Ref = reference number given in the SHLAA

Capacity = gross number of dwellings that could be accommodated on site

PDL = previously developed brownfield land

GF = previously undeveloped greenfield land

Category 1 = sites considered to be suitable for housing and capable of being delivered within five years

Category 2 = sites considered to be developable but may have some additional constraints which mean they are more likely to be delivered within a 6-10 year period

Category 3 = sites considered to be not currently developable and are known to have constraints which would only make them deliverable within an 11-15 year period

Small Sites = sites less than 0.4 Ha which were not subject to an achievability assessment
