12.0 WCFT.....	33
12.1 Key Measures - monitored monthly.....	33
12.2 Comments from ASCH Management The range of performance measures and KPIs are monitored regularly through internal reporting and through contract discussions. Action is taken where needed to address any areas identified where performance can be strengthened.....	34
13 Length of Stay report	35
13.1 Long Stay Patients	35
13.2 No Criteria to Reside.....	38
14 Deprivation of Liberty Safeguards (DOLS).....	39
14.1 DOLS – Total number of people	39
14.2 DOLS – Total number of people deceased whilst subject to a DOLS process.	40

1.0 Introduction

The Adult Care and Health Committee have requested a set of key intelligence related to key areas within Health and Care. This report supplies that information for review and discussion by members. If additional intelligence is required further development on reporting will be carried out.

Currently, this report displays Calendar Quarters (For example, Q1 would represent January – March) rather than in a Fiscal Quarter format (Q1 would represent April – June). The Intention as of the next quarterly report is to align all the visuals presented in this document to be displayed in Fiscal Quarters.

1.1 Introduction – Total number of people accessing ASC services

Data source: ContrOCC.

The above charts show number of people accessing Adult Social Care services as of Quarter 3 (01/10/2022 – 31/12/2022).
Data Source: ContrOCC.

2.0 Care Market – Care Homes

2.1 Residential and Nursing Care – Total number of people

The above card shows number of people in Residential and Nursing Care in Quarter 3 (01/10/2022 – 31/12/2022)
Data Source: ContrOCC.

2.2 Residential and Nursing Care Over Time

The above charts show the number of people receiving Residential and Nursing care in the last 2 calendar years. Quarterly update.

Data Source: ContrOCC.

2.3 Residential and Nursing – Current People by Service Type

The above chart shows number of people in Residential and Nursing Care in Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

