SOCIAL SERVICES			
Support at Home			
<p>Charges identified for 2011/12 apply to individuals assessed to pay the full cost of the service. In all cases DASS cannot legally charge more than the cost of the service. Contracted rates paid to providers are reviewed annually and will impact on the level of increase that can be applied to any charge. There is no provision in the 2012/13 budget for price inflation. Charging for non-residential services is covered in the Local Authority Circular LAC (2001) 32 - Fairer Charging Policies for Home Care and Other non-residential Social Services published by the Department of Health in November 2001. The fairer charging policy is also applied for people receiving day care (with the exception of Mental Health services), transport and direct payments. The assessed charge for most people is based on their ability to pay and, unless they are assessed to pay full cost, it is for their package of care irrespective of the type or volume of support provided. The assessed charge is based on 75% of an individuals disposable income. Any increase to this will require a period of consultation with service users and carers.</p>

<p>Direct Payments enable individuals to purchase their own support or to employ a Personal Assistant to meet their support needs. Individuals are financially assessed under the Fairer Charging Policy and the Direct Payment is paid to the individual net of their assessed charge. The rates identified apply to individuals assessed to pay the full cost of the service and are equivalent to the Direct Payment allowances. No provision has been made for price inflation in the 2012/13 budget to increase the Direct Payment allowances.</p>

Residential/Nursing			
<p>Charges identified for 2011/12 apply to individuals assessed to pay the full cost of the service. Charging for residential services is covered by statutory guidance 'Charging for Residential Accommodation Guide' which is published by the Department of Health. This guide requires Council to carry out a financial assessment to determine how much the service user can contribute towards the cost of their placement. There is little scope for discretion in the assessment. Individuals with capital in excess of £23,250, or those who have arranged to live in a care home without an assessment, are required to pay the full cost of their care. In all cases DASS cannot legally charge more than the cost of the service. Charges for full cost payers are based on actual fees paid to providers.</p>			

Respite rate - standard	No	79.55	Charge for 2012/13 will be determined by the increase in the Retirement Pension and Personal Allowance which is not yet known.
