied in the year:</b>		
3,000	Use of the Capital Receipts Reserve to finance new capital expenditure	3,000	
34,159	Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	24,364	
17,994	Statutory provision for the financing of capital investment charged against the General Fund	13,204	
192	Capital expenditure charged against the General Fund and other balances	1,660	
55,345			42,228
2,382	Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	(1,056)	
-	- Movement in the Donated Assets Account credited to the Comprehensive Income and Expenditure Statement	35	
-	- Asset Under Construction previously omitted from asset register	2,184	
2,382			1,163
255,678	<b>Balance at 31 March</b>		<b>183,823</b>

## Financial Instrument Adjustment Account

The Financial Instrument Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefitting from gains per statutory provisions. The balance in the Financial Instrument Adjustment Account at the end of the year represents the amount that should have been charged to the Comprehensive Income and Expenditure Statement in accordance with proper accounting practices under the Code of Practice, but which Statutory Provisions allow or require to be deferred over future years.

The Council uses the account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. The account was also used to defer the impact of the estimated impairment on the Council's Heritable Bank investment. The Statutory Provision which allowed the deferment of impairment costs expired in 2010-11 and therefore the estimated impairment has been posted back to the General Fund Balance.

2010/11 £000		2011/12 £000
4,124	<b>Balance at 1 April</b>	3,794
(34)	Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from the finance costs chargeable in the year in accordance with statutory requirements	(35)
(296)	Expiry of Statutory Provision to allow the impairment of Heritable Bank investment to be deferred.	-
3,794	<b>Balance at 31 March</b>	3,759

## Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

<b>2010/11 £000</b>		<b>2011/12 £000</b>
<b>(423,871)</b>	<b>Balance at 1 April</b>	<b>(334,820)</b>
46,101	Actuarial gains or losses on pensions assets and liabilities	<b>(64,364)</b>
11,765	Reversal of items relating to retirement benefits debited or credited to the surplus or Deficit on the Provision of Services in the comprehensive Income and Expenditure Statement	<b>(30,049)</b>
31,185	Employer's pensions contributions and direct payments to pensioners payable in the year	34,155
<b>(334,820)</b>	<b>Balance at 31 March</b>	<b>(395,078)</b>

### Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

<b>2010/11 £000</b>		<b>2011/12 £000</b>
<b>61</b>	<b>Balance at 1 April</b>	876
815	Amount by which council tax income credited to the comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	1,095
<b>876</b>	<b>Balance at 31 March</b>	<b>1,971</b>

## Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2010/11		2011/12	
£000		£000	£000
(4,429)	<b>Balance at 1 April</b>		(5,178)
285	Settlement or cancellation of accrual made at the end of the preceding year	1,034	
(1,034)	Amounts accrued at the end of the current year	(487)	
(749)	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		547
(5,178)	<b>Balance at 31 March</b>		(4,631)

**25. CASH FLOW STATEMENT - OPERATING ACTIVITIES**

The cash flows for operating activities include the following items:

<b>2010/11 £000</b>		<b>2011/12 £000</b>
(7,519)	Interest received	(6,148)
19,955	Interest paid	19,456
	<b><i>Adjust net (surplus)/ deficit on the provision of services for non cash movements:</i></b>	
(19,446)	Depreciation	(19,876)
(34,701)	Impairment	(22,125)
(329)	Amortisations of intangible assets	(322)
(2,041)	Movement in provision for bad debt	(2,529)
2,742	(Increase) / decrease in long & short term creditors	8,530
(11,394)	Increase / (decrease) in long & short term debtors	(6,950)

	- Purchase of short-term and long-term investments	-
	- Proceeds from short-term and long-term investments	-
2,225	Proceeds from the sale of property, plant and equip., investment property and intangible assets	3,965
40,173	Grants applied to the financing of capital expenditure	18,414
-	Any other items for which the cash effects are investing or financing cash flows.	
<b>42,398</b>	<b><i>Net cash flow from operating activities</i></b>	<b>22,379</b>

**26. CASH FLOW STATEMENT - INVESTING ACTIVITIES**

<b>2010/11 £000</b>		<b>2011/12 £000</b>
45,875	Purchase of property, plant and equipment, investment property and intangible assets.	29,805
103,000	Purchase of short-term and long-term investments	107,100
	Other payments for investing activities	
(2,225)	Proceeds from sale of property, plant and equipment, investment property and intangible assets	(3,965)
(108,200)	Proceeds from short-term and long-term investments	(112,375)
(37,836)	Other receipts from investing activities	(18,499)
<b>614</b>	<b>Net cash flows from investing activities</b>	<b>2,066</b>

**27. CASH FLOW STATEMENT - FINANCING ACTIVITIES**

<b>2010/11 £000</b>		<b>2011/12 £000</b>
(10,000)	Cash receipts of short- and long-term borrowing	(5,000)
(1,367)	Other receipts from financing activities	182
3,211	Cash payments for the reduction of outstanding liabilities relating to finance leases and on Balance Sheet PFI contracts	3,295
16,280	Repayment of short- and long-term borrowing	14,750
-	Other payments for financing activities	-
<b>8,124</b>	<b>Net cash flows from financing activities</b>	<b>13,227</b>

## 28. AMOUNTS REPORTED FOR RESOURCE ALLOCATION DECISIONS

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice (SeRCOP). However, decisions about resource allocation are taken by the Council's Cabinet on the basis of monitoring reports analysed across departments. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- the cost of retirement benefits is based on cash flows (payment of employer's pensions contributions) rather than current service cost of benefits accrued in the year
- amounts charged to departments in relation to capital expenditure (depreciation for example) are reversed out through the Finance Department. In the Statement of Accounts these are reversed out through the Movement in Reserves Statement.
- Levies and reserves are treated as departmental costs

The income and expenditure by the Council department recorded in the budget reports for the year 2010/11 is as follows:

Departmental Income and Expenditure 2010/11	Adult Social Services £000	Children and Young People £000	Corporate Services £000	Finance £000	Law, HR and Asset Manage- ment £000	Technical Services £000	Mersey- travel £000	Total £000
Fees, charges and other service income	(61,317)	(85,663)	(11,731)	(46,317)	(31,997)	(37,307)	-	(274,332)
Government grants	(2,658)	(251,497)	(7,055)	(160,543)	(142)	(92)	-	(421,987)
<b>Total Income</b>	<b>(63,975)</b>	<b>(337,160)</b>	<b>(18,786)</b>	<b>(206,860)</b>	<b>(32,139)</b>	<b>(37,399)</b>	<b>-</b>	<b>(696,319)</b>
Employee expenses	40,420	254,958	8,988	35,224	15,031	29,376	-	383,997

## 29. TRADING OPERATIONS

The Council has established a number of trading units where the service manager is required to operate in a commercial environment and balance their budget by generating income from other parts of the Council or other organisations. Details of the major units, which follow, have a trading objective to break even:-

		2009/10		2010/11		2011/12	
		£000	£000	£000	£000	£000	£000
<b>(1) Vehicle Maintenance Unit</b> The Vehicle Maintenance Unit won the contract under open competition and still operates along the lines of the former CCT DSO.	Turnover	468		471		464	
	Expenditure	456		471		323	
	Surplus/(Deficit)		12		-		141
<b>(2) Building Cleaning</b> The Council manages a Building Cleaning operation on the basis of an agreement between the service provider and other departments.	Turnover	1,071		1,048		839	
	Expenditure	978		976		744	
	Surplus/(Deficit)		93		72		95
<b>(3) Grounds Maintenance Services</b> The Council operates its Grounds Maintenance Services for the maintenance of Council and other land on the basis of an agreement between the service provider and other Council departments and other bodies.	Turnover	1,619		1,645		-	
	Expenditure	1,619		1,645		-	
	Surplus/(Deficit)		-		-		-

From 2011/12 Grounds Maintenance services have been defined as an operational service. They are included in the previous year for comparative purposes.

## 30. POOLED BUDGETS

Pooled funds enable health bodies and Local Authorities to work collaboratively to address specific local health and social care issues. Health service resources can be used to deliver Local Council services and vice versa.

Wirral Community NHS Trust is the host for a pooled budget for integrated community equipment services.

Wirral Council's contribution for 2011/12 is £726,000 out of total expenditure of £2.27 million.

## 31. COMMUNITY FUND

The Community Fund was established following the Large Scale Voluntary Transfer of the Council's housing stock. Its purposes include meeting transferred stock warranty claims, assisting to meet housing requirements, encouraging economic regeneration, helping to reduce crime and for other environmental benefits.

The Fund is administered and held in a separate bank account by Wirral Partnership Homes. Its use is jointly controlled by representatives of Wirral Council and Wirral Partnership Homes. Wirral Council's accounts do not include the assets, income or expenditure of the Fund. Any grants paid to the Council from the Community Fund will, however, be included within the Council's accounts.

During 2011/12 the Fund received £4.4 million of income from savings relating to refurbishment programme VAT arrangements and from interest earned on the Fund balances.

The fund incurred Expenditure of £10 million in the year. Wirral Council received grants of £0.75 million (£8.1 million in 2010/11). £0.5 million funded support for Housing initiatives and £0.25 million funded schemes tackling Domestic Abuse. Wirral Partnership Homes received £9.0 million of grants in 2011/12 (£0 million in 2010/11). The Your Wirral Grant scheme also received £0.25 million (£0.53 million in 2010/11) to fund community initiatives.

<b>Community Fund Statement</b>	<b>£000</b>	<b>£000</b>
Balance at 1 April 2011	12,940	
Adjustment to Opening Balance: Accrued VAT	(9)	12,931

	<b>700,935</b>	<b>7,755</b>	<b>309,876</b>	<b>123,363</b>	<b>1,141,929</b>

Where an employer makes decisions which result in additional benefits paid to a member, this produces a strain on the Pension Fund. The costs of providing these additional benefits are calculated by the Pension Fund and recharged to the Council, who reimburse the Fund over 5 years. The main category of these costs relates to early retirement.

Remuneration band	2010/11 Number of Employees			2011/12 Number of Employees

	<b>201</b>	<b>286</b>	<b>487</b>	<b>112</b>	<b>221</b>	<b>333</b>

The number of teachers employed by the Council has fallen in 2011/12. This is due to the transfer out of the Council's control of a number of schools e.g. the establishment of Academies.

The numbers of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

(a) Exit Package cost band (including special payments)	(b) Number of compulsory redundancies		(c) Number of other departures agreed		(d) Total number of exit packages by cost band		(b) Total cost of exit packages in each band	
	2010/11	2011/12	2010/11	2011/12	2010/11	2011/12	2010/11	2011/12
							£000	£000
£ 0 - £ 20,000	-	-	756	26	756	26	7,474	359
£ 20,001 - £ 40,000	-	-	344	29	344	29	9,687	857
£ 40,001 - £ 60,000	-	-	76	5	76	5	3,540	241
£ 60,001 - £ 80,000	-	-	17	1	17	1	1,165	64

£100,001 - £150,000	-	-	-	2	-	2	-	221
	-	-	<b>1,194</b>	<b>63</b>	<b>1,194</b>	<b>63</b>	<b>21,953</b>	<b>1,742</b>

### 34. EXTERNAL AUDIT COSTS

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors:

	2010/11 £000	2011/12 £000
Fees payable to The Audit Commission with regard to external audit services carried out by the appointed auditor	392	415
Fees payable to The Audit Commission for the certification of grant claims and returns	128	100
<b>Total</b>	<b>520</b>	<b>515</b>

The fee for 2011/12 includes £62,000 for additional audit relating to 2010/11. These fees were however paid in 2011/12.

### 35. DEDICATED SCHOOLS GRANT

The Council's expenditure on schools is funded primarily by grant monies provided by the Department for Education, the Dedicated Schools Grant (DSG). DSG is ring fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance (England) Regulations 2008. The Schools Budget includes elements for a range of educational services provided on an Council-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

The increase in DSG from 2010/11 (£194 million) to 2011/12 (£206 million) is due to the transfer of Specific Grants into the DSG for 2011/12 (£35 million) and the recoupment for Academy Schools transferring out (£23 million).