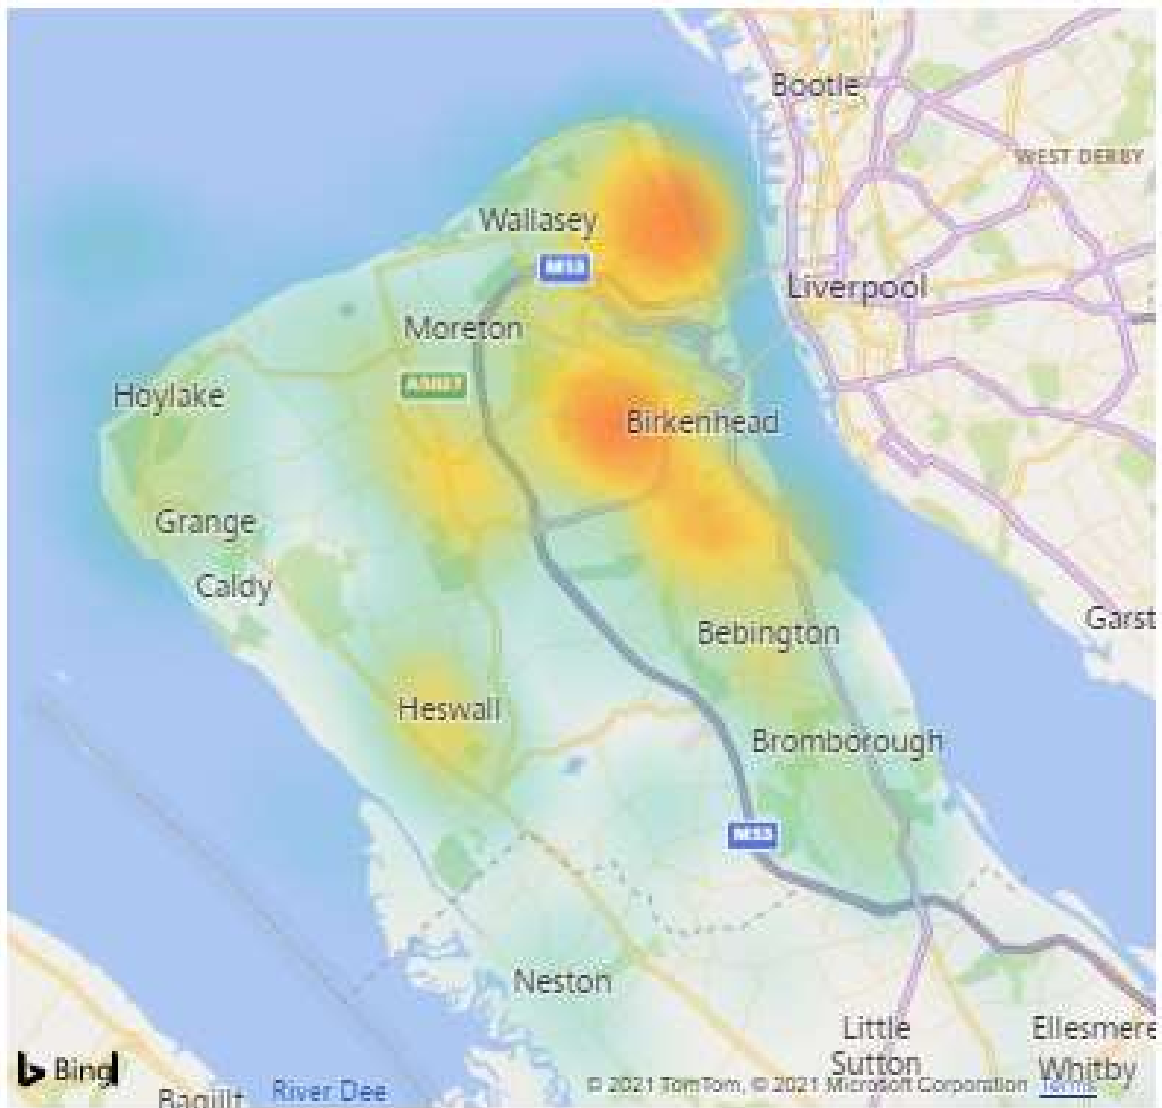

The above chart shows number of Care Homes by category in Residential and Nursing Care in Quarter 3 (01/10/2022 – 31/12/2022).

Please note, some homes may be counted twice if they offer multiple types of bed.

Data source: ContrOCC.

2.4 Residential and Nursing – People Location

Care Home Location

The heat map (a representation of data in the form of a map or diagram in which data values are represented as colours) shows the care home locations in Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: Liquid Logic.

2.5 Care Homes – Current Vacancy Rate

Maximum capacity	Admittable Vacancies
3339	350

Data Source: NHS Capacity Tracker.

There is a capacity of 3339 places in care homes with a current vacancy rate as of 25/01/2023 of 10.48%.

2.6 Care Homes – Care Quality Commission Inspection Ratings

The above chart shows the current rating of the care homes based on their last CQC inspection as of 25/01/2023.

Data source: CQC

The above chart shows the current rating of the care homes based on their last CQC inspection as of 25/01/2023.

Data source: NHS Capacity Tracker

2.7 Care Homes - Comments from ASCH Management

The number of long-term residential care home placements continues to be at a high level which may be due to system pressure in the acute trust and the recruitment and retention pressures and reduced capacity in the Domiciliary Care Market. Vacancy rates in care homes are at a similar level compared to the last report, and at a level that still demonstrates sufficient capacity.

The Quality Improvement Team continues to support those care homes who have received a rating of Inadequate or Requires Improvement by Care Quality Commission (CQC). By using the Councils Independent Quality Assessment Provider Assessment and Market Management Solutions (PAMMS) tool to target support, the team has seen an improvement during this reporting period and are in dialogue with CQC for reinspection of identified care homes.

The number of homes closed to admissions in line with infection control measures continues at a decreased level.

3.0 Direct payments

3.1 Direct Payments – Total number of People Receiving a Service

The charts show the number of people receiving a direct payment in the last 2 calendar years. Quarterly update.

The number of people receiving direct payments as at 25/01/2023 is 627.

