1. Foreword

By the Chairman of the Audit & Risk Management Committee
Councillor Adrian Jones

I am pleased to present the Audit and Risk Management Committee's Annual Report for 2017/18. It records the activities undertaken by the Committee across a wide range of control, risk and corporate governance matters.

During the year, the Committee met on five occasions and received reports in connection with the full range of issues that fall within its remit. This report indicates the breadth of the Audit and Risk Management Committee's activities in ensuring that every aspect of the council's work should be compliant with standards and transparent to its stakeholders.

I strongly believe that this Annual Report demonstrates the immense value that the Committee brings to the Council and the public in ensuring that improvements to the governance arrangements of the authority are being delivered. As the Chair I can clearly see the enormous contribution that the Audit and Risk Management Committee has made to the improvement and development of operational standards and protocols across a wide range of governance areas during what has clearly been a very challenging year.

Looking forward, the Council is facing yet another period of unprecedented change and transformation in local government with financial budgets being squeezed more than ever before and the enormous impact of this on services delivered being highly evident. Change such as this presents enormous challenges to the Council not least in the nature of the risks that are presented but also the corresponding need for more effective governance has never been more in evidence.

Finally, I would like to acknowledge the sterling work of the Members of the Audit and Risk Management Committee and the supporting officers, during the past year.

2. Background

2.1 What drives Governance Policy ?

The Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded, properly accounted for, and used economically, efficiently and effectively. In discharging this overall responsibility, the Council is also responsible for ensuring that there is a sound system of control which facilitates the effective exercise of the Council's functions and which includes arrangements for the management of risk.

Effective corporate governance is a fundamental feature of any successful public sector organisation.

A sound corporate governance framework involves accountability to service users, stakeholders and the wider community, within which authorities take decisions, and lead and control their functions, to achieve their objectives. It thereby provides an opportunity to demonstrate the positive elements of an authority's business and to promote public confidence.

Wirral Council has adopted the revised local Code of Corporate Governance based on the following seven core principles which underpin and define the meaning of good governance:

2.2 Why do we need an Audit Committee ?

While there is no statutory obligation to have such an arrangement, Audit Committees are widely recognised as a core component of effective governance and therefore reflect good practice. Wirral's Audit and Risk Management Committee is properly constituted and, as such, is given sufficient authority and resources by the Council. In effect, the Committee has the right to obtain all the information it considers necessary and to consult directly with senior managers. In line with best practice from both the public and private sectors, the Audit and Risk Management Committee can report its observations and concerns directly to Cabinet/Council.

A local authority has a duty to ensure that it is fulfilling its responsibility for adequate and effective internal control, risk management, and governance, as well as the economy, efficiency and effectiveness of its activities. The Audit and Risk Management Committee has a key role in overseeing and assessing the internal control, risk management, and corporate governance arrangements and advising the Council on the adequacy and effectiveness of these arrangements.

2.3 What does an Audit Committee do ?

The Audit and Risk Management Committee's main responsibilities are to oversee the Council's corporate governance arrangements, the work of internal audit, and the Council's response to external audit and other external inspections.

This purpose is reflected in the committee's terms of reference which are reviewed and adopted each year (Attached at Appendix 1).

2.4. How do Officers Support the Committee ?

The Audit and Risk Management Committee is supported by:

- The Monitoring Officer who is required by law to ensure that the Council acts within its legal powers at all times; and,
- The Director of Finance and Investments, as Section 151 Officer who is responsible under the law for ensuring the proper administration of the council's financial affairs.
- The Chief Internal Auditor who has a key role to play in supporting the Committee because of the importance of the Internal Audit service to governance.
- Any other officer of the Council as required.

3. 2017/18 Financial Year

This Annual Report for 2017/18 produced by the Audit and Risk Management Committee has been prepared in accordance with the CIPFA best practice publication '*A Toolkit for Local Authority Audit Committees*'. The report demonstrates how the Audit and Risk Management Committee has fulfilled its terms of reference during a very difficult year and how it is fully committed to helping to improve the Council's governance and control environments during what should prove to be a very challenging year ahead.

The committee's activities during 2017/18 were designed to make a positive contribution to the continual improvement of governance arrangements across the Council, as well as performing the statutory roles as identified in the Constitution.