Details of the deployment of DSG receivable are as follows

	Central Expenditure £000	Individual Schools Budget £000	Total £000
Final DSG for 2010/11			194,032
Brought forward from 2009/10			1,500
Carry forward to 2011/12 agreed in advance			(1,537)
Agreed budgeted distribution 2010/11	20,974	173,021	193,995
less: Actual central expenditure	(19,851)		(19,851)
less: Actual ISB deployed to schools		(173,004)	(173,004)
<b>Authority contribution for 2010/11</b>	<b>182</b>		<b>182</b>
Carry forward to 2011/12 agreed in advance			1,537
<b>Total carried forward to 2011/12</b>	<b>1,305</b>	<b>17</b>	<b>2,859</b>

	<b>Central Expenditure £000</b>	<b>Individual Schools Budget £000</b>	<b>Total £000</b>
Final DSG for 2011/12			206,127
Brought forward from 2010/11			2,859
Carry forward to 2012/13 agreed in advance			(580)
Agreed budgeted distribution 2011/12	21,097	187,309	208,406
less: Actual central expenditure	(20,421)		(20,421)
less: Actual ISB deployed to schools		(187,485)	(187,485)

Carry forward to 2012/13 agreed in advance			580
<b>Total carried forward to 2012/13</b>	<b>1,676</b>	<b>-</b>	<b>2,256</b>

### 36. GRANT INCOME

The Council credited the following grants and contributions and donations to the Comprehensive Income and Expenditure Statement in 2011/12:

<b>Credited to Taxation and Non Specific Grant Income:</b>	<b>2010/11 £000</b>	<b>2011/12 £000</b>
<b>Revenue Grants :</b>		
National Non Domestic Rates	137,844	121,312
Area Based Grant	37,662	-
Revenue Support Grant	20,016	37,498
Schools Private Finance Initiative	5,471	5,471
Local Services Support Grant	-	1,495
Council Tax Freeze Grant	-	3,286
<b>Total Revenue Grants</b>	<b>200,993</b>	<b>169,062</b>
<b>Capital Grants :</b>		
Standards Fund	25,600	8,163
Housing Market Renewal Initiative	3,090	2,699
Transport Supplementary Grant	2,366	4,443
Regional Housing Pot	2,355	-
Homes and Communities Agency	2,066	-
Childrens Centres	1,709	-
Growth Point	1,567	-
Community Capacity		941
Town Link Viaduct	-	870
Challenge Fund	-	659
Other Capital Grants (less than 200k)	1,699	674
North West Development Agency	728	-
Social Care Single Capital Pot - Extra Care	237	-
Waste Infrastructure	203	-
<b>Total Capital Grants</b>	<b>41,620</b>	<b>18,449</b>
<b>Total Credited to Taxation and Non Specific Grant Income</b>	<b>242,613</b>	<b>187,511</b>

Grants credited to Taxation and Non-specific Grants saw a reduction of £55 million from 2010/11. The main reasons for this include the ending of Area Based Grants (£37 million), Homes and Communities Agency (£2 million) and the Regional Housing Pot (£2 million). Standards Fund also reduced, following the completion of the Primary Capital Programme (£7 million) and Building Schools For the Future (£6 million).

	2010/11 £000	2011/12 £000
<b>Credited to Services:</b>		
Dedicated Schools Grant	192,389	206,127
Housing Benefits	159,880	165,929
16-19 Further Education Young People's Learning Agency	6,800	17,419
Early Intervention Grant	-	15,500
Learning Disabilities & Health Reform Grant	-	6,709
Pupil Premium	-	5,394
Future Job Fund	-	1,359
Step Up to Social Work	-	1,157
Youth Justice Board	1,009	882
Adult Safeguarded Learning	-	853
Worklessness Grant	-	641
Music Grant	-	635
Winter Maintenance	297	626
Apprentice	-	460
Intensive Start Up Support	-	376
Rates Relief	359	347
Social Work Improvement Fund	-	340
Big Lottery	-	237
Complementary Strand Grant	-	226
ERDF	-	150
Standards Fund	26,043	-
6th Form	22,302	-
Sure Start	10,811	-
School Standards Grant	7,924	-
Other Young People's Learning Agency	7,292	-
School Standards Grant - Personalisation	2,738	-
Adults Social Care Reform	1,873	-
Aiming High for Disabled Children	1,640	-
Think Family	649	-
Youth Opportunity	318	-
Other	865	1,028
<b>Total Credited to Services</b>	<b>443,189</b>	<b>426,395</b>

Grants credited to Services has reduced by £17 million in 2011/12. Also, as mentioned in Note 35 Dedicated Schools Grant (DSG), schools specific grants were transferred into the DSG. Academy transfers reduced 2011/12 grant by £23 million, whilst the receipt of the new Pupil Premium Grant increased grants credited to services by £5 million.

PFI Grant of £5.471 million is now reflected within Revenue Grants credited to Taxation, and Non-Specific Grant Income.

The Council has received a number of grants and contributions that have yet to be recognised as income as they have conditions attached to them. These will require the monies to be returned to the giver, if not spent in accordance with the conditions. The balances at the year-end are as follows:

	<b>31 March 2011</b>	<b>31 March 2012</b>
	<b>£000</b>	<b>£000</b>
<b>Grants Receipts in Advance</b>		
Local Area Agreement Reward Grant	1,811	1,811
West Kirby Marine Lake	300	300
Mulberry Properties	275	275
Atherton Street	225	225
Aiming higher - disabled children	-	203
Other	117	-
<b>Total Grant Receipts in Advance</b>	<b>2,728</b>	<b>2,814</b>

Revenue grants with conditions totalling less than £1 million are included in short term creditors.

### 37. RELATED PARTIES

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the council. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

#### Central Government

Central government has effective control over the general operations of the Council - it is responsible for providing the statutory framework, within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis in note 36 on reporting for resources allocation decisions. Grant receipts outstanding at 31 March 2012 are detailed in the same note.

#### Members

Members of the Council have direct control over the Council's financial and operating policies. The total of Members' allowances paid in 2011/12 is shown in note 32. Members of the Council are also Board Members of Wirral Partnership Homes (WPH) as well as Beechwood and Ballantyne Community Housing Association (BBCHA). Members have declared interests, where required, in items associated with these organisations. During the year the Council made payments of £3.0 million (£3.3 million in 2010/11) to WPH. No payments were made to BBCHA (£0.1 million in 2010/11). In addition as part of the development agreement WPH paid £0.75 million (£8.1 million in 2010/11) to the Council in respect of the Community Fund in support of community asset transfers and investment to support regeneration and housing.

A number of Members hold positions on the governing body of various voluntary organisations to which the Council gave grants of £0.7 million (£0.8 million in 2010/11).

The relevant Members did not take part in any discussion or decision relating to the grants. Details of all these transactions are recorded in the Register of Members' Interest which is open to public inspection.

### Officers

No material declarations of interest were made in the year.

### Other Public Bodies

The Council has member representation on committees of the following organisations to which the Council pays a levy or precept

	<b>Number of Repe- sentative(s)</b>	<b>Precept/ Levy 2010/11 £000</b>	<b>Precept/ Levy 2011/12 £000</b>
Merseyside Police Authority	4	15,308	15,336
Merseyside Fire and Rescue Service	4	6,781	6,793
Merseyside Waste Disposal Authority	2	17,044	15,988
Merseyside Port Health	3	128	128
Merseytravel	2	27,344	28,817

The Council has a pooled budget arrangement with Wirral Primary Care Trust for the provision of integrated community equipment services. Further details are contained in note 30.

The Council acts as the administering authority to Merseyside Pension Fund and charged the Fund £3.8 million (2010/11 £4.9 million) for administration and investment management costs.

**38. CAPITAL EXPENDITURE AND CAPITAL FINANCING**

<b>Summary of Capital Expenditure and Financing</b>	<b>2010/11 £000</b>	<b>2011/12 £000</b>
<b>Capital Investment</b>		
Property, Plant & Equipment	43,344	28,446
Intangible Assets	11	107
Investment Properties	-	15
Asset Held for Sale	31	-
Revenue Expenditure Funded from Capital under Statute	14,840	17,557

	<b>58,995</b>	<b>46,612</b>
<b>Sources of Finance</b>		
Borrowing supported by Government financial assistance	(6,375)	-
Borrowing unsupported by Government financial assistance	(5,300)	(17,585)
Capital Receipts	(3,000)	(3,000)
Government Grants and Other Contributions	(43,877)	(24,364)
Revenue Provision	(443)	(1,663)
	<b>(58,995)</b>	<b>(46,612)</b>
<b>Opening Capital Financing Requirement</b>	<b>384,595</b>	<b>379,385</b>
<b>Closing Capital Financing Requirement</b>	<b>379,385</b>	<b>377,922</b>

**39. LEASES****Finance Leases****Council as Lessee**

The Council has acquired a number of assets such as I.T. and grounds maintenance equipment, refuse collection and street cleansing vehicles under finance leases. These assets are carried in the Balance Sheet within Vehicles, Plant and Equipment at the following net amounts:

	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Vehicles, Plant and Equipment	4,169	3,039
	4,169	3,039

The Council is committed to make minimum payments under these leases. Such payments comprise an element for the interest in the property acquired and an element for finance costs payable by the Council while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Finance lease liabilities (net present value of minimum lease payments):		
• current	1,028	1,072
• non-current	2,045	1,088
Finance costs payable in future years	475	286
<b>Minimum lease payments</b>	<b>3,548</b>	<b>2,446</b>

The minimum lease payments will be payable over the following periods:

	<b>Minimum Lease Payments</b>		<b>Finance Lease Liabilities</b>	
	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Not later than one year	1,231	1,222	1,028	1,072
Later than one year and not later than five years	2,307	1,224	2,002	1,088
Later than five years	10	-	43	-
	<b>3,548</b>	<b>2,446</b>	<b>3,073</b>	<b>2,160</b>

The Council has assets acquired under Finance Leases which are sub-leased to schools that have been granted Academy status during 2011/12. The amounts paid in respect of such sub-leased assets are as follows:

	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Minimum lease payments	-	21
Contingent Rents	-	-
Sub-lease Payments Receivable	-	(21)
	-	-

## Operating Leases

### Council as lessee

The Council has acquired a number of vehicles by entering into operating leases.

The future minimum lease payments due under non-cancellable leases in future years are:

	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Not later than one year	35	-
Later than one year and not later than five years	-	-
Later than five years	-	-
	<b>35</b>	<b>-</b>

## Finance Leases

### Council as Lessor

The Council has leased out the following properties on finance leases with the remaining terms shown:

Property	Lessor	Remaining term
Birkenhead Market	Birkenhead Market Ltd	116 years
Wirral Country Park Caravan Site (Touring)	The Caravan Club Ltd	17 years
Wirral Country Park Caravan Site (Static)	Thurstaston Caravan Owners Association	37 years
New Brighton Marine Point	Neptune Developments	250 years

The Council has gross investments in the leases, made up of the minimum lease payments expected to be received over the remaining terms and the residual value anticipated for the properties when the leases come to an end. The minimum lease payments comprise settlement of the long-term debtors for the interest in the properties acquired by the lessees and finance income that will be earned by the Council in future years whilst the debtor remains outstanding. The gross investment is made up of the following amounts:

	31 March 2012 £000
Finance lease debtor (net present value of minimum lease payments):	
• current	189
• non-current	1,837
Unearned finance income	24,132
Unguaranteed residual value of property	3,460
Gross investment in the lease	29,618

The gross investment in the lease and the minimum lease payments will be received over the following periods:

	Gross Investment in the Lease 31 March 2012 £000	Minimum Lease Payments 31 March 2012 £000
Not later than one year	287	189
Later than one year and not later than five years	1,146	588
Later than five years	28,185	1,235
	29,618	2,012

## Operating Leases

### Council as Lessor

The Council leases out property under operating leases. The future minimum lease payments receivable under non-cancellable leases in future years are:

	<b>31 March 2011 £000</b>	<b>31 March 2012 £000</b>
Not later than one year	600	586
Later than one year and not later than five years	812	848
Later than five years	17	148
	<b>1,429</b>	<b>1,582</b>

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

## 40. PRIVATE FINANCE INITIATIVE (PFI) AND SIMILAR CONTRACTS

The Wirral Schools' PFI Scheme Project Agreement was originally signed in March 2001 and involved the rebuilding and/or refurbishment of one primary and eight secondary schools in Wirral. A Deed of Amendment was entered into on 9 September 2004 to extend the contract until July 2031.

The first phase of the Project (Construction Works) was completed on the final schools in August 2006 and the Council now receive support services in accordance with a detailed set of Output Specifications. These include building and services maintenance, grounds maintenance, catering, cleaning, caretaking, security, utilities and telecommunications.