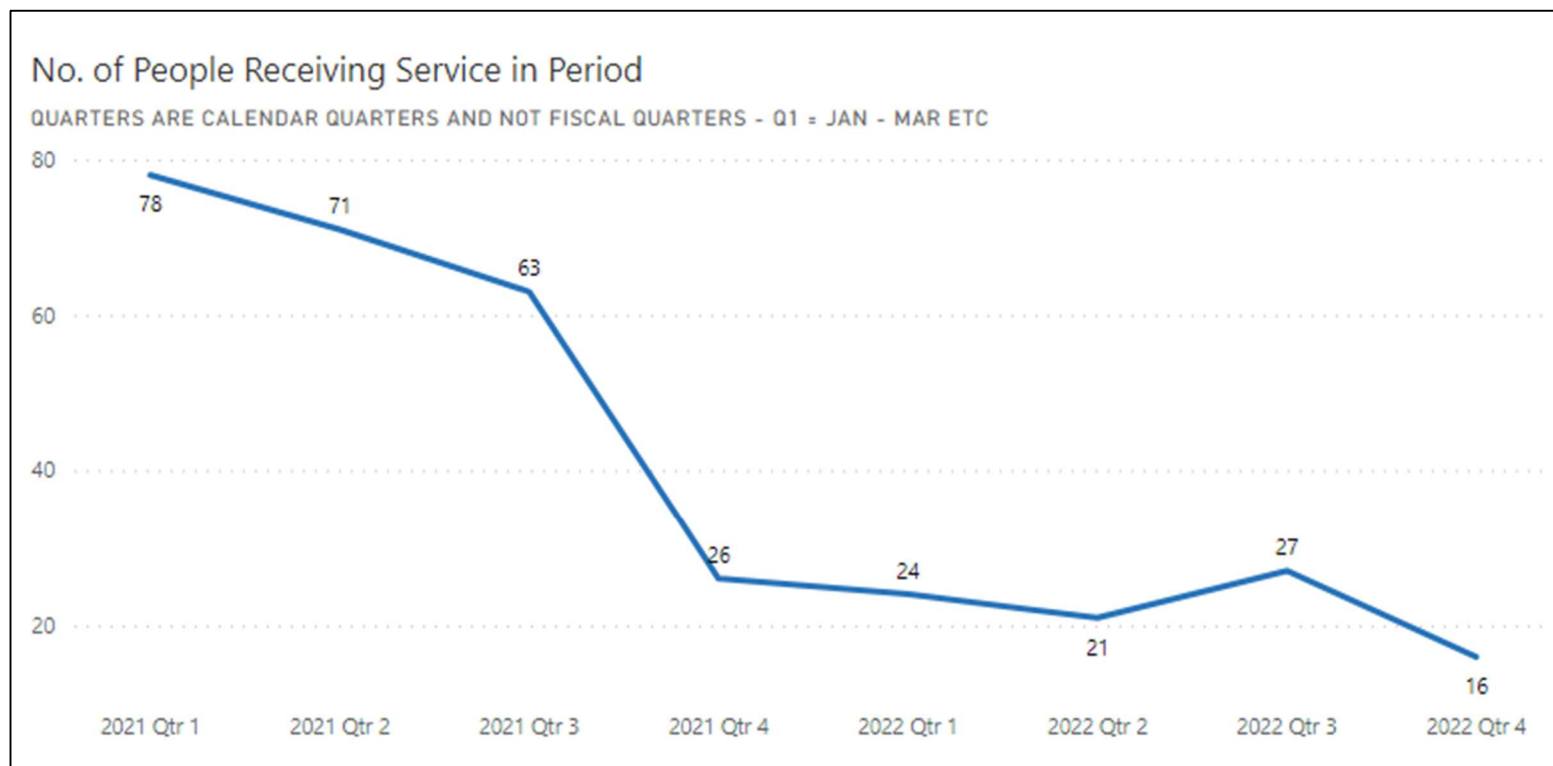

Data Source: ContrOCC.

3.2 Direct Payments – Comments from ASCH Management

Direct Payments are a good option for people to be more in control of their care and support arrangements and the majority of Direct Payments are now made with a pre-Paid Card. A review is currently being undertaken as well as engagement work to encourage the uptake of Direct Payments.

