

NOTICE OF MOTION: WIRRAL WELL-MADE NEED FOR INFRASTRUCTURE SUPPORT *(as referred to the Business Overview and Scrutiny Committee and the Liverpool City Region Combined Authority Overview and Scrutiny Committee)*

Proposed by Councillor Chris Blakeley
Seconded by Councillor Leslie Rennie

Council notes that in Moreton more than 500 new houses will be built in the next two/three years including:

- 297 on the former Burton's site
- 122 on the former Fernbank Farm site and
- a number (yet to be determined) on the former Foxfield School.

However at the recent 'Moreton Conversation' it was clear that, while plans to push forward with the initiative were welcomed, no thought had been given to provide adequate infrastructure to support the proposals including additional education, health and public transport provision.

Council therefore requests the Leader of the Council to put in place, alongside these proposals, plans to ensure that fully adequate infrastructure is designed which will include working with Merseytravel to bring forward the plans for the provision of the long overdue and much needed Town Meadow Railway Station.
