

A New Mobility Culture for Merseyside

Preferred Strategy

Public Summary for Consultation

Introduction

The document – ‘A New Mobility Culture for Merseyside’ Public Summary, provides information about our Preferred Strategy for the Third Local Transport Plan. We want to hear your views on the future of transport in Merseyside. Your views will be used to help shape the region’s next Local Transport Plan (LTP3), which will be in place by April 2011.

You can have your say by filling in this form and returning it in the freepost envelope or by filling out an online form at www.TransportMerseyside.org

Question 1: Our Vision, A New Mobility Culture and Our Six Goals

Question 4: Our Actions

LOCAL TRANSPORT PLAN
MERSEYSIDE

To support our long term strategy we will aim to do the following in the period to 2015. To what extent do you agree or disagree with the ten actions on page 7?

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
Making sure we have enough funding to maintain our roads and railways to a high standard and keep them running during poor weather					
Making sure that local authority planners, and private developers properly consider transport into their plans to build new houses, office space, shops etc.					
Working with communities, bus operators and taxi operators to improve public transport and make sure more people know what is available					
Using new technology to make it easier to find information on transport and introducing smartcards to speed up the process of paying for the bus or train					
Helping businesses to move goods around Merseyside, including improved access to the Port of Liverpool and encouraging the transport of goods by rail					
Cutting carbon emissions, improving air quality and reducing reliance on oil					
Where necessary, investing in making targeted improvements to our road and rail network. In ways that help Merseyside's economy					
Promoting walking and cycling and encouraging people to consider alternatives to the car					
Reduce road traffic accidents by introducing more low speed zones, which will also get more people cycling and walking					
Planning for the future so we can adapt to changes in Government priorities or the economy
