

CQC Inspection Contributions

The workstreams will contribute in some way to the following criteria from the CQCs self assessment checklists:

Checklist 1: Working with People – Assessing Needs

Checklist 2: Working with People – Supporting people to live healthier lives

Checklist 3: Working with People – Equity in experiences and outcomes

Checklist 4: Providing Support – Care provision, integration and continuity

Checklist 5: Providing Support – Partnerships and communities

Checklist 6: Ensuring safety – Safe systems, pathways and transitions

Checklist 8: Leadership – Governance, management and sustainability

Checklist 9: Leadership – Learning, improvement and innovation

CQC Inspection Contributions

The below represent some of the most pertinent actions these workstreams will contribute towards	
Checklist 1	People's care and support reflects their right to choose, builds on strengths and assets, reflects what they want to achieve and how they wish to live their lives.
Checklist 2	The local authority has a clear, co-produced strategy to prevent, delay or reduce care and support needs and a coherent and adequately resourced delivery plan. The plan is informed by data about the local population, including the Joint Strategic Needs Assessment and it seeks to address local priorities and inequalities.
	People most at risk of a decline in their independence and wellbeing are identified and prioritised for care and support.
Checklist 3	The local authority is proactive in engaging with people more likely to have poor care, seldom heard groups and communities to understand the specific barriers to care and support experienced by them; LA works with those groups to co-produce actions to remove barriers .
Checklist 4	The local authority works with local stakeholders to understand the care and support needs of people and communities [and] use this to shape and develop the market so that people have access to a diverse range of local support options to meet their care and support needs that are safe, effective, affordable and high-quality.
	Commissioning strategies are co-produced with stakeholders
Checklist 6	The local authority carries out effective and timely transition assessment and planning when young people and carers move from children's to adult services to ensure a seamless, co-ordinated and person-centred process. There is a clear understanding of responsibilities, including funding arrangements.
Checklist 9	The local authority designs the system and services around people who need care and support and unpaid carers and the outcomes that are important to them. Services are developed by working with people and their communities. Individuals and communities are involved in decisions at all levels of the system.
	Co-production is embedded throughout the local authority's work