The specifications for Support Services are not prescriptive and it is up to our PFI Partner, Wirral Schools' Services Ltd (WSSL) to devise a programme of service delivery which achieves the Council's Output Specifications. The success of this is measured by way of a payment mechanism and deductions system.

It is only in pre-agreed circumstances that WSSL is excused from performance. These situations are known as Relief Events and they include the declaration of any emergency by the Council, failure by any utility company, loss or damage to a road servicing a school or any strike affecting the relevant industry.

Other than under these clearly defined circumstances, risk on the above services is transferred to WSSL. There are examples of "Shared Risk" such as that on Utility Consumption, "Limited Risk" such as that on the maintenance of loose furniture, fittings and equipment and "No Risk" to WSSL whereby the costs of damage caused by an Act of Vandalism under specific conditions, rest with the Council.

The price for the provision of the services (i.e. the provision of the School accommodation and the Support Services) is essentially a fixed price for the duration of the term.

There are several provisos to this e.g. annual indexation in accordance with the Retail Prices Index and Value for Money Testing. The latter is carried out at five year intervals and basically involves a comparison between the current price paid for a particular service (such as cleaning or catering) with equivalent prevailing market costs. If the market average is higher or lower than the current cost by a certain amount, then any excess outside of that range leads to a price adjustment.

The Project Agreement will come to an end on its agreed expiry date of 31 July 2031. Thirty months prior to the Expiry Date, a Handback Survey will be carried out. This will detail each asset and component of each school and will report on the residual life of those assets. On the Expiry Date, the facilities will be handed back to the Council, at nil consideration, in a condition which complies with specific standards / life expectancies for individual components within each school.

The Council only has the right to terminate the contract if it compensates the contractor. Guidelines are clearly set out for rules governing Compensation on Termination, as classified under events of Project Co. Default or Council Default.

The contract was originally treated as an operating lease but with the introduction of IFRIC 12 'Service Concession Arrangements', has now been accounted for as a finance lease. The value of assets held under the Schools PFI scheme is shown below:

Bebington High, Hilbre High and South Wirral High have adopted Foundation status. University Academy Birkenhead, Weatherhead High, Wirral Grammar School and Prenton High have adopted Academy status. Consequently, the corresponding assets are no longer reflected in the balance sheet.

Valuation information for PFI assets recognised in the Balance Sheet:

	<b>Leasowe Primary £000</b>	<b>Prenton High £000</b>	<b>Wallasey High £000</b>	<b>Total £000</b>
<b>Movement in 2011/12</b>				
<b>Valuation</b>				
Valuation at 1 April 2011	3,044	4,921	9,550	17,515
Disposals	-	(4,921)	-	(4,921)
Accumulative Depreciation at 1 April 2011	(244)	(400)	(766)	(1,410)
Depreciation 2011/12	(76)	(124)	(238)	(438)
Adjustment for disposal	-	524	-	524
Accumulative Depreciation at 31 March 2012	(320)	-	(1,004)	(1,324)
<b>Net Book Value</b>				
at 31 March 2012	2,724	-	8,546	11,270
at 31 March 2011	2,800	4,521	8,784	16,105
<b>Comparative Movement in 2010/11</b>				
Valuation at 1 April 2010	3,044	4,921	9,550	17,515
Accumulative Depreciation at 1 April 2010	(168)	(275)	(528)	(971)
Depreciation 2010/11	(76)	(125)	(238)	(439)
Accumulative Depreciation at 31 March 2011	(244)	(400)	(766)	(1,410)

The valuation for Leasowe Primary School has now been amended to include the value of the land. As a result the valuation above is increased by £46,000.

The valuation for Wallasey High School has now been amended to exclude the City Learning Centre. As a result the valuation above is reduced by £365,000 and accumulated depreciation by £40,000.

## Payments

Payments remaining to be made under PFI contracts are as follows:

	<b>Services £000</b>	<b>Lease Liability £000</b>	<b>Interest £000</b>	<b>Life cycle costs £000</b>	<b>Total £000</b>
Payable in 2012/13	3,091	1,827	2,044	934	7,896
Payable within 2 - 5 years	11,903	9,547	7,422	2,710	31,582
Payable within 6 - 10 years	14,482	13,642	7,246	4,109	39,479
Payable within 11 - 15 years	14,677	16,831	4,698	3,273	39,479
Payable within 16 - 20 years	12,903	17,596	1,434	1,121	33,054
<b>Total</b>	<b>57,056</b>	<b>59,443</b>	<b>22,844</b>	<b>12,147</b>	<b>151,490</b>

The unitary payment in 2011/12 is £10,184,542 allocated as follows

	<b>2010/11 £000</b>	<b>2011/12 £000</b>
Service costs	3,921	4,038
Interest and similar charges	3,165	3,379
Lease liability	1,969	2,233
Life cycle costs	710	534
	<b>9,765</b>	<b>10,184</b>

The value of the outstanding lease liability is:

	<b>2010/11 £000</b>	<b>2011/12 £000</b>
Balance outstanding at start of year	68,786	61,617
Lease payments during the year	(2,004)	(2,936)
Other movements	(5,165)	23
	<b>61,617</b>	<b>58,704</b>

In calculating the future unitary payments to the end of the contract from 2012-13 onward the most up to date information available has been used. This gives a more accurate estimate of the total outstanding liability. However, substituting this information revises upward the original calculation of the liability at 31 March 2011 by £23,000. The annual unitary payment is increased by the Retail Price Index less 10%. Since 2010/11 the RPI has been estimated using figures provided by the Office of Budget Responsibility whereas previous calculations were extracted from the operator's financial model.

Lease payments in 2010/11 were understated by £35,000. This has now been restated with a consequential adjustment reducing the balance at 31 March 2011 to £61,617,000.

## 41. TERMINATION BENEFITS

The Council ended the employment contracts of a number of employees in 2011/12, incurring liabilities of £1.7m (£23.4m in 2010/11) – see note 33 for the number of exit packages and total cost per band

The Council in October 2010 offered all employees the opportunity to apply to leave through voluntary severance and/or early voluntary retirement. Under this scheme over 1,100 individuals left the Council between December 2010 and July 2011.

## 42. LONG TERM DEBTORS

	Repay- ment of former MCC Debt £000	Regen- eration Property Loans £000	Repay- ment of Council Mortgages £000	Leases £000	Total £000
<b>Balance 1.4.2010</b>	<b>67,029</b>	<b>886</b>	<b>103</b>	-	<b>68,018</b>
Advances	-	769	-	-	769

## 43. DEFERRED CREDITS

These amounts relate to the Council's share of the receipts from sales of former council housing by Wirral Partnership Homes and Beechwood and Ballantyne Community Housing Association, as well as the balances on outstanding mortgages previously granted by the Council in respect of Right to Buy properties.

	2010/11 £000	2011/12 £000
Receipts for Sale of Former Council Houses	-	142
Outstanding mortgages	81	66
	<b>81</b>	<b>208</b>

#### **44. PENSION SCHEMES ACCOUNTED FOR AS DEFINED CONTRIBUTION SCHEMES**

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by the Department for Education. The Scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The Scheme is technically a defined benefit scheme. However, the Scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. The Council is not able to identify its share of underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2011/12, the Council paid £12.2 million to Teachers' Pensions in respect of teachers' retirement benefits, representing 14.1% of pensionable pay. The figures for 2010/11 were £14.1 million and 14.1%. There were no contributions remaining payable at the year-end.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These costs are accounted for on a defined benefit basis and detailed in Note 45.

In 2011/12 the Council paid £3.7 million by way of enhanced pensions, with the equivalent figure in 2010/11 being £3.0 million.

#### **45. DEFINED BENEFIT PENSION SCHEMES**

##### **Participation in Pension Schemes**

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Council participates in two post employment schemes:

- The Local Government Pension Scheme, administered locally by Wirral Council - this is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.
- Arrangements for the award of discretionary post retirement benefits upon early retirement - this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pensions liabilities, and cash has to be generated to meet actual pensions payments as they eventually fall due.

## Transactions Relating to Post-employment Benefits

The cost of retirement benefits is recognised in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge that is required to be made against council tax is based on the cash payable in the year, so the real cost of post employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Local Government Pension Scheme		Discretionary Benefits Arrangements		Unfunded Teachers Scheme	
	2010/11 £000	2011/12 £000	2010/11 £000	2011/12 £000	2010/11 £000	2011/12 £000
Comprehensive Income and Expenditure Statement						
<i>Cost of Services:</i>						
• current service cost	25,737	21,957	-	-	-	-
• past service Costs	(56,725)	-	(2,099)	-	(2,025)	-
• settlements and curtailments	4,618	(2,999)	-	-	964	174
<i>Financing and Investment Income and Expenditure</i>						
• interest cost	55,705	51,411	2,336	2,021	1,896	1,794
• expected return on scheme assets	(42,172)	(44,309)	-	-	-	-
<i>Total Post Employment Benefit Charged to the Surplus or Deficit on the Provision of Services</i>	(12,837)	26,060	237	2,021	835	1,968

(Table continues on following page)

(Table continued from previous page)

Benefits paid	(40,368)	(41,331)	(2,701)	(2,721)
Entity combinations	-	-	-	-
Settlements	-	(2,925)	-	-
Closing balance at 31 March	683,832	692,354	-	-

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date.

Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets.

The actual return on scheme assets in the year was £16,005,000 (2010/11: £52,371,000).

<b>Scheme History</b>	<b>2007/08 £000</b>	<b>2008/09 £000</b>	<b>2009/10 £000</b>	<b>2010/11 £000</b>	<b>2011/12 £000</b>
<b>Present value of liabilities:</b>					
Local Government Pension Scheme	838,119	715,668	997,404	945,813	1,014,332
Discretionary Benefits	42,228	36,044	43,061	38,108	38,265
Teachers pension scheme	36,254	31,022	36,022	34,731	34,835
	<b>916,601</b>	<b>782,734</b>	<b>1,076,487</b>	<b>1,018,652</b>	<b>1,087,432</b>
<b>Fair value of assets:</b>					
Local Government Pension Scheme	582,775	485,456	652,616	683,832	692,354
<b>Surplus/(deficit):</b>					
Local Government Pension Scheme	(255,344)	(230,212)	(344,788)	(261,981)	(321,978)
Discretionary Benefits	(42,228)	(36,044)	(43,061)	(38,108)	(38,265)
Teachers pension scheme	(36,254)	(31,022)	(36,022)	(34,731)	(34,835)
<b>Total</b>	<b>(333,826)</b>	<b>(297,278)</b>	<b>(423,871)</b>	<b>(334,820)</b>	<b>(395,078)</b>

The liabilities show the underlying commitments that the Council has in the long run to pay post employment (retirement) benefits. The total liability of £395,078,000 has a substantial impact on the net worth of the Council as recorded in the Balance Sheet, resulting in an overall balance of £83.608 million. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy:

- the deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme actuary.
- finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

The total contributions expected to be made to the Local Government Pension Scheme by the council in the year to 31 March 2013 is £25.0 million. Expected contributions for the Discretionary Benefits scheme in the year to 31 March 2012 are £2.7 million. Expected contributions to unfunded teachers pensions in the year to 31 March 2012 are £3.0 million.

## Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Mercer, an independent firm of actuaries, estimates for the Merseyside Pension Fund being based on the latest full valuation of the scheme as at 31 March 2010.

The principal assumptions used by the actuary have been:

	Local Government Pension Scheme		Discretionary Benefits	
	2010/11	2011/12	2010/11	2011/12
Long-term expected rate of return on assets in the scheme:				
Equity investments	7.5%	7.0%	-	-
Government Bonds	4.4%	3.1%	-	-
Other Bonds	5.1%	4.1%		
Property	6.5%	6.0%		
Cash / Liquidity	0.5%	0.5%		
Other	7.5%	7.0%	-	-
Mortality assumptions:				
Longevity at 65 for current pensioners:				
• Men	21.4	21.5	16.4	16.4
• Women	24.1	24.2	20.1	20.3
Longevity at 65 for future pensioners:				
• Men	22.8	22.8	-	-
• Women	25.7	25.8	-	-
Rate of CPI inflation	2.9%	2.5%	2.8%	2.7%
Rate of increase in salaries	4.4%	4.0%	2.8%	2.7%
Rate of increase in pensions	2.9%	2.5%	-	-
Rate for discounting scheme liabilities	5.5%	4.9%	2.8%	2.7%
Take-up of option to convert annual pension into retirement lump sum	50%	50%	6.2%	6.1%

The Discretionary Benefits arrangements have no assets to cover its liabilities. The Local Government Pension Scheme's assets consist of the following categories, by proportion of the total assets held:

	2010/11 %	2011/12 %
Equity investments	60.7	59.1
Government bonds	10.7	15.7
Other bonds	6.7	4.0
Property	7.9	9.3
Cash/liquidity	2.3	2.2
Other	11.7	9.7
	100.0	100.0

### History of Experience Gains and Losses

The actuarial gains identified as movements on the Pensions Reserve in 2011/12 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2012:

	2007/08 %	2008/09 %	2009/10 %	2010/11 %	2011/12 %
Differences between the expected and actual return on assets	(9.82)	(29.56)	(20.35)	1.49	(4.09)
Experience gains and losses on liabilities	(2.40)	-	-	6.10	-

### 46. TRUST FUNDS

The Council acts as a trustee for a number of trust funds. These do not represent assets of the Council and have not been included in the Balance Sheet.

