

# HIGHWAY MAINTENANCE PRIORITISATIONS

2022-2027

**Prioritised RAG-rated ranking matrix of all Wirral Council roads and pavements currently identified for structural maintenance intervention and surface treatments**

Simon Fox

Introduction And Treatment Type Descriptions	Page 2
Red Priority Carriageways (Roads) (2022/23 – 2023/24)	Page 3 – 55
Amber Priority Carriageways (Roads) (2024/25 – 2026/27)	Page 56 – 92
Red Priority Footways (Pavements) (2022/23 – 2023/24)	Page 93 – 98
Amber Priority Footways (Pavements) (2024/25 – 2026/27)	Page 99 - 103

## Introduction

This matrix is based on objective analysis of technical condition data, from infrastructure modelling software, of all Wirral's carriageways (roads) and footways (pavements). The software used contains a unique process that can use multiple condition datasets to identify areas suitable for specific treatment types. Comprehensive network condition surveys provide an outline indication of the **current condition** of the carriageways and footways and the lists that follow are **indicative only** and may be subject to change of priority or likely treatment type if condition changes over the reference period. Additional factors, including: network management, contract management, programme efficiencies, customer enquiries and reactive work requirements may also lead to prioritisation changes being necessary.

Some roads or footways may be duplicated in the matrix lists, which may indicate the road or footway covers a large area and has been split up into sections, or that more than one area of smaller roads requires intervention.

Roads and footways have been rag-rated. Red (R) denotes that major work is likely to be programmed in the next 2 years (2022/23 and 2023/24); and Amber (A) denotes that major works is likely to be programmed in the next 5 years (2024/25, 2025/26, 2026/7). Any roads or footways not listed below are identified as not requiring major maintenance within the next 5 years and are currently assessed as low priority Green (G).

**However, reactive maintenance work, or some areas of major maintenance, may still be carried out on G-rated roads or footways at any point within the next 5 years, should it be warranted following ongoing inspections or assessments.**

## Treatment Type Meanings

**Patching** – large patches of one of the treatment options below (some roads may be overlaid in full when programmed).

**Surface Dressing** – overlay of binder and chippings (chippings bonded with resin to prevent loose chipping loss) which can extend the life of road surface up to 8 years, primarily on main roads.

**Micro Asphalt** – thin asphalt overlay providing smooth surface which extends life of road surface by up to 8 years, primarily on minor roads and residential areas.

**Resurfacing** – full plane-out of surface layer and replacement with new hot-rolled-asphalt or bituminous surfacing – this can extend the life of the road surface by up to 20 years.

**Footway Reconstruction** – lifting and relaying or replacing paving flags or modular (blocks) paving with new flags or blocks on new bedding material or with flexible (bituminous) surfacing to provide a new long-term surface.

**Footway Slurry Sealing** – thin overlay of black slurry providing a smooth black surface – this will cover any cracks or trench reinstatements and potentially extend the life of footway surface by several years.

### Red - High Priority Roads – Likely to be Programmed in the Next 2 Years (2022/23 And 2023/24)

No.	Road Name	Proposed Treatment	Classification	Ward
1	Hoylake Road	Surface Dressing	A Road	Bidston and St James
2	Brimstage Road	Surface Dressing	A Road	Heswall And Clatterbridge
3	Upton Road	Surface Dressing	A Road	Bidston and St James
4	Birkenhead Road	Surface Dressing	A Road	Hoylake and Meols
5	Mill Lane	Patching	A Road	Liscard
6	Liscard Way	Patching	A Road	Liscard
7	Hesketh Avenue	Micro Asphalt	Unclassified	Rock Ferry
8	Elm Road	Patching	Unclassified	Birkenhead and Tranmere
9	Atherton Street	Patching	Unclassified	New Brighton
10	Grange Road	Patching	A Road	Hoylake and Meols
11	Church Lane	Micro Asphalt	Unclassified	Seacombe
12	Leasowe Road	Patching	A Road	Wallasey
13	Wallasey Road	Patching	A Road	Liscard
14	Moreton Road	Surface Dressing	A Road	Upton
15	Leasowe Road	Patching	A Road	Wallasey
16	Wallasey Bridge Road	Patching	A Road	Bidston and St James

17	Clatterbridge Road	Resurfacing	B Road	Clatterbridge
18	Mill Lane	Patching	A Road	Liscard
19	Procter Road	Patching	Unclassified	Rock Ferry
20	Bidston Road	Patching	B Road	Claughton
