

WIRRAL COUNCIL

DRAFT UPDATED CORPORATE PLAN 2012/13

FOREWORD and VISION

As new Leader of Wirral Council I am delighted to introduce this refresh of the 2012/13 Corporate Plan. For the first time in over a decade the Council has a majority administration. This presents us with the opportunity to bring some much needed stability to the organisation.

However, with power comes responsibility to govern in a way that uses the talents of all elected members irrespective of party label. I want to change the culture of the Council so that openness, honesty, transparency and inclusivity underpins everything we do. I also want to ensure that officers and members are held to account for their actions. As custodians of the public purse, our local tax payers deserve no less.

Looking ahead, we face some formidable challenges. By far the biggest is to deliver high quality services in the face of substantial reductions in the amount of money allocated to Wirral by central government. This will need to be achieved at the same time as we are seeking to deliver an ambitious improvement plan, focusing on corporate governance.

Just doing more of the same will not suffice. Instead, we need to ask some fundamental questions about the role of local government, how we can introduce more innovation into the organisation, the need to work more effectively with our partners, and how we can deliver better value for money while maintaining high quality services. We must also become a learning organization which identifies good practice in other Councils and seeks to apply this in Wirral. Finally, we need to ensure that we involve all our key stakeholders – elected members, staff, residents, businesses, organisations in the community, voluntary and faith sector – in this debate and welcome ideas on how we can become a high performing local authority.

This refresh of the 2012/13 Corporate Plan sets out my administration's immediate policy priorities. They include:

- Delivering our Improvement Plan
- Addressing our budget challenges
- Creating and safeguarding jobs and attracting new investment
- Keeping Wirral's children and vulnerable adults safe
- Making a start on reducing the life expectancy gap between the wealthier and poorer parts of the Borough

During the forthcoming year we will be developing a new three year Corporate Plan which presents a clear vision of where we want to take the Council and links our policy priorities with the budget. It is essential that the process for delivering the new Corporate Plan includes an effective consultation process where all of our key stakeholders can get involved.

In short, we need to bring about a fundamental change in the culture of the Council. This requires us to be honest when we get things wrong, but I am equally determined to give proper recognition to the many excellent services we already deliver.

Working together, to drive change, improve everything that we do and to deliver this Corporate Plan, we can make a real difference to the lives of local people. The goal of our journey is to deliver for Wirral residents healthier and more prosperous lives combined with a sense of well-being that permeates all levels of our society.

I look forward to working with you over the coming months and years,

Cllr. Phil Davies Leader of Wirral Council

Our Vision for Wirral

A Healthy and Prosperous Wirral where a sense of well being permeates every level of society and where the place you live and the amount you earn no longer effects how long you live.

- A thriving society, with plentiful accessible employment opportunities, and high levels of skills in the local workforce.
- A learning society with excellent nursery or pre-school facilities, excellent schools and excellent colleges for young people or older adults who want to re-train or improve their qualifications.
- A caring society that protects vulnerable people.
- A decently housed society where warm, well insulated and affordable housing is readily available.
- A stress free society where no one lives in fear because of criminal activities, or antisocial behaviour, or excessive noise or threatening neighbours.
- A clean society with a rubbish and graffiti free environment and responsible dog owners.
- A relaxed society with plenty of opportunities for leisure and fitness activities.
- A greener society that works to reduce carbon emissions and protect the environment.
- A conservation minded society that respects its heritage and works together to protect everything that is best about Wirral, including our unique countryside, open spaces and coast line.
- A healthy society where regular physical activity is the norm and where children and adults can walk or cycle safely to schools, to work and to reach leisure activities.

How we will get there

- We will focus on the new Public Health role given to Local Authorities, and ensure that the Council plays its part in developing health strategies which are built on strong evidence through the work of the Health and Well Being Board.
- We will seek in everything we do to recognise the way in which Council activities can have a direct impact on the Health and Well Being of Wirral residents, and we will ensure that the Director of Public Health has the support to embed the necessary expertise to do this.