The E.F. Callister trust promotes youth development. The Stitt and Russell trusts exist to promote educational achievement.

	EF Callister £	Stitt Scholarship £	RJ Russell Prize £	Criminal Injuries £	Other £	Total £
<b>Balance 1 April 2010</b>	<b>372,822</b>	<b>36,480</b>	<b>85,715</b>	<b>33,891</b>	<b>102,647</b>	<b>631,555</b>
Income	-	182	374	-	12,786	13,342
Expenditure	-	-	-	(31,558)	(1,030)	(32,588)
<b>Balance 31 March 2011</b>	<b>372,822</b>	<b>36,662</b>	<b>86,089</b>	<b>2,333</b>	<b>114,403</b>	<b>612,309</b>
Income	-	183	430	12	3,901	4,526
Expenditure	-	-	-	-	(8,225)	(8,225)
<b>Balance 31 March 2012</b>	<b>372,822</b>	<b>36,845</b>	<b>86,519</b>	<b>2,345</b>	<b>110,079</b>	<b>608,610</b>

Fund assets are as follows:

	<b>Balance 1 April 2010 £</b>	<b>Balance 31 March 2011 £</b>	<b>Balance 31 March 2012 £</b>
Property	372,822	372,822	372,822
Investments

Equities	6,922	6,922	6,922
Cash	13,797	18,438	15,053
	<b>631,555</b>	<b>612,309</b>	<b>608,610</b>

## 47. CONTINGENT ASSETS AND LIABILITIES

### Wirral Partnership Homes (WPH)

On the transfer of the Council housing stock in 2005, an environmental warranty was agreed with Wirral Partnership Homes (WPH). This warranty requires remediation of any environmental contamination. It has been agreed that the funding of such costs will be from the Community Fund that is administered by WPH and the Council.

The Community Fund is administered by WPH but all expenditure must be agreed by both WPH and the Council. The utilisation of the Fund by each organisation must be in accord with the agreed purposes of improving the economic, environmental and social well-being of Wirral's residents and compliance with the charitable objectives of WPH.

### Pay Review

As a consequence of the National Joint Council (NJC) for Local Government Services pay award the Council is implementing a Local Pay Review which is being backdated to 1 April 2007. The review is addressing any equality issue in relation to equal pay for work of equal value, and whilst substantially complete the final cost is not yet known. The accounts include sums set aside as a contribution towards these additional costs.

The Council also undertook a negotiated settlement of its equal pay obligations. With the payment of back pay for certain employees relating to past years' service made a small number of cases remain to be settled and, to date, the Council has received a small number of claims. There is the likelihood of further potential liabilities or amounts that may be required to settle obligations.

### Development and Investment

The Housing Market Renewal Initiative involves a substantial programme of clearance and redevelopment in Birkenhead and Wallasey. A potential liability exists if the developments do not proceed given the current economic and public funding situation.

## 48. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Council has adopted CIPFA's Code of Practice on Treasury Management and complies with The Prudential Code of Capital Finance for Local Authorities (both revised in November 2011).

As part of the Treasury Management Code, the Council approves a Treasury Management Strategy before the commencement of each financial year. The Strategy sets out the parameters for the management of risks associated with Financial Instruments. The Council also produces Treasury Management Practices specifying the practical arrangements to be followed to manage these risks.

The Treasury Management Strategy includes an Annual Investment Strategy in compliance with the CLG Investment Guidance for Local Authorities. This Guidance emphasises that priority is to be given security and liquidity, rather than yield. The Council's Treasury Strategy, together with its Treasury Management Practices are based on seeking the highest rate of return consistent with the proper levels of security and liquidity.

The main risks covered are:

- Credit Risk: The possibility that one party to a financial instrument will fail to meet their contractual obligations, causing a loss to the other party.
- Liquidity Risk: The possibility that a party will be unable to raise funds to meet the commitments associated with Financial Instruments
- Market Risk: The possibility that the value of an instrument will fluctuate because of changes in interest rates, market prices etc.

### **Credit Risk**

The Council manages credit risk by ensuring that investments are placed with counterparties having sufficiently high credit ratings as set out in the Treasury Management Strategy. Limits are also placed on the amount of money that can be invested with a single counterparty and for institutions that are part of the same banking group.

It must also be noted that although credit ratings remain a key source of information, the Council recognises that they have limitations and investment decisions are based on a range of credit indicators. All investments have been made in line with the Council's Treasury Management Strategy Statement for 2011/12, approved by Full Council on 1 March 2011.

Until November 2011 the minimum credit rating criteria for new investments in 2011/12 was a long term rating of A+/A1/A+ (Fitch/Moody's/S&P). Following downgrades to a number of systemically important financial institutions in autumn 2011, a lower minimum credit rating criteria of A-/A3/A- (Fitch/Moody's/S&P) was adopted by the Council once the revised Treasury Strategy was approved by Full Council.

The table below summarises the nominal value of the Council's investment portfolio as at 31 March 2012 by the counterparty's country of origin and its credit rating. The table confirms that all investments were made in line with the Council's approved credit rating criteria at the time of placing the investment:

Financial Institution / Instrument and Country	Credit Rating *		Maturity of Investment					Balance Invested as at 31.03.12
	Long Term Rating	Short Term Rating	Cash Equivalent	0-3 Months	3-6 Months	6-12 Months	Over 12 Months	
			£000	£000	£000	£000	£000	£000
<b>LOANS AND RECEIVABLES</b>								
<u>Banks</u>								
UK	A+	F1	15,000	-	-	-	-	15,000
UK	A	F1	-	6,600	4,900	2,000	6,000	19,500
<u>Building Societies</u>								
UK	A	F1	-	5,500	-	-	-	5,500
<u>Other Local Authorities</u>	n/a	n/a	-	3,500	4,000	6,800	19,500	33,800
<b>TOTAL LOANS AND RECEIVABLES</b>			<b>15,000</b>	<b>15,600</b>	<b>8,900</b>	<b>8,800</b>	<b>25,500</b>	<b>73,800</b>
<b>AVAILABLE FOR SALE FINANCIAL ASSETS</b>								
Gilts	AAA	F1+	-	-	-	-	7,500	7,500

Money Market Fund	AAA	F1+	19,730	-	-	-	-	19,730
<b>TOTAL AVAILABLE FOR SALE ASSETS</b>			<b>19,730</b>	<b>999</b>	<b>-</b>	<b>-</b>	<b>7,500</b>	<b>28,229</b>
<b>Total Financial Instruments</b>			<b>34,730</b>	<b>16,599</b>	<b>8,900</b>	<b>8,800</b>	<b>33,000</b>	<b>102,029</b>

\* Credit rating is lowest common denominator equivalent derived from the rating allocated by the Agencies Fitch, Standard & Poors and Moody's

This table excludes the Council's impaired investment with Heritable Bank but includes a risk assessment of cash equivalents.

The Council has an impaired loan and receivable of £2m with Heritable bank at an interest rate of 6.22% which was due to mature on 28 November 2008. Early in October 2008 Heritable Bank went into administration. The latest creditor progress report issued by the administrators Ernst and Young dated 28 July 2011 outlined that the return to creditors is projected be 90p in the £ by the end of 2012/13 and the final recovery could be higher. The Council has, therefore, decided to recognise an impairment based on it recovering 90p in the £.

## Trade Debtors

The credit risk associated with loans secured against property is minimal. Trade debtors are also subject to non payment, a bad debt provision is calculated for these based on the historic experience of levels of default. By including these provisions within the accounts the credit risk is recognised in the accounts.

<b>2010/11 Trade Debtors</b>	<b>2011/12</b>
<b>£000</b>	<b>£000</b>
15,353 Gross Debtors	21,808
6,489 Bad Debt Provision	7,622
<b>8,864 Net Trade Debtors</b>	<b>14,186</b>

## Liquidity Risk

The Council has access to borrowing facilities from the Public Works Loan Board. There is no perceived risk that the Council will be unable to raise finance to meet its commitments. The Council also has to manage the risk that it will not be exposed to replenishing a significant proportion of its borrowing at a time of unfavourable interest rates by aiming to have an even spread of maturities in each year.

The maturity analysis of the nominal value of the Council's debt at 31 March 2012 was as follows

	<b>31.03.2012</b>	
<b>Maturity of Borrowing (Years)</b>	<b>£000</b>	<b>%</b>
<u>Short Term Borrowing</u>		
Less than 1 year	17,129	6.48
<b>Total Short Term Borrowing</b>	<b>17,129</b>	<b>6.48</b>
<u>Long Term Borrowing:-</u>		
Over 1 year under 2 years	30,006	11.35
Over 2 years under 3 years	13,035	4.93
Over 3 years under 4 years	7,536	2.85
Over 4 years under 5 years	8,036	3.04
Over 5 years under 10 years	34,038	12.88
Over 10 years under 20 years	23,529	8.90
Over 20 years under 40 years	33,000	12.49
Over 40 years under 60 years	79,500	30.08
Over 60 years under 70 years	18,500	7.00
<b>Total Long Term Borrowing</b>	<b>247,180</b>	<b>93.52</b>
<b>Total Borrowing</b>	<b>264,309</b>	<b>100.00</b>

## Market Risk

### (1) Interest Rate Risk:

The Council is exposed to risks arising from movements in interest rates. To give the Council maximum flexibility during the year's unsettled market conditions the Treasury Management Strategy did not place limits on the amount of debt that can be exposed to fixed or variable interest rates. At 31 March 2012 100% of the debt portfolio was held in fixed rate instruments.

Investments are also subject to movements in interest rates. As investments are made at fixed rates, but for shorter periods of time, there is greater exposure to interest rate movements. This risk has to be balanced against actions taken to mitigate credit risk.

If all interest rates had been 1% higher (with all other variables held constant) the financial effect on investment income would have been an increase of approximately £1,430,000. There would be no effect on interest payable on borrowings as all borrowings held are at fixed rates of interest.

The appropriate impact of a 1% fall in interest rates would be the same as above but with the movements being reversed.

## **(2) Price risk:**

The Council only invests in AAA rated money market funds with a Constant Net Asset Value (CNAV) and, therefore, is only subject to very minimal price risk (i.e. the risk that the Council will suffer loss as a result of adverse movements in the price of financial instruments).

## **(3) Foreign exchange risk**

The Council has no financial assets or liabilities denominated in a foreign currency. It, therefore, has no exposure to loss arising as a result of adverse movements in exchange rates.

## **49. SURPLUS OR DEFICIT ON THE REVALUATION OF PROPERTY, PLANT AND EQUIPMENT**

This note relates to the 2010/11 amount of £10.5 million for the surplus or deficit on the Revaluation of Property, Plant and Equipment.

The deficit on the revaluation of property, plant and equipment contains £6m related to capital grants. This is an item of uncertainty as these grants are not related to the change in the value of the Council's assets. It is related to the funding of capital expenditure and should not be included in this line. The contra correction would have the effect of reducing service specific gross income. The correction has no effect on the Council's general fund balances as these items offset in the Comprehensive Income and Expenditure Statement.

## **50. PRIOR PERIOD ADJUSTMENTS**

### **(1) HERITAGE ASSETS**

For 2011/12 the Council is required to change its accounting policy for heritage assets and recognise them at valuation. Previously, heritage assets were either recognised as vehicles or land and buildings at valuation within the property, plant and equipment classification or were not recognised in the Balance Sheet as it was not possible to obtain cost information on the assets. The Council's accounting policies for recognition and measurement of heritage assets are set out in the section on accounting policies.

