1. Introduction

- 1.1.** The Finance Regulations and Contract Procedure Rules provide the framework for managing the Council's financial affairs. They apply to every Member and Officer and anyone acting on its behalf, including School Governors operating under local delegation arrangements. All decision makers need to ensure that they are not only empowered under the Constitution to make a decision, but that they are also authorised under these Rules to incur the financial consequences of every decision that they make.
- 1.2.** Where urgent action becomes necessary as a result of some unforeseen emergency the Chief Executive, in consultation with the Director of Finance officer (or nominated representative), may take appropriate action and waive the Financial Regulations. Every use of this rule must be reported by the Director of Finance officer, in writing, to the next available meeting of the Policy and Resources Committee and Full Council.
- 1.3.** The Director of Finance is responsible for maintaining a continuous review of the Finance Regulations and Contract Procedure Rules and submitting any additions or changes necessary to the Full Council for approval. The Director of Finance is also responsible for reporting, where appropriate, breaches of the Finance Regulations and Contract Procedure Rules to the Audit and Risk Management Committee.
- 1.4.** The Senior Leadership Team is responsible for ensuring that all staff are aware of the existence and content of the Council's Finance and Contract Procedure Rules and other internal regulatory documents and that they comply with them, as required by the Council's Code of Conduct for Employees and this Constitution. Failure to comply with the Code of Conduct may result in disciplinary action.
- 1.5.** The Director of Finance is responsible for issuing advice and guidance to underpin the Finance Regulations and Contract Procedure Rules that Councillors, Officers and others acting on behalf of the Council are required to follow.
- 1.6.** Councillors have a fiduciary duty to local taxpayers to spend money wisely and to balance the interests of those who will pay against the interests of those who will benefit from the expenditure.
- 1.7.** The Rules are not intended to cover every eventuality, but the spirit of the Rules must always be followed. Should there be a requirement for interpretation or any conflict between these Financial Regulations and any other part of the Constitution, the Monitoring Officer should be consulted. Should any conflict between these Financial Regulations and the Council's Budget and Policy Framework Rules, at Part 4(3) of this Constitution, the Council's Budget and Policy Framework Rules prevail.

2. Financial management

2.1. Responsibilities

- 2.1.1. Financial management covers all financial accountabilities in relation to the running of the Council, including the policy framework, revenue budget, trading activities' financial plans, capital programme and treasury management.
- 2.1.2. Committees are responsible for discharging the Council's functions within the Budget and Policy Framework provided by Council. The Budget will be aligned with Committee and Directors of Service responsibilities as far as possible.
- 2.1.3. The Audit and Risk Management Committee has a right of access to all the information necessary to effectively discharge its responsibilities and may consult directly with internal and external auditors. The Audit and Risk Management Committee is responsible for a range of matters as set out in Council's Constitution. The Committee's responsibilities with regard to the financial management of the Council include:
- 2.1.3.1. overseeing the Council's role and responsibilities in respect of Corporate Governance and Audit

 - 2.1.3.6. monitoring the effectiveness of the Council's Financial Regulations, Procurement Policy and Procedures and other strategies for counter fraud and corruption, anti-bribery, declarations of interest, gifts and hospitality, whistle blowing and anti-money laundering.
- 2.1.4. The Director of Finance (Section 151 Officer) is the Council's 'responsible financial officer' under the Accounts and Audit Regulations. They are responsible for the proper administration of the Council's affairs as specified in, and undertaking the duties required by Section 151 of the Local

Government Act 1972, Section 114 of the Local Government Finance Act 1988 and all other relevant legislation.

