## PENSIONS COMMITTEE

16 JULY 2019

<b>SUBJECT:</b>	<b>TREASURY MANAGEMENT ANNUAL REPORT 2018/19</b>
<b>WARD/S AFFECTED:</b>	<b>ALL</b>
<b>REPORT OF:</b>	<b>DIRECTOR OF PENSIONS</b>
<b>KEY DECISION?</b>	<b>NO</b>

### 1.0 EXECUTIVE SUMMARY

1.1 This report presents a review of treasury management activities within Merseyside Pension Fund (MPF) for the 2018/19 financial year and reports any circumstances of non-compliance with the treasury management strategy and treasury management practices. It has been prepared in accordance with the revised CIPFA Treasury Management Code.

### 2.0 BACKGROUND AND KEY ISSUES

2.1 Treasury Management in Local Government is governed by the CIPFA Code of Practice on Treasury Management in the Public Services and in this context is the “management of the Fund’s investments and cash flows, its banking, money market transactions, the effective control of the risks associated with those activities and the pursuit of optimum performance consistent with those risks”.

2.2 On 22 January 2018 Pensions Committee approved the Treasury Management Policy and Strategy 2018/19.

2.3 This report relates to money managed in-house during the period. It excludes cash balances held by investment managers in respect of the external mandates and the internal UK and European investment managers.

### TREASURY MANAGEMENT

2.4 As at 31 March 2019, MPF had a cash balance of £86.1 million as against £53.2 million at 31 March 2018. All of these funds were held on call (instant access) accounts with Lloyds, Svenska Handelsbanken, Northern Trust and Invesco.

2.5 Managing counterparty risk continued to be the overarching investment priority. Investments during the year included:

- Call (instant access) accounts and deposits with UK banks
- Investments in AAA rated money market funds with a constant Net Asset Value.

2.6 The rate at which MPF can invest money continues to be low; the Bank of England base rate was increased from 0.50% to 0.75% in August 2018.

- 2.7 Over the twelve month period, Northern Trust calculated the cash performance to be 0.55% against a benchmark performance (7 day LIBID) of 0.51%.
- 2.8 Transactions were undertaken to reflect the day-to-day cash flows of the Fund, matching inflows from receipts to predicted outflows.
- 2.9 The detailed cash flow plans were managed so as to be compliant with the deposit limits agreed for individual financial institutions as reflected in the Treasury Management Policy for 2018/19, apart from the limit with our current bankers Lloyds detailed within section 2.10 below.
- 2.10 The Fund was compliant with the Treasury Management Policy throughout 2018/19. However, the Treasury Team did seek permission in accordance with the policy to breach the deposit limit overnight with the Funds current bankers, Lloyds. Permission was sought, as the Fund was expecting significant Funds for an onward investment, with timings of the receipt and dealing cut off times as a constraint, the risk was managed by temporally exceeding the limit overnight.

## **13.0 RECOMMENDATION/S**

13.1 That the Treasury Management Annual Report for 2018/19 be agreed.

## **14.0 REASON/S FOR RECOMMENDATION/S**

14.1 The Treasury Management Code requires public sector authorities to determine an annual Treasury Management Strategy and, as a minimum, to report formally on their treasury activities and arrangements mid-year and after the year-end. These reports enable those tasked with implementing policies and undertaking transactions to demonstrate that they have properly fulfilled their responsibilities and enable those with responsibility/governance of the treasury management function to scrutinise and assess its effectiveness and compliance with policies and objectives. The requirement to report mid-year is met via regular reports to the Investment Monitoring Working Party (IMWP).