In applying the new accounting policy, the Council has identified that the assets that were previously held as vehicles at £150,650 or land and buildings at £496,784 (within the property, plant and equipment classification) should now be recognised as heritage assets. However, no change in valuation was required to restate the position at 1 April

2010. An adjustment was however required to write off accumulated depreciation for the assets involved (2 trams and a lighthouse). This resulted in an increase in the Capital Adjustment Account.

The Council will also recognise an additional £11,842,230 for the recognition of heritage assets that were not previously recognised in the Balance Sheet. These assets relate to the Museum's art and other collections, civic regalia, heritage buildings and vehicles within the Transport Museum. This increase is reflected in the Revaluation Reserve and the Capital Adjustment Account for a number of donated assets. The 1 April 2010 and 31 March 2011 Balance Sheets and 2010/11 comparative figures have thus been restated in the 2011/12 Statement of Accounts to apply the new policy.

The effects of the restatement are as follows:

At 1 April 2010 the carrying amount of Heritage Assets is presented at its valuation at £12.490 million. The element that was previously recognised in property, plant and equipment has been reclassified and written down by £0.457 million. The Revaluation Reserve has increased by £11.761 million and the Capital Adjustment account by £0.272 million.

#### Effect on Opening Balance Sheet 1 April 2010

	<b>Opening Balances as at 1 April 2010</b>	<b>Restatement</b>	<b>Restatement required to opening balances as at 1 April 2010</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>
Property, Plant and Equipment	713,720	713,263	(457)
Heritage Assets	-	12,490	12,490
<b>Long-term Assets</b>	<b>807,344</b>	<b>819,377</b>	<b>12,033</b>
<b>Total Net Assets</b>	<b>127,861</b>	<b>139,894</b>	<b>12,033</b>
Unusable Reserves	(18,048)	(6,015)	12,033
<b>Net Worth / Total Reserves</b>	<b>127,861</b>	<b>139,894</b>	<b>12,033</b>

#### Movement in Reserves Statement – Unusable Reserves 2010/11

The restatement of the relevant lines of the Movement in Reserves statement, as of 31 March 2011, as a result of the application of this new accounting policy is presented in the table below.

	<b>As Previously Stated 31 March 2011 £000</b>	<b>As Restated 31 March 2011 £000</b>	<b>Restatement required to balances at 31 March 2011 £000</b>
<b>Balance as at the end of the previous reporting period - 31 March 2010</b>	<b>127,861</b>	<b>139,894</b>	<b>12,033</b>
Surplus or Deficit on the Provision of Services	26,976	26,976	-
Other Comprehensive Income and Expenditure	40,738	40,738	-
Adjustments between the accounting basis and the funding basis under regulations	-	-	-
<b>Increase / (decrease) in the year</b>	<b>67,714</b>	<b>67,714</b>	<b>-</b>
<b>Balance at the end of the current reporting period 31 March 2011</b>	<b>195,575</b>	<b>207,608</b>	<b>12,033</b>

The resulting restated Balance Sheet for 31 March 2011 is provided on [page 35](#). The adjustments that have been made to the Balance Sheet over the version published in the 2010/11 Statement of Accounts are as follows:

#### Effect on Balance Sheet 31 March 2011

	<b>As Previously Stated 31 March 2011 £000</b>	<b>Restatement £000</b>	<b>Restatement required to balances at 31 March 2011 £000</b>
Property, Plant and Equipment	684,858	684,401	(457)
Heritage Assets	-	12,490	12,490
<b>Long-term Assets</b>	<b>775,367</b>	<b>787,400</b>	<b>12,033</b>
<b>Total Net Assets</b>	<b>195,575</b>	<b>207,608</b>	<b>12,033</b>
Unusable Reserves	51,158	63,191	12,033
<b>Total Reserves</b>	<b>195,575</b>	<b>207,608</b>	<b>12,033</b>

There has been no further impact on the Balance Sheet apart from the changes referred to above for the period to 1 April 2010. The fully restated 1 April 2010 is provided on [page 35](#).

## FINANCING AND INVESTMENT INCOME LINE WITHIN THE COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

In the 2011/12 Statement of Accounts the Council has restated the line for Financing and Investment income and Expenditure for 2010/11 within the Comprehensive Income and Expenditure Statement. This is due to a change of accounting treatment in respect of pension assets, investment properties and other investment income.

	<b>Gross Expenditure £000</b>	<b>Gross Income £000</b>	<b>Net Expenditure £000</b>
2010/11 Original	31,287	3,880	27,407
2010/11 Restated	77,543	50,136	27,407
<b>Change</b>	<b>46,256</b>	<b>46,256</b>	<b>-</b>

In accordance with accounting practice the Collection Fund balance has been allocated to individual preceptors, which includes Wirral Council.

## NOTES TO THE ADDITIONAL FINANCIAL STATEMENTS

### COLLECTION FUND

#### 1. GENERAL

These accounts represent the statutory requirement to establish and maintain a separate fund for the collection and distribution of amounts in respect of Council Tax and National Non-Domestic Rates (NNDR).

#### 2. INCOME FROM COUNCIL TAX

The Council set a Council Tax in 2011/12 for each band of dwelling as shown below:

Band	£	Band	£	Band	£	Band	£
A	976.14	C	1,301.51	E	1,789.58	G	2,440.34
B	1,138.82	D	1,464.20	F	2,114.96	H	2,928.40

The Council Tax was set estimating the number of properties in each band, after allowing for discounts and a 1.5% provision for non-collection. The tax in each band is set in relation to Band D. The maximum is Band H which is twice Band D. The minimum is Band A which is 2/3 of Band D.

The properties making up the estimated tax base are shown below. A number of adjustments are made to reflect the estimated reductions, reliefs and exemptions that apply to properties in each band. This gives the number of effective properties in each band, which is converted into the Band D equivalent using the ratios given:

Band	No. of Properties	Less Discounts	Effective Properties	Band Ratio	Band D Equivalent
A	58,757	11,039.50	47,717.50	6/9	31,811.67
B	31,041	3,889.75	27,151.25	7/9	21,117.64
C	27,207	2,828.25	24,378.75	8/9	21,670.00
D	13,028	1,181.75	11,846.25	1	11,846.25
E	8,039	639.00	7,400.00	11/9	9,044.44
F	4,273	315.75	3,957.25	13/9	5,716.03
G	3,101	244.00	2,857.00	15/9	4,761.67
H	271	42.50	228.50	18/9	457.00
	145,717	20,180.50	125,536.50		106,424.70
Add Band A Disabled Relief Band D					51.10
<b>Total Council Tax Base 2011/12</b>					<b>106,475.80</b>
Estimated Collection Rate					x 98.5%
<b>Adjusted Council Tax Base 2011/12</b>					<b>104,879</b>

The amounts credited to the Collection Fund for Council Tax are as follows: -

	<b>2010/11 £000</b>	<b>2011/12 £000</b>
Cash Payable	123,292	124,642
Council Tax Benefit	31,034	31,217
Pensioner Discounts	780	815
	<b>155,106</b>	<b>156,674</b>

### 3. INCOME FROM BUSINESS RATE PAYERS

The Council collects Non-Domestic rates for its area. This is based on local estimated rateable values. The estimated rateable value is split between general and small business. For 2011/12, the total rateable value was £179,816,768 of this, £164,019,590 related to general, charged at £0.433. Total small business was £15,797,178, charged at £0.426. This gave an opening charge of £77.765 million. After certain reliefs are granted and a provision for losses in collection made this produces collectable income of £61.502 million.

The income amount less a costs of collection allowance is paid to a central pool managed by Central Government. The pool pays back to authorities an amount based on a standard amount per head of the local adult population. This distribution is paid into the Council's General Fund. The total rateable value of all hereditaments within the Council area at 31 March 2012 was £180,910,478.

### 4. PRECEPTS

The Collection Fund paid the following precepts during the year: -

	<b>2010/11 £000</b>	<b>2011/12 £000</b>
Wirral Council	131,197	131,434
Merseyside Police Authority	15,309	15,336
Merseyside Fire and Rescue Service	6,781	6,793
	<b>153,287</b>	<b>153,563</b>

### 5. PROVISION FOR BAD AND DOUBTFUL DEBTS

A provision for bad debts is made each year for uncollectable amounts. The Council assumed a general collection rate of 98.5% for 2011/12. The bad debt provision is assessed annually and amounts set aside adjusted on an age profile of outstanding debt. In 2011/12 an additional £0.75 million has been placed in the provision to reflect increased billing arising from the charging for empty properties and potential future liabilities for non-payment. The costs of bad and doubtful debts are split between the Collection Fund preceptors based upon their precept shares.

### 6. CONTRIBUTION FROM/TO COLLECTION FUND

A year-end surplus/deficit on the Council Tax element of the Collection Fund is only physically distributed/recovered between the billing and precepting authorities where an estimated surplus/deficit has already been notified to those authorities.

For 2011/12 the preceptors were originally notified on 15 January 2012 that the Collection Fund would be in a surplus position, with an estimate of £1.7 million. As at 31 March 2012 there was a surplus of £2.306 million and this was allocated amongst the precept authorities accordingly. The additional amount has been allocated on the basis of the 2012/13 precept proportions.

In accordance with the changes in accounting practice any outstanding amounts at year end are distributed to preceptors on an accrued basis. Wirral's balance sheet reflects the share of any amounts owing or owed to it. An agency arrangement is reflected in Wirral Council's accounts with a single debtor or creditor representing amounts owed or owing to the Merseyside Fire & Civil Defence and Merseyside Police Authorities.

## 7. ALLOCATION OF YEAR END BALANCES

The year end balance on the Collection Fund is in respect of Council Tax and is shared in proportion to the precepts on the Collection Fund. The surplus is allocated on two bases. The surplus that was reported on 15 January 2012 (£1.7 million) is apportioned using the 2011/12 precept votes, whereas the additional surplus resulting from the final position as at 31 March 2012, is apportioned using the 2012/13 precept votes.

Payable to:	Estimate 15 Jan 12	Additional Surplus 31 Mar 12	Total Allocation
Wirral Council	1,455	516	1971
Merseyside Police Authority	170	62	232
Merseyside Fire and Rescue Service	75	28	103
	<b>1,700</b>	<b>606</b>	<b>2,306</b>

The share of any Collection Fund surplus or deficit is reflected within the precepting organisation's 2011/12 accounts. Wirral Council's element is included within the Taxation and Non-Specific Grant Income line within the Comprehensive Income and Expenditure Statement.

## NOTES TO THE PENSION FUND ACCOUNTS

### 1. GENERAL

Merseyside Pension Fund (MPF/the fund) is part of the Local Government Pension Scheme (LGPS) and is administered by Wirral Council. Wirral Council is the reporting entity for this pension fund.

The following description of the fund is a summary only. For more detail, reference should be made to Merseyside Pension Fund Annual Report 2011/12 and the underlying statutory powers underpinning the scheme, namely the Superannuation Act 1972 and the Local Government Pension Scheme (LGPS) Regulations.

The fund is a contributory defined benefit pension scheme administered by Wirral Council to provide pensions and other benefits for pensionable employees of the Merseyside Local Authorities and a range of other scheduled and admitted bodies. Teachers, police officers and fire fighters are not included as they come within other national pension schemes.

Membership of the LGPS is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal arrangements outside the scheme.

Organisations participating in Merseyside Pension Fund include:

- Scheduled bodies, which are local authorities and similar bodies whose staff are automatically entitled to be members of the fund.
- Admitted bodies, which are organisations that participate in the fund under an admission agreement between the fund and the relevant organisation.

Benefits are funded by employee and employer contributions and investment earnings. Contributions are made by active members of the fund in accordance with the LGPS and are matched by employers' contributions which are set based on triennial actuarial funding valuations.

Pension benefits under the LGPS are based on final pensionable pay and length of pensionable service. In May 2012 the Local Government Association announced the 2012 new LGPS proposals to take effect from 1 April 2014 subject to consultation. The new proposed scheme is a career average revalued scheme.

Benefits are index-linked in order to keep pace with inflation. In June 2010, the Government announced that the method of indexation would change from the retail price index to the consumer price index. This change took effect from 1 April 2011.

### 2. BASIS OF PREPARATION

#### Basis of Preparation

The Statement of Accounts summarises the fund's transactions for the 2011/12 financial year and its position at year end as at 31 March 2012. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the

United Kingdom 2011/12 which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector

The accounts summarise the transactions of the fund and report on the net assets available to pay pension benefits. The accounts do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year. The actuarial present value of promised retirement benefits, valued on an International Accounting Standard (IAS) 19 basis, are shown within the statement by the actuary on pages 167-168.