In order to fulfil these statutory duties and legislative requirements the Director of Finance will:

- 2.1.4.1. set appropriate financial management standards for the Council which comply with the Council's policies and proper accounting practices, and monitor compliance with them
- 2.1.4.2. determine the accounting records and systems to be kept by the Council and the form of any supporting records. The Director of Finance officer shall ensure that the accounting systems approved are observed and maintained

- 2.1.4.12. provide advice and guidance to reinforce the Financial Regulations that Members, Officers and others acting on behalf of the Council are required to follow
 - 2.1.4.13. maintain and continuously review the Financial Regulations and implement any changes
 - 2.1.4.14. take responsibility for advising the Council on corporate financial matters ; Chief Officers shall have responsibility for advising Members or Committees on financial matters relevant to their own service areas, where possible in consultation with the Director of Finance
- 2.1.5. Senior Leadership Team members are responsible for financial management within their directorates and spending within the limits of the budgetary framework set by Council. They shall manage the development of budget proposals with a detailed assessment of financial implications within the Budget and Policy Framework agreed by the Council.

2.2. Schemes of Financial Delegation

The Senior Leadership Team members will establish, operate and keep under review local Schemes of Financial Delegation to ensure that the day-to-day financial management of services within their directorate is carried out in a secure, efficient and effective manner, and in accordance with the Finance Regulations, Contract Procedure Rules and associated relevant guidance.

2.3. Revenue budget monitoring and control

Once the budget is approved by the Council, Chief Officers are authorised to incur expenditure in accordance with the approved budget, subject to the limits in the Constitution and local Schemes of Financial Delegation to officers. Chief Officers must, however, maintain effective budgetary control within their service to ensure that spending is contained within the annual budget limit and to secure value for money.

- 2.3.1. It is the responsibility of Senior Leadership Team to control income and expenditure within their area and to monitor performance, taking account of financial information and guidance provided by the Director of Finance. They must report on variances within their own areas. They must also take any action necessary to avoid exceeding their budget allocation and alert the Director of Finance to any potential overspending or under-achievement of income budgets in a timely manner.
 - 2.3.1.1. The Director of Finance, with the support of the Senior Leadership Team, is responsible for establishing an appropriate framework of budgetary management and control which ensures that:

- budget management is exercised within annual budget limits unless the Full Council agrees otherwise
 - timely information on receipts and payments is made available, which is sufficiently detailed to enable officers to fulfil their budgetary responsibilities
 - expenditure is committed only against an approved budget.
 - all officers responsible for committing expenditure comply with relevant guidance and Finance and Contract Procedure Rules. Consideration must also be given to the requirements relating to key decisions. (Part 4, Section 2, paragraph 8 of the Constitution).
 - each cost centre has a single named manager, determined by the relevant Head of Service. As a general principle, budget responsibility should be aligned as closely as possible to the decision-making processes that commits expenditure
 - significant variances from approved budgets are investigated and reported by budget managers regularly.
- 2.3.1.2. Reports shall be produced to Committees and Full Council, with the relevant Chief Officer or Head of Service, where they are unable to balance expenditure and resources within existing approved budgets under their control
- 2.3.1.3. Reports shall be produced on the Council's projected income and expenditure compared with the budget on a regular basis.
- 2.3.1.4. Schemes of Financial Delegation are maintained for all functions within their area of responsibility
- 2.3.1.5. A Business Case is prepared for all revenue proposals with a significant financial impact, risk profile or policy change.

2.3.2. Scheme of virement

The scheme of virement is intended to enable budgets to be managed with a degree of flexibility within the overall framework determined by the Council, and therefore optimise the use of resources.

- 2.3.2.1. Virements are not permitted:
- in relation to asset charges or other budget headings that are deemed to be outside the control of the relevant budget holder, or where a proposal would adversely affect long-term revenue commitments
 - between revenue and capital budgets

- 2.3.2.2. Budget virements are subject to the following approval limits
- up to and including £100,000 - Chief Officer in consultation with the Budget Holder
 - more than £100,000 but no more than £500,000 – Relevant Committees and Chief Officers may approve virement of revenue budget up to and including £500,000 (cumulatively up to £1,000,000 over the financial year) provided that there is no virement of revenue budget transfer between ‘Directorates’ (Budget Heads)
 - amounts above £500,000 must be referred to Policy and Resources Committee which may vire an amount over £500,000 where it considers that virement across budget heads or budgets has become necessary or desirable, is consistent with approved Council policy and there would be no consequential revenue effects in later years.
- 2.3.2.3. Budget virements are not subject to the approval limits where a budget will continue to be used for the approved purpose but is being moved, for example, to reflect a change in budget holder responsibilities. Such transfers will however require the approval of the relevant representative of the Director of Finance.

