Dear

Re: Developing the Wirral Carers Strategy

You may recall that in October/ November last year you completed the Survey of Adult Carers in England questionnaire. Thank you for giving your time and taking part in the survey. The results for all of the local authorities are now available to view on this link <https://digital.nhs.uk/data-and-information/publications/statistical/personal-social-services-survey-of-adult-carers>

At the end of the Carers questionnaire you completed a section with your contact details stating that you were willing to take part in further research, which is why I am contacting you.

Wirral Council are looking to renew the Wirral Carers Strategy. We would like to co-produce this working with people who have caring responsibilities. Therefore, we want to draft the strategy with you as a Carer, as you are the experts in this area. We are planning a range of workshop events in various venues across the borough. Places will be limited depending on the venue capacity, so please book a place as soon as possible.

which will support the development of services and support for Carers locally.

Yours sincerely,
