

ACTION ON SCRAMBLER BIKES

Proposed by Councillor Bruce Berry

Seconded by Councillor Chris Blakeley

Council welcomes the launch of the Wirral Safer Hub.

However Council notes that there is increasing public concern concerning anti-social behaviour relating to motor bikes and scrambler bikes.

Council further notes that Merseyside Police, despite the good work carried out under Operation Brookdale, do not seem to be able to contain the root cause of the problem.

Council therefore requests the Wirral Safer Hub set up a dedicated task force using all agencies, elected members and the voluntary sector to come up with a plan to tackle this menace.
