On a motion by Councillor Foulkes and seconded by Councillor Realey it was:

Resolved (7:4:1) That the application be approved subject to the following conditions:

1. The development hereby permitted shall be commenced before the expiration of three years from the date of this permission.

2. The development hereby permitted shall be carried out in accordance with the approved plans received by the local planning authority on 8th August 2013 and listed as follows: AD1250 PL02B, AD1250 PL03B, AD1250 PL04B,

AD1250 PL05B, AD1250 PL06B, AD1250 PL07B, AD1250 PL08B and AD1250 PL09

3. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2008 (or any subsequent Order or statutory provision revoking or re-enacting the provisions of that Order), no garages, outbuildings or other extensions to a dwelling shall be erected unless expressly authorised.

4. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2008 (or any Order revoking or re-enacting that Order) no external alterations or extensions shall be carried out to the building(s) hereby approved.

5. Before the development hereby permitted is first commenced, a datum for measuring land levels shall be agreed in writing. Full details of existing and proposed ground levels and proposed finished floor levels shall be taken from that datum and submitted to and approved in writing by the Local Planning Authority, notwithstanding any such detail shown on previously submitted plan(s). The development shall be carried out in accordance with the approved details and retained as such thereafter.

6. Before the development hereby permitted is brought into use the first floor windows in the east and west facing elevations serving the en-suite and dressing room of bedroom four shall be fixed and obscurely glazed with frosted glass and shall be retained as such thereafter.

7. Before any construction commences, samples of the facing/roofing/window materials to be used in the external construction of this development shall be submitted to and approved in writing by the Local Planning Authority. The approved materials shall then be used in the construction of the development.

8. No works or development shall take place until a scheme for the protection of the retained trees- The Tree protection plan (section 5.5, BS 5837:2012, Trees in relation to design, demolition and construction - Recommendations) has been agreed in writing with the LPA. This scheme shall include:

- A. the details of each retained tree as required at section. 4.4 of BS5837 in a separate schedule.**
- B. a plan or relevant drawings, including proposed site layout plans, to a scale and level of accuracy appropriate to the proposal that shows constraints posed by existing trees (section 5.2 BS 5837), the position, crown spread and Root Protection Area (section 4.6 of BS5837) of every retained tree on site and on neighbouring or nearby ground to the site in relation to the approved plans and particulars. The positions of all trees to be removed shall be indicated on this plan.**

- C. a schedule of tree works for all the retained trees in paragraphs (a) and (b) above, specifying pruning and other remedial or preventative work, whether for physiological, hazard abatement, aesthetic or operational reasons. All tree works shall be carried out in accordance with BS3998, 2010, Tree work-Recommendations.

An arboricultural method statement (section 6 BS 5837) containing;

- D. the details and positions (shown on the plan at paragraph (a) above) of the Tree Protection Barriers (section 6.2 of BS5837), identified separately where required for different phases of construction work (e.g. demolition, construction, hard landscaping). The Tree Protection Barriers must be erected prior to each construction phase commencing and remain in place, and undamaged for the duration of that phase. No works shall take place on the next phase until the Tree Protection Barriers are repositioned for that phase.
- E. the details and positions (shown on the plan at paragraph (a) above) of the Ground Protection Zones (para 6.2.3 of BS5837).
- F. the details and positions (shown on the plan at paragraph (a) above) of the Construction Exclusion Zones (section 6 of BS5837).
- G. the details and positions (shown on the plan at paragraph (a) above) of the underground service runs (para 5.5.6 of BS5837).
- H. the details of any changes in levels or the position of any proposed excavations within 5 metres of the Root Protection Area (para. 5.5.6 of BS5837) of any retained tree, including those on neighbouring or nearby ground.
- I. the details of any special engineering required to accommodate the protection of retained trees (section 7 of BS5837), (e.g. in connection with foundations, bridging, water features, surfacing)
- J. the details of the working methods to be employed for the installation of drives and paths within the RPAs of retained trees in accordance with the principles of "No-Dig" construction (section 7.4 BS 5837)
- K. the details of the working methods to be employed with regard to the access for and use of heavy, large, difficult to manoeuvre plant (including cranes and their loads, dredging machinery, concrete pumps, piling rigs, etc) on site.
- L. the details of the method to be employed for the stationing, use and removal of site cabins within any RPA (para. 6.2.2.3 of BS5837).
- M. the details of tree protection measures for site works, landscaping operations and management (section 8 of BS5837).
- N. the timing of the various phases of the works or development in the context of the tree protection measures.

