29 **09:40 DISTRICT BOARD REVIEW**

Julia Hassall gave a brief overview of the background of the District Boards. Their focus would be to deliver the CYPP at a local level, through multi-agency work.

A review of the Boards took place in 2010. It was agreed that a full review would take place after one year. A survey was sent out in early 2011. Only a third of those surveyed responded.

Birkenhead had the highest number of positive comments from its members who value the information sharing and the opportunity to discuss local working. Birkenhead has also built upon the work of Tranmere Together and has members from the local neighbourhood management group with direct resident input into how the Children and Young Peoples plan is delivered in the Birkenhead area.

There is value in local agencies and services on an operational level coming together to share practice and develop local services. Both Birkenhead and Wallasey Districts have multi-agency meetings on a regular basis which attract wide representation from front-line staff across all agencies. The co-location in South and West will further develop and enhance such an approach.

Comments include there is a lack of clarity in the direction of the Boards, mixed views on how effective and local DB plans are. Elected Members have been very active in chairing and attending Boards. There is no mechanism to evidence the Boards role and accountability. There is also a lot of duplication in reporting to the Strategy Groups.

It is therefore hard to argue that District Boards are effective and represent value for money. In their individual reviews, no District Manager could clearly evidence that District Boards made a difference to outcomes for children in their district.

It is therefore recommended that this District Board model ceases.

The Board endorse the report.

30 **09:50 THE OFSTED UNANNOUNCED INSPECTION ACTION PLAN**

Julia presented the Action Plan document which outlines the activities for addressing the outcomes of the inspections.

This plan is a partnership plan and is monitored at the Children's Trust Executive and CYPD Performance Management DMT.