- We will listen to what local residents and communities tell us are the priorities to improve their neighbourhoods and we will respond by providing services that meet their needs and aspirations. We will also carry out regular consultation with local residents on issues affecting the Council's budget.
- We will work in partnership across organisations to deliver better outcomes for local people.
- We will ensure that we maintain a continuous focus on providing high quality, efficient services which are value for money, supported by a strategic change programme which demonstrates how we are achieving this.
- We will continue to tackle anti-social behaviour and work with all our partners to reduce crime.
- We will ensure that effective safeguarding procedures are in place to protect vulnerable adults and children.
- We will work with our partners to reduce the numbers of children and young people living in poverty and support them and their families to build the foundations for prosperous, healthy and happy lives.
- We will respond quickly and effectively to local circumstances and needs and any potential impact of welfare reform.
- We will work actively to initiate and support early detection and prevention programmes for children and adults that seek to tackle potential problems before they develop.
- We will make sure those programmes are based on well researched evidence which can be analysed and evaluated in order to ensure the very best return in outcomes for any resources invested.
- Where evidence is not readily available, we will seek to run pilot programmes where outcomes can be properly assessed and used as guidance for future programmes.
- We will seek to raise the income of Wirral people by doing everything possible to build a strong and vibrant economy with high levels of employment and opportunities for Wirral residents to improve their skills and find work. We will focus on making sure our young people can achieve their full potential in education and in the workplace.
- We will work to improve the condition of Wirral's housing stock and improve the energy efficiency to reduce levels of fuel poverty.

Our Values

- We will put the interests of all the people of Wirral above other considerations.
- Elected members and staff will behave with honesty and integrity at all times.
- We will practice openness and transparency and remain focussed on positive change.
- We will welcome suggestions on how the Council can improve and positively encourage members, staff and the public to tell us when we have got something wrong.
- We will be a "learning" organisation, where good practice is captured and rolled out across the Council, and where we actively seek ideas from other local authorities and external agencies.
- We will make sure our decisions are based on clear evidence.
- We will welcome public involvement in the work of the Council and we will carry out effective consultation, where appropriate, with the public and key stakeholders.
- We will make sure that Council services fairly and transparently take into account the needs of vulnerable and marginalised groups when changes are made and that the Council is responsive to equality considerations and the diversity of Wirral's communities.
- We aim to be excellent in everything we do.

1. YOUR ECONOMY

We will seek to raise the income of Wirral people by doing everything possible to build a strong and vibrant economy with high levels of employment and opportunities for Wirral residents to improve their skills and find work. We will focus on making sure our young people can achieve their full potential in education and in the workplace.

As the global recession has impacted on Wirral's economy, the Council has maintained a focus on supporting businesses and individuals during difficult economic conditions. We will make Wirral Council one of the most business friendly and supportive Councils in the country and develop the role of social enterprises in Wirral's economy.

If we are to deliver a better future for Wirral and eliminate poverty, we need to improve access to employment and skills and tackle barriers to work for our most disadvantaged communities. We will work with partners and local communities to identify innovative ways of achieving this.

We will position Wirral as a leading vibrant global location for businesses and visitors. We will continue to support international trade links and develop our relationships with the private sector, to maximise inward investment and enable Wirral businesses to access new markets, sectors and opportunities, including those available locally. We will support Wirral's tourism and visitor economy and a strong focus on international investment marketing.

We will work hard to deliver all of the opportunities presented by the Wirral Waters development.

2. YOUR FAMILY: CHILDREN AND YOUNG PEOPLE

Reducing child poverty is a priority for the Council and we are clear about what we will do to achieve this. We will have a strong foundation to achieve this on the basis of the excellent Children's Services we provide and history of strong partnership working in Wirral.

We will continue to work with our partners to protect children and young people from harm and improve the lives of the children and young people already in our care.

We will ensure that children in care and care leavers have appropriate support which best suits their needs, including fostering and adoption.

We promise to deliver Children's Services that give all children the best possible start in life. As we are clear from our commitment to work actively to initiate and support early detection and prevention programmes, we will provide early intervention and support for vulnerable children and families through projects and activities with a focus on identifying problems early and stopping them developing.

We will ensure that the services provided through our Sure Start and Children's Centres deliver effective support based on the needs of our local residents and communities.