4.0 Care Market – Block Commitments:

4.1 Discharge to Assess – Total Number of People in care home beds block purchased by either the Council or NHS Integrated Care Board

These are care home beds originally commissioned by the council and now funded by the NHS for people being discharged from hospital who need further rehabilitation and recovery as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: ContrOCC.

4.2 Discharge to Assess – Average Length of Stay

The above charts show the average length of stay for the 22 D2A beds at Leighton Court as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: ContrOCC.

4.3 Discharge to Assess – Vacancy Rate

Due to the timescales involved this is the most recently available data. Due to the source of the data, this is also in a monthly format and not quarterly. In the below chart, CICC is displaying data relating to the 71 Clatterbridge Intermediate Care Centre beds.

Table 1 - Actual Bed Days

	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Discharge to Assess - Nursing	557	635	597	489	541	582	630	566	471
CICC	1853	2124	2019	1931	2131	2055	2010	1995	2081
Total	2410	2759	2616	2420	2672	2637	2640	2561	2552

Table 2 - Commissioned Bed Days

	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Discharge to Assess - Nursing	660	682	660	682	682	660	682	660	682
CICC	2125	2201	2130	2201	2198	2130	2201	2130	2201
Total	2785	2883	2790	2883	2880	2790	2883	2790	2883

Table 3 - % Occupancy

	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Leighton Court	84%	93%	90%	72%	79%	88%	92%	86%	69%
CICC	87%	97%	95%	88%	97%	96%	91%	94%	95%
Total	87%	97%	95%	88%	97%	96%	91%	94%	95%

Data Source: WCFT.

4.4 Discharge to Assess – Comments from ASCH Management

In addition to the CICC services provided by NHS Community Health and Care Trust at the Clatterbridge Intermediate Care Centre, there are additional care home beds commissioned on a short term basis via the NHS Integrated Care Board and funded by temporary additional funding. These are currently at Leighton Court (22) and also Park House (25) from Dec 2022.

4.5 Short Breaks – Total number and Occupancy Levels

Total Clients	Total Short Break Days
171	4736

The cards show number of people receiving Short Breaks and total number of Short Break days as of 25/01/2023. Quarterly update.

Data Source: ContrOCC and Liquid Logic.

Acorn House Occupancy %	Summer Fields Occupancy %
35%	20%

The cards show current occupancy rates of Acorn House and Summer field respectively as of 25/01/2023. Quarterly update.

Data Source: ContrOCC and Liquid Logic.

The above chart shows the average occupancy rate by provider as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: ContrOCC and Liquid Logic.

4.6 Short breaks – Comments from ASCH Management

Short Breaks services provide valuable support to people and their carers. It is usual to have fluctuating occupancy levels between short stay bookings.

5.0 Care Market – Domiciliary Care and Reablement

5.1 Domiciliary Care – Total number of People

No. of People

1689

No. of HRs Delivered

187,764

Quarter on Quarter comparison

QUARTERS ARE CALENDAR QUARTERS AND NOT FISCAL QUARTERS - Q1 = JAN - MAR ETC

● People ● Per 100,000

Year on Year comparison

● People ● Per 100,000

The above charts show the number of people receiving Domiciliary care as of Quarter 3 (01/10/2022 – 31/12/2022).

