Public questions from the Birkenhead Market Traders Association

1. Question 1 from David French

At a meeting 10 August Mr Evans informed our community representatives that the decision has been made to scrap plans for a temporary Market, that our community will remain on the current market site and furthermore no demolition/redevelopment work will be commenced anywhere on the current market site. When does Wirral Borough Council expect demolition reconstruction to begin?

2. Question 2 from Bernard Furlong

Our community have been informed via newsletter that the vacant Marks & Spencer site proposal has been revisited and examined by WBC Officers and rejected. As this proposal has been rejected by Officers we do not see that any information can be classed as commercially sensitive. Therefore will WBC Officers furnish our representatives with copies of all documents pertaining to the Marks & Spencer site held by WBC without delay?