2.4. Capital Programme monitoring and control

Once the Capital Programme has been approved, project owners must ensure that the scheme is appropriately managed. Monitoring and reporting requirements are outlined in section 3.3 Capital Programme.

2.5. Treatment of year-end balances

- 2.5.1. Overspends or underspends in relation to the approved revenue budget may occur for a variety of reasons. With regard to General Fund budgets, there is no ‘as of right’ carry forward of underspends from one financial year to another except where this is provided for by a binding partnership agreement or other legal agreement with a third party. Individual School’s budgets are ring-fenced in accordance with statutory provisions thus overspends and underspends are always carried forward into future years.
- 2.5.2. Any revenue underspending at the year-end may be carried forward, subject to the agreement of the Director of Finance following consideration of the overall financial position by the Policy and Resources Committee. All carry forward proposals must be supported by an appropriate Business Case demonstrating that the underspend was planned and that the resources carried forward will be earmarked for a specific and appropriate purpose. Where carry-forwards are agreed, they will be allocated to an Earmarked Reserve until they are utilised.

- 2.5.3. Capital schemes in particular can be prone to delay. It cannot be assumed that underspends will automatically roll forward into the following year. Requests to carry forward funding should make clear whether they are due to re-profiling of schemes or for other reasons. Requests for carry forward should be made to the Director of Finance officer who will report variances to the Capital Programme to Council for final approval.

2.6. Accounting Policies, Records and Returns

- 2.6.1. The Director of Finance is responsible for control and assurance and therefore determines appropriate accounting policies and procedures; exercising oversight of financial and accounting records and systems; and preparing and publishing reports containing statements on the overall finances of the Council, including the annual statement of accounts.
- 2.6.2. Financial statements must present fairly the financial position of the Council and its expenditure and income.
- 2.6.3. All accounts and accounting records will be compiled by the Director of Finance or under their direction. The form and content of records maintained in other directorates will be approved by the Director of Finance along with reconciliation procedures.
- 2.6.4. The Director of Finance is responsible for ensuring that the annual statement of accounts is prepared in accordance with the Code of Practice on Local Council Accounting in the United Kingdom (CIPFA/LASAAC).
- 2.6.5. All statutory financial returns must be completed in line with published guidelines and timescales.
- 2.6.6. Financial records must be retained in line with statutory requirements and the Corporate Record Retention Policy.

3. Financial Planning

3.1. Budget and policy framework

- 3.1.1. The Council is responsible for agreeing a framework of corporate policies that set out and underpin the Corporate Plan. The key elements of this framework are:
- 3.1.1.1. The Council Plan – this sets out the longer term aims and objectives for Wirral.

- 3.1.1.2. Medium Term Financial Strategy (MTFS) – this brings together the key assumptions about financing resources (including council tax, non-domestic rates and government funding settlements) and spending pressures over the medium to longer term. This enables the Council to plan for financial risks and thus inform the setting of service financial targets for the annual revenue budget and capital payments guidelines.

The Director of Finance will ensure that the MTFS is presented to the Policy and Resources Committee and Council as part of the annual budget setting process.

The responsibilities of the Director of Finance are to:

- develop a five-year MTFS (including the current budget year)
- undertake a formal review of the MTFS on an annual basis and update where necessary

Chief Officers must provide information that may be requested by the Director of Finance to support the MTFS

- 3.1.1.3. Revenue Budget – this is the financial expression of the Council's Corporate Plans. It sets out the allocation of resources to Committees, services and projects, the level of contingency funding, the Council Tax base and Council Tax rate, borrowing limits and capital financing requirements. See also section 3.2 Revenue Budget.

- 3.1.1.4. Capital Programme – Capital expenditure involves acquiring or enhancing fixed assets with a long-term value to the Council, such as land, buildings, and major items of plant, equipment or vehicles. Capital assets shape the way services are delivered in the long term and create financial commitments for the future in the form of financing costs and revenue running costs. See also section 3.3 Capital Programme.