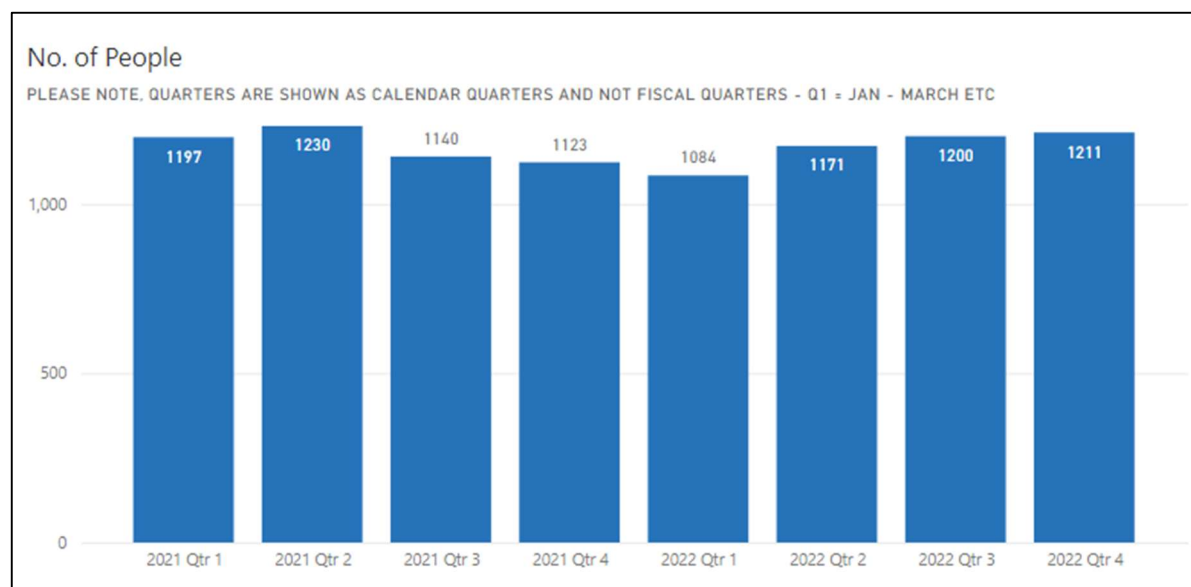

Data Source: ContrOCC and Liquid Logic.

5.2 Domiciliary care - Comments from ASCH Management

These services support people to remain in their own home and to be as independent as possible, avoiding the need for alternative and more intensive care options.

While slightly higher than in previous months, the overall trend remains significantly lower than the same period last year. This has been widely reported as being due to challenges with recruiting and retaining sufficient staff numbers. Work is taking place with the provider sector to support and to increase capacity. The data for the last three months shows a small increase.

5.3 Brokerage – Total Packages by Number of People

Average No. of Packages Accepted per Week

66.3

The above chart shows the Number of people who have received care packages via Brokerage as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: Brokerage.

5.4 Reablement – Total Number of People

No. of People

278

Quarter on Quarter comparison

QUARTERS ARE CALENDAR QUARTERS AND NOT FISCAL QUARTERS - Q1 = JAN - MAR ETC

● People ● Per 100,000

Year on Year comparison

● People ● Per 100,000

The bar charts above show the number of people receiving Reablement services in the last 2 calendar years. Quarterley updated.

Data Source: ContrOCC.

5.5 Reablement – End Reasons of Care Packages

The above chart shows the end reasons of care packages as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: Liquid Logic.

5.6 Reablement – Length of Stay

Average of Length of Stay (Days)

21.71

The above chart shows the Number of people who have received care packages via Brokerage as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

5.7 Reablement – Comments from ASCH Management

Reablement services are short term to support people to regain independence and to reduce reliance on longer term care services. The number of people receiving a service has increased in the last quarter but has reduced overall over the last year, which has been widely reported as owing to staffing pressures.

