Summary of Paper	<p>The Wirral Dementia Strategy Group has been working to devise a Wirral Dementia Strategy that sets out how Wirral commissioners and providers will work together over the coming three years to meet the requirements of the National Dementia Strategy.</p> <p>The Strategy will be a public-facing and an iterative document that will be updated on at least a quarterly basis, and provide any member of the public or professional colleague with a current position of Wirral's progress against national and local plans to improve the care of people with Dementia.</p> <p>An investment plan will be developed alongside the Strategy, which will highlight any areas that will require additional investment in order to move forward.</p> <p>The Strategy represents a joint approach to dementia planning between commissioners, and health and social care providers. Its development, and its future monitoring, will be overseen by the Dementia Strategy Group, which comprises representatives from a wide range of stakeholders.</p>		
Financial Implications	Total financial implication £ TBC	New investment required £ TBC	Source of investment (e.g. name of budget) £ TBC
Risks and Preventive Measures	If Wirral does not have an agreed Dementia Strategy in place there is a risk to its ability to meet the objectives of the National Dementia Strategy, and specifically to comply with the requirements of the NHS Operating Framework		
Details of Any Public/Patient/Service User Engagement	The Strategy is in draft format as the group is still gathering feedback from stakeholders. The group consulted patients and public during Dementia Awareness week in late May 2013.		
Recommendations/Next Steps	The Health and Wellbeing Board is asked to note the development of the Strategy to date, and the issues raised.