### **3. ACCOUNTING POLICIES**

The financial statements have been prepared on an accruals basis, unless otherwise stated.

#### **Contributions and benefits**

Contributions are accounted for on an accruals basis. Benefits payable represent the benefits paid during the financial year and include an estimated accrual for lump-sum benefits outstanding as at the year end. Augmentation and pension strain payments due from employers in future years are accrued for.

#### **Transfers to and from other schemes**

Transfer payments relate to those early leavers whose transfers have been paid during the year plus an accrual for future payments in respect of members moving their service to other schemes under bulk transfer arrangements.

#### **Taxation**

The fund is a registered public service scheme under section 1 (1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a fund expense as it arises.

#### **Administration expenses**

All administration expenses are accounted for on an accruals basis. All staff costs of the pensions team are charged direct to the fund. Management and other overheads are apportioned to the fund in accordance with council policy.

#### **Investment management expenses**

All investment management expenses are accounted for on an accrual basis.

Fees of the external investment managers and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market values of the investments under their management and therefore increase or reduce as the value of these investments change.

For certain unquoted investments including private equity, hedge funds, opportunities and infrastructure the fund do not charge costs for these to the fund account because the fund manager costs are not charged directly to the fund. They are instead deducted from the value of the fund's holding in that investment or from investment income paid to the fund.

The cost of obtaining investment advice from external consultants is included in investment management expenses.

Costs in respect of the internal investment team are classified as investment management expenses.

**Property expenses**

Property expenditure is accounted for in the calendar year.

**Investment income**

Income from equities is accounted for when the related investment is quoted ex dividend. Income from pooled investment vehicles and interest on short term deposits has been accounted for on an accruals basis. Distributions from associate and joint ventures are treated as return of capital until the book value is nil then treated as income on an accruals basis.

Changes in the net market value of investments (including investment properties) are recognised as income and comprise all realised and unrealised profits/losses during the year.

**Rental income**

Rental income from properties is taken into account by reference to the periods to which the rents relate and is shown net of related expenses. The Fund accrues rent up to 24 March each year. Rent received on the Quarter Day, 25 March, is accounted for in full in the following year.

**Valuation of investments**

Financial assets are included in the net asset statement on a fair value basis as at the reporting date. The values of investments as shown in the net asset statement are determined as follows:

Listed securities are valued at quoted bid market prices on the final day of the accounting period. The bid price is the price which the fund would have obtained should the securities have been sold at that date.

For unlisted investments wherever possible valuations are obtained via the independent administrator. Valuations that are obtained direct from the manager are verified against the latest available audited accounts adjusted for any cash flows up to the reporting date.

Hedge funds and infrastructure are recorded at fair value based on net asset values provided by fund administrators or using latest financial statements published by respective fund managers adjusted for any cash flows.

Private equity valuations are in accordance with the guidelines and conventions of the British Venture Capital Association/International Private Equity guidelines or equivalent.

Indirect property is valued at net asset value or capital fair value basis provided by the fund manager and of listed funds net asset value per unit is obtained through data vendors.

Direct property is valued at fair value as defined by the IASB and market rent as set out in VS 3.3 of the Professional Standards, as at the reporting date. Direct properties have been valued independently by Colliers International in accordance with Royal Institute of Chartered Surveyors Valuation Professional Standards as at 31 March 2012.

Pooled investment vehicles are valued at closing bid price if both bid and offer prices are published; or if single priced, at the closing single price. In the case of pooled investment vehicles that are accumulation funds, change in market value also includes

income which is reinvested by the manager of the vehicle in the underlying investment, net of applicable withholding tax.

### **Translation of foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at rates ruling at the year end. Foreign income received during the year is translated at the rate ruling at the date of receipt. All resulting exchange adjustments are included in the revenue account.

### **Derivatives**

The fund uses derivative financial assets to manage exposure to specific risks arising from its investment activities.

Derivative contract assets are fair valued at bid prices and liabilities are fair valued at offer prices. Changes in the fair value of derivative contracts are included in change in market value.

The value of future contracts is determined using exchange prices at the reporting date. Amounts due from or owed to the broker are the amounts outstanding in respect of the initial margin and variation margin.

The value of exchange traded options is determined using the exchange price for closing out the option at the reporting date.

The future value of forward currency contracts is based on market forward exchange rates at the year end date and determined as the gain or loss that would arise if the outstanding contract were matched at the year end with an equal and opposite contract.

### **Financial Liabilities**

The fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the net assets statement on the date the fund becomes party to the liability. From this date any gains or losses arising from changes in the fair value of the liability are recognised by the fund.

### **Basis of estimates**

Estimates for post year end outstanding items have been used for the following activities: payments of retirement grants, death grants and investment managers' fees

- retirement grants due for payment, but not paid by 31 March: using actual figures as far as possible, and assuming maximum commutation to be taken where the knowledge of the individual member's choice is still outstanding
- death grants due for payment, but not paid by 31 March: for example awaiting Probate
- investment managers' fees outstanding: estimated using the Fund's valuations as at 31 March 2012.

Private equity investments are valued at fair value in accordance with British Venture Capital Association guidelines. These investments are not publicly listed and as such there is a degree of estimation involved in the valuation.

Hedge funds are valued at the sum of the fair values provided by the administrators of the underlying funds plus adjustments that the hedge fund directors or independent administrators judge necessary. These investments are not publicly listed and as such there is a degree of estimation involved in the valuation.

#### 4. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

##### Unquoted investments

The fund has significant unquoted investments within private equity, infrastructure, property and other alternative investments. These are valued within the financial statements using valuations from the managers of the respective assets. There are clear accounting standards for these valuations and the fund has in place procedures for ensuring that valuations applied by managers comply with these standards and any other relevant best practice. The value of unquoted assets as at 31 March 2012 was £1,021 million (£874 million at 31 March 2011).

#### 5. EVENTS AFTER THE BALANCE SHEET DATE

There have been no events since 31 March 2012, and up to the date when these accounts were authorised, that require any adjustments to these accounts.

#### 6. CONTRIBUTIONS RECEIVABLE

	<b>266,747</b>	<b>243,213</b>

Employers normal contributions for 2012 no longer includes an element of past service deficit, as this is now shown under deficit funding. However, the 2011 employers normal contributions does include an element of past service deficit. The 2007 actuarial valuation calculated the average employer contribution rate of 17.8%, 12.1% was determined the average employer rate in respect of future service only and 5.7% for past service deficit.

"Augmentation" represents payments by employers to the Fund for the costs of additional membership benefits awarded under LGPS regulations. An accrual has been made for agreed future payments to the Fund.

"Pension Strain" represents the cost to employers when their employees retire early to compensate the Fund for the reduction in contribution income and the early payment of benefits. Payments to the Fund for such costs are made over agreed periods. An accrual has been made for agreed future payments to the Fund.

"Deficit Funding" for 2012 includes payments by employers for past service deficit and additional payments by employers to reduce a deficit. However, the 2011 deficit funding represents additional payments by employers only as the past service deficit element was included in employers normal contributions. Also included is £1.4 million relating to Magistrates Courts (2010/11 £7.2 million) which was previously an active member of the Fund.

The fund does reserve the right to levy interest charges on late receipt of contributions from employers. In 2011/12 no such charges were levied.

Net rent from properties	<b>17,242</b>	<b>15,960</b>

Within investment income for 2011 £450,000 of dividends from equities has been reattributed to income from pooled investment vehicles.

Investment income figures are shown gross of tax. Included in these figures is recoverable taxation of £1.8 million (2010/11 £1.6 million).

The fund is seeking to recover tax withheld by UK and overseas tax regimes under the EU principle of free movement of capital within its borders, but is not accruing for future receipt of such income within these accounts. Repayments received in 2011/12 £68,344 (2010/11 nil).

As at 31 March 2012, £177.0 million of stock was on loan to market makers, which was covered by cash and non-cash collateral, totalling £185.7 million, giving a margin of 4.9%. Collateral is marked to market, and adjusted daily. Income from stock lending amounted to £739,965 and is included within "Other" Investment Income. As the Fund retains its economic interest in stock on loan, their value remains within the Fund valuation. As the Fund has an obligation to return collateral to the borrowers, collateral is excluded from the Fund valuation. The Fund used its Custodian as agent lender, lending only to an agreed list of approved borrowers. An indemnity is in place which gives the Fund further protection against losses.

The risks associated with stocklending are set out in the fund's "Statement of Investment Principles".

## 12. INVESTMENT MANAGEMENT EXPENSES

\*Note: The change in market value of investments during the year comprises all realised and unrealised appreciation and depreciation. For 2010/11 purchases £2.4 billion and sales of £2.4 billion.

Transaction costs include fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, transfer taxes and duties. They have been added to purchases and netted against sales proceeds as appropriate. Transaction costs during the year amounted to £1.7 million (2010/11 £2.1 million). In addition to these costs, indirect costs are incurred through the bid-offer spread on investments in pooled vehicles. The amount of indirect costs is not provided directly to the Fund.

### 13b Impairment on Icelandic deposits

At the time Iceland banks collapsed in October 2008, the fund had two investments £2.5 million with Heritable Bank and £5 million with Glitnir Bank.

The administrators for Heritable Bank estimated that the total amount to be received was to be between 86% and 90% of the claim. The Fund has therefore decided to recognise an impairment based on it recovering the mid point 88%. As at 31 March 2012 the fund had received dividend payments totalling £1.7 million.

In December 2011, the courts determined that local authority deposits with Glitnir Bank qualified for priority status. In March 2012, 81 pence in the £ was recovered and the remaining 19% remains held in Icelandic Krona in an escrow account. An impairment charge of £338,477 against accrued interest has been recognised in the Fund Account in 2011/12.

The total amount of accrued interest is £183,933 (2010/11 £385,653).

A futures contract is the obligation under a legal agreement to make or take delivery of a specified instrument at a fixed future date, at a price determined at the time of dealing. Merseyside Pension Fund's index futures contracts are externally managed and their objective is to hedge overseas investment positions against adverse index movements.

Futures dealing requires the posting of margin. Initial margin which must be posted before you can trade and variation margin, the mark-to-market value of the futures contracts you hold. Variation margin is exchanged daily and exists to reduce counterparty credit exposure. Collateral is held in EUR, CHF and GBP currency and the Sterling equivalent is £104,088. DJ Euro STOXX 50 and Swiss Index Futures have a contract multiplier of x10 therefore the notional value underlying the futures contracts is £4.4 million.

**Forward currency contracts**

The funds forward currency contracts are exchange traded and are used by a number of our external investment managers to hedge exposures to foreign currency back into sterling.

## 14. FINANCIAL INSTRUMENTS

### 14a Classification of financial instruments

Accounting policies describe how different asset classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the carrying amounts of financial assets and liabilities (excluding cash) by category and net asset statement heading.

	31 March 2012		
	Loans and receivables	Financial liabilities at amortised cost	Designated as at fair value through profit and loss
	£000	£000	£000
<b>Financial Assets</b>

**14c Fair value of financial instruments and liabilities**

	2010/11		2011/12	
	Carrying value £000	Fair Value £000	Carrying value £000	Fair Value £000
<b>Financial Assets</b>				
Fair Value through profit and loss	3,831,197	4,776,037	3,961,786	4,813,730
Loans and receivables	141,000	141,000	123,465	123,465
<b>Total financial assets</b>	<b>3,972,197</b>	<b>4,917,037</b>	<b>4,085,251</b>	<b>4,937,195</b>
<b>Financial Liabilities</b>				
Fair Value through profit and loss	37,114	37,114	15,338	15,338
Financial liabilities at amortised cost	15,986	15,986	12,439	12,439
<b>Total financial liabilities</b>	<b>53,100</b>	<b>53,100</b>	<b>27,777</b>	<b>27,777</b>

The above table summarises the carrying values of the financial assets and financial liabilities by class of instrument compared with their fair values. The carrying value is the book cost and the fair value is market value.

**14d Valuation of financial instruments carried at fair value**

The valuation of financial instruments has been classed into three levels, according to the quality and reliability of information used to determine fair values.

**Level 1**

Financial instruments at level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprise quoted equities, quoted fixed securities, quoted index linked securities and unit trusts.

Listed investments are shown at bid prices. The bid value of the investment is based on the market quotation of the relevant stock exchange.

**Level 2**

Financial instruments at level 2 are those where quoted market prices are not available; for example, where an instrument is traded in a market that is not considered to be active, or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data.

