3. THE TRAINING DAY

- 3.1 The agenda is attached as Appendix 1 to this report. Invitations have been extended to neighbouring Administering Authorities.
- 3.2 As 2010 is a triennial valuation year, it is felt appropriate for this training day to focus on topics related to the actuarial valuation of liabilities and the setting of the asset allocation strategy. The purpose of the day will be to build on Members' prior knowledge of this process, as gained from reference to the Members' Induction Pack and attendance at external training events.
- 3.3 The first presentation will be from Paul Middleman, from the Actuary, Mercer, and will provide an overview of the actuarial valuation process. This will comprise of a refresher on general actuarial principles and methods; together with a view of the outlook for the 2010 valuation, the possible future shape of the LGPS and a look at 'de-risking' measures. The second presentation will focus on the investment side of the process; a speaker from a specialist division of UBS Asset Management will present on the use of asset/liability modelling in determining the strategic asset allocation.
- 3.4 As with previous training days, it is intended that the sessions should be interactive. The agenda has been designed to allow ample scope for Members' questions and general discussion of the topics covered.
