

## Appendix 1 ADDER Accelerator Scorecard

The Office for Health Improvement and Disparities produce a quarterly report on all ADDER sites showing progress against key metrics, with national comparators.

Data is based on provider submissions to the National Drug Treatment Monitoring System (NDTMS) as part of routine client recording.

|   |                                       | Green: >5% improvement within the given time period<br>Amber: No more that a 5% change within the given time period<br>Red: >5% deterioration within the given time period |            |
|---|---------------------------------------|--|------------|
| <b>Wirral</b><br>Up to September 30th 2022                    |                                       | <b>Change During<br/>                     ADDER Period (Jun<br/>                     2021 to Sep 2022)</b>   |            |
|   |                                       | Wirral %   | National % |
| <b>Numbers in treatment in the three months to period end</b> | In Treatment at Period Start          | ● 0%   | ● -2%      |
|   | New Presentation                      | ● 5%   | ● -4%      |
| <b>Treatment Pathway</b>                                      | First Time in Treatment               | ● -5%  | ● -4%      |
|   | Pharmacological Treatment             | ● -7%  | ● 1%       |
|   | Psychosocial Treatment                | ● 0%   | ● -1%      |