9. The area(s) so designated within the site shall be suitably landscaped in accordance with a scheme to be submitted to and approved by the Local Planning Authority before any works commence on site, the landscape work to be completed during the first available planting season following

completion of the development hereby approved and shall be maintained thereafter to the satisfaction of the Local Planning Authority.

10. In order to protect habitats of special local importance for nature conservation:

- I. Construction work shall only take place between 8am and 6pm.
- II. Any holes or trenches left open overnight must have a means of escape provided.
- III. All construction materials, especially those containing lime, must be stored so that badgers cannot access them, and to the front of the house, not the rear.
- IV. When fencing to the garden is installed, access shall be left for the badgers to move around between gardens.

The Tree Protection Barriers must be erected prior to each construction phase commencing and remain in place, and undamaged for the duration of that phase. No works shall take place on the next phase until the Tree Protection Barriers are repositioned for that phase.**
- F. the details and positions (shown on the plan at paragraph (a) above) of the Ground Protection Zones (para 6.2.3 of BS5837).**
- G. the details and positions (shown on the plan at paragraph (a) above) of the Construction Exclusion Zones (section 6 of BS5837).**
- H. the details and positions (shown on the plan at paragraph (a) above) of the underground service runs (para 5.5.6 of BS5837).**
- I. the details of any changes in levels or the position of any proposed excavations within 5 metres of the Root Protection Area (para. 5.5.6 of BS5837) of any retained tree, including those on neighbouring or nearby ground.**
- J. the details of the working methods to be employed for the installation of drives and paths within the RPAs of retained trees in accordance with the principles of “No-Dig” construction (section 7.4 BS 5837)**
- K. the details of the working methods to be employed with regard to site logistics and storage, including an allowance for slopes, water courses and enclosures, with particular regard to ground compaction and phytotoxicity.**
- L. the details of the method to be employed for the stationing, use and removal of site cabins within any RPA (para. 6.2.2.3 of BS5837).**
- M. the details of tree protection measures for site works, landscaping operations and management (section 8 of BS5837).**

The development shall be implemented in strict accordance with the approved scheme.

9. The reserved matters application shall include a landscape management plan, including long term design objectives, management responsibilities and maintenance schedules for the area of amenity open space indicated on approved drawing 0004/68/MA/04/13 (May 2013). The management plan shall be submitted to and approved by the Local Planning Authority prior to the first occupation of the development. The landscape management plan shall be carried out as approved.

10. No development shall take place until a Site Waste Management Plan, confirming how demolition and construction waste will be recovered and re-used on the site or at other sites, has been submitted to and approved in writing by the Local Planning Authority. The approved Plan shall be implemented in full unless otherwise agreed in writing with the Local Planning Authority.

11. Arrangements for the storage and disposal of refuse, and vehicle access thereto, shall be made within the curtilage of the site, in accordance with details previous submitted to and agreed in writing by the Local Planning Authority, prior to the first occupation of the building.

On a motion by Councillor Foulkes and seconded by Councillor Whittingham it was:

Resolved (12:0) That the application be approved subject to the following conditions:

- 1. The development hereby permitted shall be commenced before the expiration of three years from the date of this permission.**
- 2. No development shall commence until full details of the proposed facilities for collection and storage of waste, including recyclable materials, have been submitted to and approved in writing by the Local Planning Authority. The facilities shall be implemented in full prior to the first use of the development, and retained as such thereafter.**
- 3. No developments shall commence until samples of the facing, roofing and window materials to be used in the external construction of this development**

shall be submitted to and approved in writing by the Local Planning Authority. The approved materials shall then be used in the construction of the development.

4. No part of the development shall be brought into use until space and facilities for cycle parking of a type and in a location to and agreed in writing by the Local Planning Authority have been provided and these facilities shall be permanently retained thereafter.

5. A detailed remediation strategy to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historic environment, must be prepared, and is subject to the approval in writing of the Local Planning Authority. The strategy must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works, site management procedures and roles and responsibilities. The strategy must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 after remediation.

