Summary of Paper	The Local Account forms a key part of the TEASC (Towards Excellence in Adult Social Care) approach to sector led improvement in adult social care. It provides a key mechanism for demonstrating accountability for performance and the delivery of outcomes. It is also a tool for planning improvements, as a result of sharing information on performance with people who use services and engaging with them to get feedback on their experience. The Department of Adult Social Services produces the Local Account on an annual basis as a way of helping to self assess performance, identify future priorities and gather feedback on how the Department has done.