6.0 Care Market – Specialist (Supported Living)

6.1 Supported Living – Total number of People

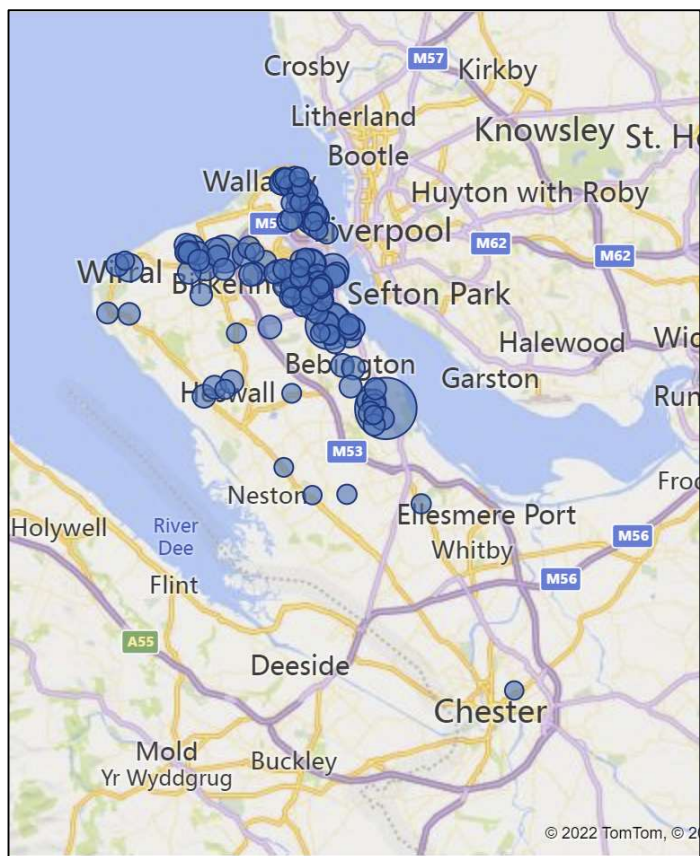

Data source: ContrOCC.

The above chart shows the Number of people who are in Supported Living as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

6.2 Supported Living – People Locations

The above map shows the occupancy rate for Supported Living as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: ContrOCC.

6.3 Supported Living – Demographics

The above visual shows the Age band for Supported Living as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: ContrOCC.

6.4 Supported Living - Comments from ASCH Management

The data shows that the number of people living in Supported Independent Living is relatively static, due to people having long term tenancy-based accommodation.

7.0 Day Care

7.1 Day Care – Total number of people

Data Source: ContrOCC.

The above charts show the number of people receiving Day Care Services (including independent Day Care Services) as of Quarter 3 (01/10/2022 – 31/12/2022).

Data Source: ContrOCC.

7.2 Day Care – Services

The above chart shows the number of people receiving Day Care Services (including independent Day Care Services) broken down into each service provider as of Quarter 3 (01/10/2022 – 31/12/2022). This number may appear slightly higher than the total number of people accessing Day Care services. This is because one person may use multiple services within the quarter.

Wirral Evolutions has been highlighted in a lighter shade of blue to all the other Independent Day Care Services to differentiate it from the rest.

Data source: ContrOCC.

7.3 Day care – Comments from ASCH Management

The data shows that the number of people attending day care provision is relatively static with the Councils inhouse service providing a largest percentage (61%) of the provision.

8.0 Shared Lives

8.1 Shared Lives – Total Number of people

The above chart shows the number of people receiving the Shared Lives service as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

9.0 Assistive Technology

9.1 Assistive Technology – Total number of people

Assistive technology is a range of technology based solutions including sensors, alarms, reminder systems and falls detectors to support people to live independently and to manage risks associated with their needs.

The above chart shows the number of people receiving Assistive Technology as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

10.0 Extra Care Housing

10.1 Extra Care Housing – Total number of people

The above chart shows the number of people receiving Extra Care Housing as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

10.2 Extra Care Housing - Services

The above chart shows the number of people receiving Extra Care Housing per provider as of Quarter 3 (01/10/2022 – 31/12/2022).

Data source: ContrOCC.

11.0 Cheshire Wirral Partnership

11.1 Key Measures - monitored monthly

Due to the timescales involved this is the most recently available data.

12.2 Comments from ASCH Management

The range of performance measures and KPIs are monitored regularly through internal reporting and through contract discussions. Action is taken where needed to address any areas identified where performance can be strengthened.

13 Length of Stay report

13.1 Long Stay Patients

This analysis measures 7 to 14 days, 14 to 21 days and Over 21 days by period.

- The three series did not all move in a similar direction from 04/30/2019 to 01/17/2023, with Over 21 days rising the most (14%) and 14 to 21 days falling the most (48%).
- Over 21 days trended upward the most in the final period. On the other hand, 14 to 21 days trended downward the most.
- Of the three series, the strongest relationship was between 14 to 21 days and 7 to 14 days, which had a strong positive correlation, suggesting that as one (14 to 21 days) increases, so does the other (7 to 14 days), or vice versa.

For 14 to 21 days:

- Average 14 to 21 days was 78.45 across all 195 periods.
- The minimum value was 25 (04/07/2020) and the maximum was 197 (06/04/2019).
- 14 to 21 days fell by 48% over the course of the series and ended on a promising note, decreasing in the final period.