We will pay particular attention to early intervention measures, including the need to make sure youngsters are school ready and that outreach work and multi agency approaches are used to make contact with hard to reach families.

The attainment of children who are affected by poverty and disadvantage is an area of focus for the Council and its partners. We will therefore focus on ensuring that these children and young people have the additional support they need to improve their attainment and achieve their full potential and that 16-18 year olds not in employment, education or training can access opportunities.

Local people have told us that activities for children and young people in their areas are an important priority for them. We will ensure that children and young people have access to a range of activities.

We will continue to engage with our children and young people through forums such as the Youth Parliament and the Children in Care Council to ensure that the views of children and young people are central to the design of the services to provide.

Our success in designing services to divert vulnerable young people from crime and anti-social behaviour has received external recognition. We will continue to work in partnership to promote an integrated approach to supporting young people.

3. YOUR FAMILY: ADULTS

We will safeguard vulnerable adults in Wirral and seek to protect them from harm through working in partnership to ensure that our arrangements and policies for protecting are robust.

We will deliver an action plan to address the recommendations of an independent report which highlighted significant failings in services for vulnerable adults.

Wirral has an ageing population which will mean future challenges in delivering universal and targeted services which meet their needs.

The way the Council delivers social care services is changing to meet these challenges. Wirral is now amongst the best in the country for the numbers of eligible people using Personal Budgets, which give adults more choice about the support they receive.

We will build on these improvements to ensure that local people receive excellent standards of support and care and are protected and feel safe.

We will listen to and consult with people who use services, their carers and communities, to enhance the quality of life of the people of Wirral who have care and support needs. We will work with our local communities and groups, including those representing carers, to ensure that people can access services that meet their needs locally, and have greater choice and flexibility in the packages of support and care available to them and are empowered to make these choices.

In circumstances where people develop care needs, we will work effectively with our partners to provide them with appropriate support to help them recover and regain their independence as quickly as possible and retain that independence.

We will make sure that the services we commission from other organisations are high quality, cost effective and meet the needs of local people.

We will place a specific focus on ensuring that when children with disabilities move into adulthood, they receive quality information, advice and support services to make sure this transition is seamless.

4. YOUR NEIGHBOUHOOD

In line with the results of the Neighbourhood Plans, we will continue to use devolved funding to allow each area to meet the specific needs of their own communities.

We will continue to tackle anti-social behaviour and work with the police and other partners to reduce crime, including through exploring innovative approaches such as community justice initiatives. Local people told us that feeling safe in their neighbourhood is an important priority.

We will work with partners to improve the condition of Wirral's housing stock and improve the energy efficiency to reduce levels of fuel poverty.

Reducing Wirral's carbon footprint is an important priority for us and we work in partnership with local residents, partners and the private sector to address this.

We have made impressive year on year progress to improve the condition of Wirral's housing stock and improve the energy efficiency to reduce levels of fuel poverty.

Local residents in all parts of Wirral have told us that having streets that are clean and tidy is an important priority to them. We will ensure that we deliver a reliable street cleansing service in all parts of the borough and use feedback from local residents to help us maintain standards. Wherever possible we will trace and prosecute flytippers.

Local people also want us to focus on having safe and well maintained roads. We have seen reductions in accidents on some of Wirral's busiest roads and we will continue to make Wirral's roads safer and target our resources effectively and in line with what local people have told us about their areas.

Wirral's parks and countryside are very important to local communities and we will secure their future by improving how they are managed. We will also create even more opportunities for people to get involved and benefit from using these well-loved facilities in the areas in which they live and elsewhere in the borough. We will also encourage greater use of our high quality and value for money leisure and cultural facilities in Wirral. We will deliver a strategy which ensures the best use of Wirral's libraries.

We will respond effectively to the impact of welfare reform on the availability of and access to housing, including close partnership working with landlords in the borough.

We will support those who are experiencing or who are at risk of homelessness and we will continue to work hard to improve access to advice and information about the housing options that local people have.

The Council recognises that vulnerable people, including some of our children and young people, have additional housing needs and we will review the services we deliver to ensure that support is effective and targeted appropriately.