**Level 3**

Financial instruments at level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data.

Such instruments would include unquoted equity investments and hedge fund of funds, which are valued using various valuation techniques that require significant judgement in determining appropriate assumptions.

The values of the investment in private equity are based on valuations provided by the general partners to the private equity funds in which Merseyside Pension Fund has invested.

These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines, which follow the valuation principles of IFRS. Valuations are usually undertaken annually at the end of December. Cash flow adjustments are used to roll forward the valuations to 31 March as appropriate.

The values of the investment in hedge funds are based on the net asset value provided by the fund manager. Assurances over the valuation are gained from the independent audit of the value.

The following table provides an analysis of the financial assets and liabilities of the pension fund grouped into Levels 1 to 3, based on the level at which the fair value is observable.

<b>Values at 31 March 2012</b>	<b>Level 1 £000</b>	<b>Level 2 £000</b>	<b>Level 3 £000</b>	<b>Total £000</b>

## 15. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

### Risk and risk management

The fund's objective is to achieve a funding level position of 100% whilst minimising the level and volatility of employer contributions. Investment strategy is decided with clear reference to this objective.

Over the long term, the fund's objective is to set policies that will seek to ensure that investment returns achieved will at least match the assumptions underlying the actuarial valuation and therefore be appropriate to the liabilities of the fund.

Having regard to its liability profile, the fund has determined that adopting a bespoke benchmark should best enable it to implement an effective investment strategy. This strategic benchmark is reviewed every three years, at a minimum, at the time of the actuarial valuation but will be reviewed as required particularly if there have been significant changes in the underlying liability profile or the investment environment.

The fund has carefully considered the expected returns from the various permitted asset classes and has concluded that in the longer term the return on equities will be greater than from other conventional assets. Consequently, the benchmark is biased towards equities and skewed towards active management, particularly in less developed markets.

The fund is also cognisant of the risk that the shorter term returns may vary significantly from one period to another and between the benchmark and actual returns. Diversification of assets is seen as key to managing this risk and the risk/return characteristics of each asset and their relative correlations are reflected in the make up of the strategic benchmark.

The fund believes that, over the long term, a willingness to take on volatility and illiquidity is likely to be rewarded with outperformance. The fund considers that its strong employer covenant, maturity profile and cash flows enable it to adopt a long term

investment perspective. A mix of short term assets such as bonds and cash is maintained to cover short term liabilities while equities (both passive and active), private equity and direct property are held to benefit from the potential rewards arising from volatility and illiquidity risks. The fund recognises that risk is inherent in investment activity and seeks to manage the level of risk that it takes in an appropriate manner. The fund manages investment risks through the following measures:

- Broad diversification of types of investment and investment managers
- Explicit mandates governing the activity of investment managers.
- The use of a specific benchmark, related to liabilities of the fund for investment asset allocation
- The appointment of independent investment advisors to the Investment Monitoring Working Party
- Comprehensive monitoring procedures for investment managers including internal officers and scrutiny by elected Members

## Market Risk

The fund is aware that its key risk is market risk i.e. the unpredictability of market performance in the future. The general practice to quantify these risks is to measure the volatility of historical performance. The tables below show the fund's exposure to asset classes and their reasonable predicted variance (as provided by the fund's investment consultants) and the resulting potential changes in net assets available to pay pensions. The figures provided are a forward looking assumption of future volatility based on analysis of previous performance and probability

The first table below shows the values of different financial instruments for 2010/11 and 2011/12 with no material difference in the values.

	2010/11 £m	2011/12 £m
UK Equities (all equities include pooled vehicles)	1,452	1,283
US Equities	417	404
European Equities	477	443
Japan Equities	201	204
Emerging Markets Equities inc Pac Rim	485	454

Short term deposits & other investment balances	178	0.0%	178	178
	<b>4,909</b>		<b>5,843</b>	<b>3,975</b>

### Credit Risk

The fund does not hold any fixed interest securities directly and the managers of the pooled fixed income vehicles are responsible for managing credit risk, section a of this note covers the market risks of these holdings.

The fund's arrangements for derivatives, securities lending and impaired items are dealt with in other notes to the accounts.

The short term cash deposits and other investment balances are diversified with investment grade financial institutions. The fund has a treasury management policy that is compliant with current best practice.

### Liquidity risk

The fund's key priority is to pay pensions in the long term and in the short term and the asset allocation is the key strategy in ensuring this. The earlier sections have dealt with the longer term risks associated with market volatility.

To ensure liquidity for payment of pensions the fund has an allocation of 1% to cash; £56 million is the actual figure at balance sheet date which equates to over 2 months of pensions payments. The fund also has £3,846m in assets which could be realised in under a months notice

The fund has no borrowing or borrowing facilities.

The management of the fund also prepares periodic cash flow forecasts to understand and manage the timing of the fund's cash flows. Whilst the fund has a net withdrawal for 2011/12 in its dealing with Members of £29 million, this is offset by investment income of £91 million.

## 16. INVESTMENT LIABILITIES

	2010/11 £000	2011/12 £000
Derivative contracts	-	5,644
Amounts due to stockbrokers	37,114	9,694
	<b>37,114</b>	<b>15,338</b>

## 17. LONG TERM ASSETS

	2010/11 £000	2011/12 £000
Assets due in more than one year	30,844	30,864
	<b>30,844</b>	<b>30,864</b>
<b>Relating to:</b>	Restated	
Central Government Bodies	5,969	5,535
Other Local Authorities	16,533	23,230
NHS	-	-
Public Corporations and Trading Funds	6,785	285
Bodies External to General Government	1,557	1,814
	<b>30,844</b>	<b>30,864</b>

A debtor has been identified as being classed as a central government body. The 2011 debtors have been restated to take account of this change.

Payments are being received in respect of pensioner and deferred members of the Magistrates Courts, which was previously an active employer in the fund. Year 1 is shown as a current asset, but years 2 - 8 have been discounted at a rate of 4% and are included above. Also discounted are future payments of pension strain to be paid by employers in 2013/14 onwards.

**18. CURRENT ASSETS AND LIABILITIES**

	<b>2010/11 £000</b>	<b>2011/12 £000</b>
<b>Assets</b>		
Contributions due	24,280	24,824
Amounts due from external managers	10,831	-

	<b>50,586</b>	<b>36,330</b>
<b>Relating to:</b>	Restated	
Central Government Bodies	887	1,272
Other Local Authorities	19,946	19,994
NHS	-	2
Public Corporations and Trading Funds	2,559	525
Bodies External to General Government	27,194	14,537
	<b>50,586</b>	<b>36,330</b>
<b>Liabilities</b>		
Transfer values payable	-	-
Retirement grants due	4,408	1,775
Provisions	873	602
Miscellaneous	10,705	10,062
	<b>15,986</b>	<b>12,439</b>
<b>Relating to:</b>		
Central Government Bodies	2,737	2,292
Other Local Authorities	3,564	1,380
NHS	-	-
Public Corporations and Trading Funds	855	16
Bodies External to General Government	8,830	8,751
	<b>15,986</b>	<b>12,439</b>
<b>Total current assets and liabilities</b>	<b>34,600</b>	<b>23,891</b>

"Sundries" mainly covers general debtors, property arrears due, agents' balances and recoverable taxation.

"Provision for bad debt" relates to property rental income, and is based on an assessment of all individual property debts as at 31 March 2012.

The main components of "Miscellaneous Liabilities" are the outstanding charges for investment management fees, payable quarterly in arrears, custodial and actuarial fees, plus income tax due, pre-paid rent and administering authority re-imbursement.

A number of debtors have been identified as being classed as bodies external to general government. The 2011 debtors have been restated to take account of this change.

## 19. CONTRACTUAL COMMITMENTS

Commitments for investments amounted to £285.7m as at 31 March 2012. (2010/11 £187.7 million). These commitments relate to Private Equity £159.8 million, Infrastructure £72.9 million, Opportunities £9.1 million, Indirect Property £43.9 million. As some of these funds are denominated in foreign currencies, the commitment in sterling is subject to change due to currency fluctuations.

## 20. CONTINGENT ASSETS

When determining the appropriate fund policy for employers the different participating characteristics as either a contractor or community body or whether a guarantor of sufficient financial standing agrees to support the pension obligations is taken into consideration when setting the fiduciary strategy.

It is the policy to actively seek mechanisms to strengthen employer covenants by engaging "contingent assets" in the form of bonds/indemnity insurance, local authority guarantors, parent company guarantors or charge on assets to mitigate the risk of employers exiting the Fund leaving unrecoverable debt.

These financial undertakings are drawn in favour of Wirral Borough Council, as the Administering Authority of Merseyside Pension Fund and payment will only be triggered in the event of employer default.

## 21. RELATED PARTY TRANSACTIONS

There are three groups of related parties: transactions between Wirral Council, as Administering Authority and the Fund, between employers within the Fund and the Fund, and between Members and Senior Officers and the Fund.

Administration and investment management costs include charges by Wirral Council in providing services in its role as administering authority to the Fund, which amount to £3.8 million. (2011 £4.9 million). Such charges principally relate to staffing required to maintain the pension service. Central, finance and IT costs are apportioned to the fund on the basis of time spent on fund work by Wirral Council. There was a debtor of £14.8 million and creditor £276,680 balances as at 31 March 2012.

Employers are related parties in so far as they pay contributions to the fund in accordance with the appropriate Local Government Pension Scheme Regulations (LGPS). Contributions in respect of March 2012 payroll are included within the debtors figure in note 18.

A specific declaration has been received from Pension Committee Members and principal officers regarding membership of, and transactions with, such persons or their related parties. A number of Members act as Councillors or Board members of particular scheme employers, listed below, who maintain a conventional employer relationship with the Fund:

Liverpool City Council, Knowsley Council, Sefton Council and St Helens Borough Council, all of whose Councillors may become scheme members, Wirral Council, Liverpool John Moores University, CDS Housing, Greater Hornby Homes and Wirral Partnership Homes. The value of the transactions with each of these related parties,

namely the routine monthly payments to the fund of employers' and employees' contributions, is determined by the LGPS Regulations, and as such no related party transactions have been declared.

Patrick Dowdall, Investment Manager - Alternatives, acts in an un-remunerated advisory capacity on 6 investment bodies in which the fund has an interest, Standard Life (£7.3m), F&C (£2.1m) and Palatine previously called Zeus (£3.7m), by whom travel expenses and accommodation were paid, plus Key Capital (£3.9m) Enterprise (£1.8m) and Capital Dynamics (£90.7m). New commitments to these funds during 2011/12 were as follows: Standard Life £10m, F&C £7.5m, Palatine £10m, Key Capital £2m and Capital Dynamics £38m approved at Pensions Committee 23 March 2011 and 20 March 2012.

Owen Thorne, Investment Officer acts in an un-remunerated board member capacity at Institutional Investors Group on Climate Change (IIGCC), to which the fund pays an annual subscription.

Each member of the Pension Fund Committee formally considers conflicts of interest at each meeting.

### Key management personnel

The posts of Director of Finance, Deputy Director of Finance and Head of Pension Fund are deemed to be key management personnel with regards to the pension fund. The financial value of their relationship with the fund (in accordance with IAS24) are set out below:

	2010/11 £000	2011/12 £000
Short term benefits*	318	309
Long term/post retirement benefits**	1,559	1,686
<b>Total</b>	<b>1,877</b>	<b>1,995</b>

\* This is the pensions element of short term remuneration for key management personnel, i.e. annual salary, benefits in kind and employer contributions.

\*\* This is the accrued pension benefits, expressed as cash equivalent transfer value.

## 22. ADDITIONAL VOLUNTARY CONTRIBUTION INVESTMENTS

The Committee holds assets invested separately from the main fund. In accordance with regulation 5 (2) (c) of the Pensions Schemes (Management and Investment of Funds) Regulations 1998, these assets are excluded from the Pension Fund accounts.

The Scheme providers are Equitable Life, Standard Life and Prudential. Individual members participating in this arrangement each receive an annual statement confirming the amounts held on their account and the movements in the year.