- 3.1.1.5. Treasury Management Strategy – this sets out the arrangements for the management of the Council's borrowing, lending, cash flows and investments. The Policy and Resources Committee, in conjunction with the Director of Finance, will propose an annual Treasury Management Strategy, a set of Prudential Indicators and a policy for making revenue provision for the repayment of debt (referred to as the 'Minimum Revenue Provision' policy) to the Council in advance of the start of the relevant financial year. These will be consistent with the Council's revenue budget and capital programme proposals. These documents are required to comply with CIPFA's Codes of Practice on Treasury Management and the Prudential Framework for Capital Finance, relevant Regulations and with the Council's own Treasury Management Policy Statement and Treasury Management Practices; they will set the parameters within which

investment and borrowing activity will be managed during the forthcoming financial year.

- 3.1.1.6. Fees and charging policy - Chief Officers, in consultation with the Director of Finance, will follow the relevant charging policy for the supply of goods or services where charges may be lawfully applied, and the annual forecast of the recoverable amount is £250,000 or more. Charges will be reviewed annually. All new charges, and amendments to existing charges, will be subject to formal approval in accordance with the Council's Constitution. Further detail on income is provided in Section 5.2.
- 3.1.1.7. Pay policy - the pay policy statement will be prepared as required by law. At present it is required to set out the Council's policy on the level and elements of remuneration for each chief officer, the remuneration of its lowest paid employees, and the relationship between the remuneration of its chief and other officers. It is also required to address other specific aspects of chief officer remuneration such as remuneration on recruitment, increases and additions to remuneration, use of performance related pay and bonuses, termination payments and transparency.
- 3.1.1.8. Specific Service Plans and Strategies which have a financial implication.

3.2. Revenue budget

The revenue budget reflects the day to day running costs and associated receipts of the Council. This includes costs for salaries, energy, traveling and other costs incurred in providing services plus income raised by charging service users and government grants.

- 3.2.1. The Director of Finance will determine the general format of the budget.
- 3.2.2. The Chief Executive, in conjunction with the Director of Finance officer, will manage the preparation of the budget on an annual basis for consideration by the Council in line with the Budget and Policy Framework Rules. The annual budget will include allocations to different services and projects, proposed taxation levels and contingencies.
- 3.2.3. Detailed budgets, as proposed by Chief Officers, will be subject to challenge and review through a process determined by the Director of Finance.
- 3.2.4. The Director of Finance is responsible for reporting to Full Council on the robustness of estimates contained within the budget and the adequacy of reserves allowed for in the budget proposals.

- 3.2.5. The Council shall not approve amendments to either revenue or capital budgets without first having considered the advice of the Director of Finance on the financial implications arising.
- 3.2.6. The Director of Finance is responsible for providing appropriate financial information to enable budgets to be monitored effectively. He or she must monitor and control expenditure against budget allocations at a corporate level and report to the relevant Committees on the overall position on a regular basis. See also section 2.3 Revenue budget monitoring and control.

3.3. Capital Programme

The Capital Programme is the Authority's plan of capital projects and spending over future years. The Policy and Resources Committee, in conjunction with the Director of Finance, will manage the preparation of a capital programme, on behalf of the Council, on an annual basis in accordance with the Council's capital projects' governance arrangements.

Capital expenditure of less than £10,000 will be charged to revenue on the grounds of materiality.

- 3.3.1. Capital projects - approvals are sought on an individual project basis and reflect the total cost of each project rather than the anticipated expenditure in each year.
- 3.3.1.1. A Business Case must be prepared for all capital proposals before approval is sought for inclusion in the Capital Programme. The Business Case will be in a format to support decision making, and must identify whole life costs, for revenue and capital. The amount of detail will be proportionate to the value and level of risk. Where there is a greater risk further detail in the Business Case may also be required.
- 3.3.1.2. Any 'in year' approval sought to vary the financial values or implications of a capital scheme, must be supported by an update to the Business Case.
- 3.3.1.3. Once the Capital Programme has been approved, project owners must ensure that the scheme is appropriately managed to achieve appropriate Time, Quality and Cost measures in accordance with the business case. This could be supported by production of a more detailed Business Case outlining how the Project or Programme will achieve the associated benefits.
- 3.3.1.4. Project owners must provide regular reporting of progress of their schemes to the relevant committee. Where project performance or outcomes are at risk of significantly varying from the business case the project owner is responsible for taking appropriate mitigating action including the need to seek appropriate approvals as required. All reporting

and monitoring activity should be evidenced and recorded in a way that can be accessed to support auditing of project activity. Guidance should be sought from the Director of Finance if required.