Our goals for the next	This year, we will focus on	Our targets are to
three years are to		
Reduce Wirral's carbon footprint	Delivering the Council's carbon budget	Reduce the Council's carbon footprint by 5% year on year (a total of 60% by 2025) – saving 2,030 tonnes in 2012/13

5. YOUR COUNCIL

The challenge facing local authorities over the next five years is unprecedented in terms of the changes to services and budgets. The Council has a £100 million budget gap to address by 2016, against a backdrop of delivering better outcomes and meeting community expectations. This will mean radical change, and harnessing the talent of our workforce in new ways, including modelling services differently to ensure that a focus on early intervention and prevention drives the Council's resources. It also means being open and transparent about the way we do business.

We envisage a Council where teams work together, with no silos or departmental barriers, working strategically for the good of the borough, communicating well and celebrating success. Decision making should be streamlined, informed and transparent. The Council's ambitions and aspirations provide the drivers for change and delivering excellence. The Council's aim is to be recognised nationally for excellence and the improvements it has made. The most important outcome of this improvement journey will be local communities which are receiving excellent services and recognise this.

We want managers and staff at all levels of the organisation to have pride in Wirral and the Council that they work for. We want them to be able to deliver excellence and innovation with clear expectations and accountabilities. We will put in place effective and streamlined systems and processes that will be used properly by our staff. We will train our managers to unlock their potential and increase the capacity within the organisation. We will be a flexible organisation, capable of learning and improving from each other as well as from what happens elsewhere.

The Council's emerging improvement plan is clearly focused on addressing where the Council is now and where it wants to be by 2015.

To meet the challenge, we need to be one corporate organisation delivering change where it is needed. The action we take needs to address the root causes of why we are where we are and not just focus on the symptoms. Leadership of this agenda will be from the top down, with a corporate leadership team leading a single organisation. We will put in place the necessary resources to deliver the improvement plan effectively and within agreed timescales.

We will improve the leadership and management of the Council. To do this we must:

- Agree key principles for a vision for what the Council will be like in 2015 and consult widely about this vision with local communities, Elected Members and other stakeholders, including the voluntary, community and faith sector;
- Identify the development needs of senior officers and Elected Members and address these through appropriate support;
- Ensure that there are clear leadership roles and boundaries in place to support joint working between officers and Elected Members, not withstanding the need for the Leader and Chief Executive working closely together to provide effective and strategic leadership;

- Ensure that on issues of governance there is a commitment to work together across party lines and between Members and Officers;
- Ensure that Directors work as a single corporate and strategic team and that 'silos' are a thing of the past;
- Use the strengths across the Council's workforce to shape and deliver key projects and programmes of activity;
- Celebrate success regularly and consistently.

We will improve the Council's corporate governance and decision-making arrangements. To do this we must:

- Clarify and strengthen officer and member roles, responsibilities and accountabilities, supported by appropriate training and a clear memorandum of understanding;
- Be clear about the mechanisms for implementing change and improvement and addressing key areas such as internal audit, procurement, contract procedure and management, risk management and whistleblowing;
- Put in place a compliance guide for all staff, with clear expectations and supporting information.

We will put in place an effective **Corporate Plan**. To do this we must:

- Ensure that strategic and service challenges are identified and addressed;
- Systematically review services using an agreed evidence base;
- Engage with local people and other stakeholders about their priorities for the borough;
- Introduce a framework for performance appraisal and development which will focus on delivering the Corporate Plan and make change and improvement core business for every member of staff.

We will improve the Council's budget planning and its financial stability. To do this we must:

- Set out a vision to address our budget challenges, and develop a plan to deliver up to £100 million savings required by 2016 and to clearly identify areas of investment and disinvestment in line with the priorities identified in the Corporate Plan;
- Assess the impact of potential savings to ensure that we understand their impact;
- Consult with service users about potential impact of changes to services to ensure that these are understood and that needs are considered and addressed;

We will maintain a focus on the critical services of safeguarding and developing the economy. To do this we must:

 Strategically review these areas and be clear about how these priorities will be addressed in the Council's Corporate Plan
