

Appendix 3

Local Government Improvement and Development

Latest Guidance - LGID Springboard into action

July 2011

Extract taken from document

Key message:

Whilst the potential value of a JSNA is clear, each process requires local design beyond the basic essentials. Take ownership and lead a review from first principles.

Experience shows that the most effective JSNAs have considered a number of key issues that have to be resolved when designing their JSNA process. We have developed these issues into seven quality themes to assist emerging health and wellbeing boards in deciding on their JSNA approach.

Take stock

- Learn from the past - review your existing JSNA process and strategic partnerships.

Ask big questions

- Agree the scope and mandate for the JSNA process going forward.
- Know your audience. Agree the users of your JSNA and what they need from the process.
- Build trust and agree a shared process of strategic priority setting through your JSNA and JHWS.

Go into further detail

- Match form to function and specify your JSNA products.
- Secure the capacity, skills, data and knowledge needed to deliver your JSNA.

Consolidate

- Agree governance and consolidate your vision into a clear specification
