WIRRAL LINKS NEWS

Wirral People LINking Together

Local Involvement Networks (LINks) will replace Patient and Public Involvement in Health Forums (PPIFs) from April 2008. LINks are intended to strengthen the way local communities influence health and social care services.

It is time for Wirral to get ready for LINks.

What Are LINks?

LINks are a network made up of local people and organisations with an interest in health and social care. They will:

- Support the involvement of people in the commissioning, provision and scrutiny of local health and social care services.
- Obtain the views of people about their need for, and experiences of, local health and social care services
- Enable people to monitor and review the commissioning and provision of care services.
- Raise the concerns of local people with those responsible for commissioning, providing, managing and scrutinising services.

The proposed powers of LINks include the ability to:-

- Enter specific types of services and view the care provided.
- Ask for information or make recommendations and get a response within a specific timescale.
- Refer matters to the local Health and Social Care Overview and Scrutiny Committee and get a response.

1st Edition – October 2007

What is Happening on Wirral?

An initial Wirral event was held in March 2007 to engage communities and statutory authorities in the development of a Wirral LINk. It was obvious that a lot of preparation and discussion needed. A *Project Team* was set up to start the process.

A Consultation and Development Group

has now been set up. This group will:-

- Ensure all key people are involved in designing LINks.
- Give people an equal say, both organisations and individuals.
- Keep people informed about developments to LINks e.g. contract and tendering process.
- Consider potential LINks structures, set out options and make recommendations.
- Consider guidance and information on LINks.

This group is made up of representatives from:-

- Wirral Council
- Patient and Public Involvement Forums
- Forum Support Organisation
- Wirral PCT
- The Voluntary and Community Sectors Network
- People who use services/carers/their organisations.
- NHS Trusts.

The Consultation and Development Group will be supported by *Wirral LINks Reference Group* which will reach into the heart of the community and involve the widest range of people with an interest in improving health and social care so that all key people will be consulted on proposals for the future of Wirral LINks

Next Steps	These are available on:-
LINks will build on the good work that is already happening on Wirral. The PPI Forums have worked hard with user	www.dh.gov.uk/patientpublicinvolvement Alternatively contact the Department of Health for copies. Tel: 020 7210 4850
groups and local Health Trusts and	Textphone (for deaf and hard of hearing)
