Introduction

The key messages from 3 scheduled meetings on 19 October, 16 November and 23 January are attached. In addition Wirral Council requested a special single item meeting on the budget and the key messages from that meeting, held on 1 March, are also attached.

Set out below are areas of focus and development extracted from those notes

Budget

The priority area of work through the whole period has been preparing, consulting and developing a budget approach for the next 3 years and particularly for 2013/14. The scale of the challenge, once historic budget practice and bad debt provision were more fully understood, was deemed unprecedented in the Board's experience.

The Board recognised the open approach taken in both public consultation on the budget and in bringing in an external expert to assist with understanding of bad debt and previous budget practice.

There was acknowledged to be much greater clarity on options in terms of the budget given the financial position of the Authority all of those options presented tough choices requiring some strong leadership at both political and managerial level.

There has been a change in senior management contributing to the overall savings required and altering the managerial ownership of implementation. However despite the passage of a legal budget by the Council there is an acknowledgement from both Council and the external Board members that implementation will be challenging and have risks attached. The Council have plans in place and will be sharing those with the Board including an open monitoring approach to the budget to enable all Councillors and the public to also monitor progress. The Board asked for delivery plans to be brought to the Board each meeting in order to keep oversight of implementation. The Board were of the view that the Council would have to consider new forms of service delivery to make the necessary savings.

Leadership and Development

An update on leadership and elected member development was given including helpful sessions on the "shape of things to come". An outline Change Management Strategy was discussed and the conclusion was that an integrated and pragmatic approach was required. A full staff survey would be undertaken.

Governance/Scrutiny

Progress on governance work including the scheme of delegation was shared. Again it was about ensuring that any changes were in practice not on paper and ensuring that the scrutiny process was used to ensure improved working within the Council. The Board stressed the importance of greater transparency in decision making and noted that that an effective and operational Constitution and Scheme of Delegations would be a key success measure for the Improvement Plan.

Peer Challenge

The findings of the Peer Challenge team were shared openly and had informed the Council's approach and thinking on its own development. The Peer Challenge team are due to revisit in May to consider progress.