6. The approved remediation strategy must be carried out in accordance with its terms prior to the commencement of development other than that required to carry out remediation, unless otherwise agreed in writing by the Local Planning Authority. The Local Planning Authority must be given two weeks written notification of commencement of the remediation works.

7. Following completion of the remedial works identified in the approved remediation strategy, a verification report that demonstrates the effectiveness of the remediation carried out must be produced, and is subject to the approval in writing of the Local Planning Authority, prior to commencement of use of the development.

8. In the event that previously unidentified contamination is found at any time when carrying out the approved development immediate contact must be made with the Local Planning Authority and works must cease in that area. An investigation and risk assessment must be undertaken and where remediation is necessary a remediation scheme must be prepared in accordance with the requirements of condition 5 which is subject to the approval in writing of the Local Planning Authority.

Following completion of the remedial works identified in the approved remediation strategy a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with condition 5 above.

9. No development shall take place until details of landfill gas monitoring of the site, together with a scheme for gas exclusion control relating to the construction of the building and/or the application site, have been submitted

to and, in the case of the scheme, approved by the Local Planning Authority in writing. The approved scheme shall be implemented in full before the building is occupied.

10. No development shall take place on the application site until the applicant or their agent or successors in title has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted to and approved in writing by the Local Planning Authority.

11. The hard and soft landscaping scheme shall be carried out in accordance with the approved details and to a reasonable standard in accordance with the relevant recommendations of appropriate British standards or other recognised standards of Good Practice. The works shall be carried out prior to the occupation of any part of the development or in accordance with the timetable agreed with the Local Planning Authority. Any trees or plants that, within a period of five years after planting, are removed, die or become seriously damaged or defective, shall be replaced as soon as is reasonably practicable with others of a species, size and number as originally approved, unless the Local Planning Authority gives its written consent to any variation.

12. Prior to the commencement of demolition/ construction the trees to be retained on the site shall be protected by chestnut paling fences 1.5 metres high erected to the full extent of their canopies or such lesser extent as may be approved by the Local Planning Authority, the fencing to be removed only when the development (including pipelines and other underground works) has been completed; the enclosed areas shall at all times be kept clear of excavated soil, materials, contractors' plant and machinery.

13. No development shall commence until details and sections at a scale of 1:5 of the proposed eaves, window reveals, window designs, doors, and junctions between the contrasting materials shall be submitted to and agreed in writing with the Local Planning Authority. The approved scheme shall be implemented in full.

14. The existing redundant access within the Wood Street frontage shall be made up to existing levels, the details of which shall be submitted to and agreed in writing with the Local Planning Authority prior to the commencement of development, including a timetable for completion of the works.

15. This approval shall relate to the original submission as amended by drawing no's 13053-112A, 13053 - 113B, 13053 - 114B, 13053 - 116B, 13053 - 117A, 13053-118A, 13053-120B, 13053-121B, 13053 - 122B, 13053-123B and 13053-124C received by the Local Planning Authority on 10th October 2013.

16. No development shall take place until a Site Waste Management Plan

(SWMP), confirming how demolition and construction waste will be recovered and re-used on the site or at other sites, has been submitted to and approved in writing by the Local Planning Authority. The approved SWMP shall be implemented in full unless otherwise agreed in writing with the Local Planning Authority.

17. The development shall not begin until a scheme for the provision of affordable housing as part of the development has been submitted to and approved in writing by the local planning authority. The affordable housing shall be provided in accordance with the approved scheme and shall meet the definition of affordable housing in Annex 2 of the National Planning Policy Framework or any future guidance that replaces it. The scheme shall include:

- i. the numbers, type, tenure and location on the site of the affordable housing provision to be made which shall consist of not less than 100% of housing units/bed spaces;
- ii. the timing of the construction of the affordable housing and its phasing in relation to the occupancy of the market housing;
- iii. the arrangements for the transfer of the affordable housing to an affordable housing provider, or the management of the affordable housing (if no RSL involved);
- iv. the arrangements to ensure that such provision is affordable for both first and subsequent occupiers of the affordable housing; and
- v. the occupancy criteria to be used for determining the identity of occupiers of the affordable housing and the means by which such occupancy criteria shall be enforced.
