**Section 4:**

Could the proposal have a positive or negative impact on any protected groups (age; disability; gender reassignment; marriage and civil partnership; pregnancy and maternity; race; religion or belief; sex; sexual orientation)?

You may also want to consider socio-economic status of individuals.

Please list in the table below and include actions required to mitigate any potential negative impact.

<b>Which group(s) of people could be affected</b>	<b>Potential positive or negative impact</b>	<b>Action required to mitigate any potential negative impact</b>	<b>Lead person</b>	<b>Timescale</b>	<b>Resource implications</b>
People who struggle to read documents on screen.	Negative - Some people struggle to read documents on screen and either need to or prefer to print the document to read it on a paper. Although this will still be possible with a centralised print function it will be less viable than with a local MFD.	The Council has a site wide license for TextHelp Read and Write Gold ( <a href="https://www.texthelp.com/en-gb/products/read-write/">https://www.texthelp.com/en-gb/products/read-write/</a> ) meaning any Council staff can have this software installed to read documents for them.	Peter Moulton	As required	Creation of some training material to assist staff in using the software.
Staff who wish to make notes on documents	Negative – staff who wish to make notes on printed documents. This will still be possible with a centralised print function, but it will be less viable than with a local MFD.	The Council has deployed Microsoft Surface Pros and laptops with touch screens to enable staff to make notes on digital copies of the document. Notes can also be made via using the keyboard.	Peter Moulton	3 months	Publishing of further training for staff on how to make notes on their computer.

<p>Communities who utilise the MFDs in Libraries to print or scan documents.</p>	<p>Negative - Some residents use the MFDs within Libraries to print or scan documents.</p>	<p>This service will still be provided but from the centralised print and scanning function based at Sandford Street, Birkenhead. If residents are unable to get to the centralised print and scanning centre, then it will be possible for them to email the document and it will be printed and sent to them.</p>	<p>Simon Cuerden</p>	<p>This service will be operational by the end of March</p>	<p>Communication to publicise this service to residents.</p>
<p>People who support the climate change.</p>	<p>Positive - The Covid pandemic has seen a significant reduction in printing across the Council. As the situation returns to normal and staff return to the office an increase in printing is expected. By creating a centralised print function any service who requires it can print but it will help drive changes in printing practice and reduce the amount of paper used across the Council.</p>				

**Section 4a: Where and how will the above actions be monitored?**
