- Vulnerable children, young people and families receive targeted, early intervention which meets their needs and improves their life chances;
- There are improved outcomes for children in care and care leavers;
- There are improved outcomes for children and young people in need of protection;
- Children live in communities where they feel safe, and where harmful behaviour is actively addressed and reduced.

The Staying Safe group also feeds into the LSCB and is aligned to and informed by the work of the CICC and Corporate Parenting Group.

Key recent achievements include:

- “Good” grades were awarded for both Safeguarding and Looked After Children in the OFSETD announced inspection in January.

- A Corporate Parenting Group has been established.
- Children's Social Care restructure is now implemented.
- All virtual teams will be co-located by Autumn 2011.
- More children with disabilities are receiving short breaks. More vulnerable children are receiving support through programmes delivered through Children's Centres.

- Challenge in economic climate causing greater hardship to some of the most disadvantaged children and families.
- Budget pressures affecting all public sector services.
- Delivering the changes in light of the Munro review.
- Delivering the recommendations of the Social Work Reform Board.
- Sustained high numbers of children requiring Local Authority Care.

Councillor Pat Williams noted that despite the extra costs to the council, it was positive that children in need were identified and all children received the care services they required.