3.3.1.5. Council will approve the re-profiling of spend on approved capital schemes across financial years and carry forward of slippage/accelerated spend into financial years as part of the budget monitoring/setting processes.

3.3.2. Financing of capital expenditure

The Director of Finance will determine the financing of the capital programme, taking into consideration the availability of reserves and balances, funding from other bodies and the affordability of borrowing.

3.3.3. Capital Receipts

3.3.3.1. The Director of Finance must be informed of all proposed capital receipts including sales of land and buildings so that the effect on financial and property management can be assessed.

3.3.3.2. On the advice of the Director of Finance, the Council will determine how capital receipts will be applied when setting the budget. Schools capital receipts are ring-fenced and thus can only be used in a prescribed manner.

3.4. Reserves

3.4.1. The Director of Finance is responsible for advising on the prudent levels of reserves for the Council. The key controls are:

3.4.1.1. to maintain reserves in accordance with the Code of Practice on Local Council Accounting in the United Kingdom and agreed accounting policies,

3.4.1.2. for each reserve established, the purpose, usage and basis of transactions should be clearly identified

3.4.1.3. reserves are used only for the purpose for which they were intended

3.4.2. Authorisation to establish and add to a reserve is by the appropriate Chief Officers in conjunction with the Director of Finance and authorisation to incur expenditure against the reserve is by the appropriate Chief Officer.

3.5. Leasing, Rental and Right of Use Agreements

- 3.5.1. Leasing, rental or hire purchase agreements must not be entered into unless the service has established that they do not constitute a charge against the Council's prudential borrowing limits. All lease type arrangement must comply with IFRS 16 and approved by the Director of Finance.

3.6. Internal trading activities

- 3.6.1. The requirements for a service to be designated as a trading activity include:
- provision of all, or the majority, of their services in an environment where their customers have the option to use them or an alternative service provider; and
 - charging for the full cost of the goods / services they provide, on the basis of an agreed charge or rate.
- 3.6.2. Services are only permitted to operate as a trading activity with the prior approval of the Council, in consultation with the Director of Finance officer and the Monitoring officer.
- 3.6.3. Trading activities are each required to:
- 3.6.3.1. maintain a Trading Account into which all expenditure related to the provision of their services will be charged (i.e. including direct costs, the full costs of services provided by the Council's support services, any service management provided by senior managers and asset and other accounting charges).
 - 3.6.3.2. receive all income due for work done by the trading activity. Exceptions to the requirement for a Trading Accounts will apply when the Service funded is occasional and below a limit value set by the Director of Finance.
 - 3.6.3.3. balance their budget by generating sufficient income to cover the full costs of service provision.
 - 3.6.3.4. operate within the Council's overall arrangements and rules for personnel and resource management. Council may approve special arrangements in exceptional circumstances, where it can be demonstrated that adherence to these rules and arrangements would lead to the unit becoming uncompetitive and losing work and that the proposed departure does not expose the Council to significant risk.

4. Risk Management and Control of Resources

4.1. Risk management

- 4.1.1. It is essential that robust, integrated systems are developed and maintained for identifying and evaluating all significant operational risks to the Council. This should include the proactive participation of all those associated with planning and delivering services.

4.2.2. External Audit

- 4.2.2.1. The Local Audit and Accountability Act 2014 established new arrangements for the audit and accountability of relevant authorities. Under these new arrangements the Council has opted for its external auditors to be appointed by the Public Sector Audit Appointments Limited (PSAA), an independent company established by the LGA for this purpose.