	<b>2010/11 £000</b>	<b>2011/12 £000</b>
The aggregate amount of AVC investments is as follows :		
Equitable Life	2,898	2,596
Standard Life	6,035	5,683
Prudential	4,079	4,477
	<b>13,012</b>	<b>12,756</b>
Changes during the year were as follows:		
Contributions	1,705	1,677
Repayments	3,544	2,278
Change in market values	517	345

## 23. BACKGROUND INFORMATION

Merseyside Pension Fund operates the Local Government Pensions Scheme (LGPS) which provides for the occupational pensions of employees (other than teachers, police officers and fire fighters) of the local authorities within the Merseyside Area. The current contributing employers are shown below. As at 31 March 2012, there were 45,521 active members (March 2011 47,554), 44,118 pensioners and dependents (March 2011 42,439), and 32,912 deferred beneficiaries (March 2011 31,361). Membership statistics quoted for March 2011 are adjusted for the provision of late notification of retirements, leavers with deferred benefits and other work in progress at the time of reporting last year.

The overall responsibility for the management of the Fund rests with the Pensions Committee, which for 2011/12 included 10 councillors from Wirral Council, the Administering authority, plus one councillor from each of the 4 other Borough Councils, and one member representing the other employers in the scheme. Representatives of trade unions also attend. The more detailed consideration of investment strategy and asset allocation of the Fund's portfolios is considered by the Investment Monitoring Working Party, which includes an external adviser and a consultant. In 2010/11 a Governance and Risk Working Party was established.

The Pensions Committee annually reviews its Statement of Investment Principles. The principles ensure that the Fund's investments would continue to be determined by all relevant considerations including the Council's fiduciary duty to employing bodies and the Council taxpayer, rate of return, risk, environmental, social and governance considerations rather than a blanket policy of disinvestment from any specific industry or sector. The latest review was in March 2010, and is available on the Fund's website: [mpfmembers.org.uk](http://mpfmembers.org.uk).

Under the LGPS Regulations, employer contributions are calculated by the Fund's actuary, having regards to the assumptions and methodology set out in the Fund's Funding Strategy Statement (FSS). The most recent Triennial Valuation by the actuary was as at 31 March 2010, when the funding level was 78% of projected actuarial liabilities. The funding objective is to achieve and then maintain assets equal to the funding target. The funding target is the present value of 100% of projected accrued liabilities, including allowance for projected final pay. The FSS specifies a maximum period for achieving full funding of 25 years.

The funding method adopted is the projected unit method, which implicitly allows for new entrants replacing leavers.

The table below sets out the summary of the market (gilts) yields at the valuation date, together with the yields at the date of the previous valuation:

	<b>31 March 2010</b>	<b>31 March 2007</b>
Long-dated gilt yield	4.50%	4.40%
Long-dated index-linked gilt yield	0.07%	1.30%
Market expectation for inflation (long term)	3.80%	3.10%

The assumptions to which the valuation results are particularly sensitive are:-

	<b>2010 Funding Target</b>
Investment Return pre-retirement	6.50%
Investment Return post-retirement	5.50%
Salary increases	4.50%
Pension increases in payment	3.00%
Non-retired members mortality	Pension Annuity 92 Medium Cohort Year of Birth tables + 2 years
Retired members mortality	Continuous Mortality Investigation (CMI) Self-Administered Pension Schemes (SAPS) tables with scheme and member category specific adjustments

The outcomes of the next Triennial Valuation, as at March 2013 are expected in the Autumn of 2013.

## MERSEYSIDE PENSION FUND

### Accounts for the year ended 31 March 2012

#### Statement by the Consulting Actuary

This statement has been provided to meet the requirements under Regulation 34(1)(d) of The Local Government Pension Scheme (Administration) Regulations 2008.

An actuarial valuation of the Merseyside Pension Fund was carried out as at 31 March 2010 to determine the contribution rates with effect from 1 April 2011 to 31 March 2014.

On the basis of the assumptions adopted, the Fund's assets of £4,706 million represented 78% of the Fund's past service liabilities of £6,016 million (the "Funding Target") at the valuation date.

The valuation also showed that a common rate of contribution of 11.6% of pensionable pay per annum was required from employers. The common rate is calculated as being sufficient, together with contributions paid by members, to meet all liabilities arising in respect of service after the valuation date.

Adopting the same method and assumptions as used for assessing the Funding Target the deficit would be eliminated by an average additional contribution rate of 6.4% of pensionable pay for 25 years. This would imply an average employer contribution rate of 18.0% of pensionable pay in total.

Further details regarding the results of the valuation are contained in our formal report on the actuarial valuation dated 30 March 2011.

In practice, each individual employer's position is assessed separately and the contributions required are set out in our report. In addition to the certified contribution rates, payments to cover additional liabilities arising from early retirements (other than ill-health retirements) will be made to the Fund by the employers.

The funding plan adopted in assessing the contributions for each individual employer is in accordance with the Funding Strategy Statement (FSS). Different approaches adopted in implementing contribution increases and deficit recovery periods are as determined through the FSS consultation process.

The valuation was carried out using the projected unit actuarial method and the main actuarial assumptions used for assessing the Funding Target and the common contribution rate were as follows:

	<b>For past service liabilities (Funding Target)</b>	<b>For future service liabilities (Common Contribution Rate)</b>
Rate of return on investments (discount rate)		
- pre retirement	6.5% per annum	6.75% per annum
- post retirement	5.5% per annum	6.75% per annum
Rate of pay increases	4.5% per annum	4.5% per annum
Rate of increases in pensions in payment (in excess of Guaranteed Minimum Pension)	3.0% per annum	3.0% per annum

The assets were assessed at market value.

The next triennial actuarial valuation of the Fund is due as at 31 March 2013. Based on the results of this valuation, the contribution rates payable by the individual employers will be revised with effect from 1 April 2014.

### **Actuarial Present Value of Promised Retirement Benefits for the Purposes of International Accounting Standard 26 (IAS 26).**

IAS 26 requires the present value of the Fund's promised retirement benefits to be disclosed, and for this purpose the actuarial assumptions and methodology used should be based on IAS 19 rather than the assumptions and methodology used for funding purposes.

To assess the value of the benefits on this basis, we have used the following financial assumptions:

	<b>31 March 2011</b>	<b>31 March 2012</b>
Rate of return on investments (discount rate)	5.5% per annum	4.9% per annum
Rate of pay increases	4.4% per annum	4.0% per annum
Rate of increases in pensions in payment (in excess of Guaranteed Minimum Pension)	2.9% per annum	2.5% per annum

We have also used valuation methodology in connection with ill-health and death benefits which is consistent with IAS 19. Demographic assumptions are the same as those used for funding purposes.

On this basis, the value of the Fund's promised retirement benefits as at 31 March 2011 and 31 March 2012 were £6,720 million and £7,273 million respectively. During the year, corporate bond yields reduced significantly, resulting in a lower discount rate being used for IAS26 purposes at the year end than at the beginning of the year (4.9% p.a. versus 5.5% p.a.), and in addition there was a reduction in inflation expectations (from 2.9% p.a. to 2.5% p.a.). The net effect of these changes is an increase in the Fund's liabilities for the purposes of IAS26 of about £249 million.

# **Glossary of Financial Terms**

## **GLOSSARY OF FINANCIAL TERMS**

For the purpose of the Code of Practice the following definitions have been adopted.

### **ACCOUNTING POLICIES**

Define the process whereby transactions and other events are reflected in the financial statements.

### **ACCRUALS**

Income and Expenditure are recognised as they are earned or incurred, not as money is received or paid.

### **ACTUARIAL GAINS AND LOSSES**

Changes in actuarial deficits or surpluses that arise because:

- Events have not coincided with the actuarial assumptions made at the last valuation;
- The actuarial assumptions have changed.

### **AMORTISATION**

Amortisation is the equivalent of depreciation for intangible assets.

### **BUDGET**

Statement of spending plans for the year.

### **BUSINESS RATES (also NON DOMESTIC RATES)**

A levy on businesses based on national "rateable value" of the premises occupied. NDR is collected by the Council in line with national criteria, paid into a national pool and then redistributed to all local, fire and police authorities on the basis of population.

### **CAPITAL EXPENDITURE**

Expenditure on the acquisition of an asset or expenditure, which adds to, and not merely maintains, the value of an existing fixed asset.

### **CAPITAL RECEIPTS**

Money received from the disposal of land and other assets, and from the repayment of grants and loans to the Council.

### **CHARTERED INSTITUTE OF PUBLIC FINANCE AND ACCOUNTANCY (CIPFA)**

This Institute produces Standards and Codes of Practice that must be followed in preparing the Council's financial statements.

### **CODE OF PRACTICE**

Local Authorities in England must comply with the Code of Practice on Local Authority Accounting in the United Kingdom in preparing their financial statements.

### **COLLECTION FUND**

Accounts required to be kept by the Council to record all income collected from local taxpayers, showing how this is passed on to other Local Authorities and Central Government.

### **CREDITORS**

Organisations and individuals to whom the Council owes money.

**CURRENT SERVICE COST (PENSIONS)**

The increase in the present value of a defined benefit scheme's liabilities expected to arise from employee service in the current period.

**CURTAILMENT**

Curtailments show the cost of the early payment of pension benefits if any employee has been made redundant in the previous financial year.

**DEBTORS**

Organisations and individuals who owe money to the Council.

**DEFINED BENEFIT SCHEME**

A pension or other retirement benefit scheme where the scheme's rules define the benefits.

**DEPRECIATION**

A charge representing the extent to which an asset has been worn out or used up during the year.

**EXPECTED RATE OF RETURN ON PENSIONS ASSETS**

For the Pension Fund the average rate of return, including both income and changes in fair value net of scheme expenses, expected over the remaining life of the asset.

**GENERAL FUND**

The main revenue fund of the Council. Day to day spending on services is met from the Fund.

**GOVERNMENT GRANTS**

There are two types of grant. Specific grants are for particular services such as Education. Others are non-specific and support services generally such as the Revenue Support Grant.

**IMPAIRMENT**

A reduction in the value of a fixed asset below the amount in the Balance Sheet.

**INTANGIBLE ASSETS**

Capital spend on items such as software licenses.

**INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)**

The Standards establish broad rules and dictate specific accounting treatments. The Code of Practice interprets the Standards for local government.

**MINIMUM REVENUE PROVISION (MRP)**

The amount that the Council is required to charge to the revenue account each year to provide for the repayment of debt.

**NATIONAL NON-DOMESTIC RATES (NNDR)**

Another name for Business Rates and Non-Domestic Rates.

**NET BOOK VALUE**

The amount at which assets are included in the Balance Sheet i.e. their historical cost or current value less the cumulative amount provided for depreciation.

**NET EXPENDITURE**

Gross expenditure less specific service income but before the deduction of non-ring fenced government grants and local taxation.

**PRECEPT**

Amount the Council is required to raise from Council Tax on behalf of other authorities.

**PRIOR YEAR ADJUSTMENTS**

These are material adjustments applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors.

**PROVISIONS AND RESERVES**

Amounts set aside in one year to cover expenditure in the future.

**PUBLIC WORKS LOANS BOARD (PWLb)**

A government body that provides loans to local authorities to fund capital expenditure.

**REVENUE EXPENDITURE**

This is money spent on the day-to-day running costs of providing services. It is usually of a constantly recurring nature and produces no permanent asset.

**REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFCUS)**

This represents capitalisable items of expenditure where no asset exists but where the cost is to be amortised to revenue.

**REVENUE SUPPORT GRANT (RSG)**

This is a Government grant to fund Local Authority services generally. It is based on the Government's assessment of how much an authority needs to spend in order to provide a standard level of service.

**SCHEME LIABILITIES**

The liabilities of the Pension Fund for outgoings due in the future. Scheme liabilities reflect the benefits that the employer is committed to provide for service up to a set date.

**SPECIFIC GOVERNMENT GRANTS**

Grants to fund particular services and may be revenue or capital in nature.

**UNAPPORTIONABLE CENTRAL OVERHEADS**

Overheads for which no user receives any specific benefit and the costs are not apportioned to services.

**USEFUL LIFE**

The period over which the local Council will derive benefits from the use of an asset.

# **Further Information and Feedback**

## FURTHER INFORMATION AND FEEDBACK

Wirral Council produces the following documents that relate to its plans and finances. Copies of all these documents are available on the Wirral website at [www.wirral.gov.uk](http://www.wirral.gov.uk)

### CORPORATE PLAN

This document sets out the Council's strategy and direction for the next 5 years.

### COUNCIL TAX EXPLAINED

This booklet is issued annually with the Council Tax bills and sets out the plans for the coming year.

### STATEMENT OF ACCOUNTS

We welcome your comments on the Statement of Accounts and the information it contains. They will be used to improve future publications.

Was the document useful in helping you understand the Council's finances?

**YES**

**NO**