- The largest single decline on a percentage basis occurred in 04/07/2020 (-47%). However, the largest single decline on an absolute basis occurred in 06/11/2019 (-55).
- The largest net improvement was from 06/04/2019 to 04/07/2020, when 14 to 21 days decreased by 172 (87%). This net decline was more than two times larger than the overall movement of the entire series.
- Contrasting with the overall decrease, the largest net growth was from 04/07/2020 to 01/03/2023, when 14 to 21 days increased by 87 (348%).
- 14 to 21 days experienced cyclicity, repeating each cycle about every 39 periods. There was also a pattern of smaller cycles that repeated about every 32.5 periods.
- 14 to 21 days had a significant positive peak between 05/07/2019 (124) and 08/06/2019 (63), rising to 197 in 06/04/2019. However, 14 to 21 days had a significant dip between 04/30/2019 (162) and 06/04/2019 (197), falling to 124 in 05/07/2019.
- 14 to 21 days was lower than 7 to 14 days over the entire series, lower by 76.24 on average. 14 to 21 days was less than Over 21 days 95% of the time (lower by 73.27 on average).

For Over 21 days:

- Average Over 21 days was 151.72 across all 195 periods.
- Values ranged from 30 (04/21/2020) to 256 (09/20/2022).
- Over 21 days increased by 14% over the course of the series and ended with an upward trend, increasing significantly in the final period.
- The largest single increase on a percentage basis occurred in 05/26/2020 (+47%). However, the largest single increase on an absolute basis occurred in 08/09/2022 (+29).
- The largest net growth was from 04/21/2020 to 09/20/2022, when Over 21 days rose by 226 (753%).
- Contrasting with the overall increase, the largest net decline was from 02/11/2020 to 04/21/2020, when Over 21 days decreased by 189 (86%).
- Over 21 days experienced cyclicity, repeating each cycle about every 65 periods. There was also a pattern of smaller cycles that repeated about every 48.75 periods.
- Over 21 days had a significant dip between 02/11/2020 and 06/09/2020, starting at 219, falling all the way to 30 at 04/21/2020 and ending slightly higher at 58.
- Over 21 days was most closely correlated with 14 to 21 days, suggesting that as one (Over 21 days) increases, the other (14 to 21 days) generally does too, or vice versa.

- Over 21 days was greater than 14 to 21 days 95% of the time (higher by 73.27 on average).

For 7 to 14 days:

- Average 7 to 14 days was 154.69 across all 195 periods.
- The minimum value was 61 (03/31/2020) and the maximum was 324 (05/28/2019).
- 7 to 14 days decreased by 33% over the course of the series but ended on a bad note, increasing in the final period.
- The largest single decline occurred in 06/25/2019 (-49%).
- The largest net decline was from 05/28/2019 to 03/31/2020, when 7 to 14 days decreased by 263 (81%). This net improvement was almost three times larger than the overall movement of the entire series.
- Contrasting with the overall decrease, the largest net growth was from 03/31/2020 to 05/03/2022, when 7 to 14 days increased by 127 (208%).
- 7 to 14 days experienced cyclicity, repeating each cycle about every 97.5 periods. There was also a pattern of smaller cycles that repeated about every 39 periods.
- 7 to 14 days was higher than 14 to 21 days over the entire series, higher by 76.24 on average. 7 to 14 days was less than Over 21 days 50% of the time, but Over 21 days was lower by 2.96 on average.

Data source: NHS – 25/01/2023

13.2 No Criteria to Reside

The above chart shows Non-Criteria to Reside data from the Wirral University Teaching Hospital (WUTH) NHS Foundation Trust. These are people who currently reside in a hospital bed and no longer meet the clinical criteria to reside there.

The dark blue line represents % of beds occupied by Non-Criteria to Reside patients who have not been discharged, which is currently 28.5% of all beds.

The grey bars represent the number of beds occupied by Non-Criteria to Reside patients who have not been discharged, which is currently 167.

The light blue line represents the target % of how many beds should be occupied by Non-Criteria to Reside patients.
