

Title	Wirral Health and Care Plan Programme Delivery Dashboard
Authors	Julian Eyre Programme Director, Wirral Improvement Team
Report for	Wirral Place Based Partnership Board
Date of Meeting	25 January 2024

Report Purpose and Recommendations

The purpose of this report is to present to Place based partners the performance dashboard for the programmes within the Wirral Place Health and Care Plan. The dashboard structure has been developed and agreed with the Strategic Transformation Group (STG), and the live dashboard is reviewed by the STG on a monthly basis, where programme Senior Responsible Officers (SRO's) attend.

The report aims to provide the Board with information and assurance on the progress of the Programmes associated with the Wirral Health and Care plan 2023-24.

It is recommended that the Wirral Place Based Partnership Board note this report which provides assurance on the delivery and oversight of the Health and Care plan programmes.

Key Risks

This report relates to the Place Delivery Assurance Framework (PDAF) and the associated high-level risks, namely:

- Service Delivery
- Children and Young People
- Collaboration
- Workforce
- Finance
- Community Wealth Building
- Unscheduled Care

The Programme Delivery Dashboard presented in this paper forms part of the assurance framework that measures the strength and effectiveness of the controls that have been put in place to mitigate the risks to Place objectives.

Governance journey

Date	Forum	Report Title	Purpose/Decision
December STG meeting stood down	Health and Care Plan Dashboard - Live	Health and Care Plan Dashboard	To Update STG members on progress on Health and Care plan

1 Narrative

1.1 Background

1.1.1 Following the publication of the Wirral Place Health and Care Plan 2023-24 and its endorsement by the Wirral Place Based Partnership Board (WPBPB) on 22nd June 2023 the Wirral Improvement Team have developed a programme delivery

dashboard providing oversight of the whole programme portfolio within the plan.

1.1.2 For the avoidance of doubt, the programmes that constitute the portfolio within the Health and Care Plan are summarised in the figure below:

1.1.3 The overall delivery Red Amber Green (RAG) rating for the Health and Care plan delivery in November was Green, with three programmes in the portfolio reporting Amber and the rest reporting Green. Based on the information within the November dashboard the board is directed to note the following highlights:

Guiding Programmes

- The **Neighbourhood programme** is currently completing qualitative insights report on the work to date with two neighbourhoods.
- The **Population Health Programme** has supported improved local recruitment into Local Authority vacancies through targeting priority groups in Wirral. The first Family Hub (Seacombe) and Midwifery continuity of care model have not been implemented.
- The **Use of Resources programme** has embedded monthly Expenditure Control Meetings to review high levels of spend in addition to working with provider partners to identify areas of savings to reduce the current forecast overspend for 2023/24.

Delivery Programmes

- The **Children and Young People’s Programme** have continued to progress against the SEND Statement of Action. Further work has been achieved in relation to Educational Health and Wellbeing, and the Complex Children’s Pathway.
- Within the **Learning Disabilities programme** it was agreed at the November Strategy and Transformation Group to increase the scope of the programme to include All Age disabilities.
- Within the **Mental Health programme** work continues on all projects with some delays being experienced within the Community Mental Health work due to data flows, which are currently being addressed.
- Within the **Primary and Community programme** initial meetings have taken place to plan a workshop in January to enable system partners to comment on

their priorities.

- The **Urgent and Emergency Care** programme reports separately and directly to WPBPB

Enabling Programmes

- Within the **Digital Maturity programme**, a gap analysis has been initiated as part of the CIPHA migration. Telederm is now live in 45 practices and proposals are being sought for phase 2 of the Hypertension project.
- The **Estates and Sustainability programme** presented at the November PBPB meeting, receiving positive feedback. Work continues to finalise Sustainability and Estates Group (SEG) Governance arrangements and validate asset data.
- In supporting the **Medicines Optimisation programme**, indicative project leads have been identified for each of the nine MO projects. Terms of reference were agreed for the MO Group.
- The **Workforce programme** team have identified the key priorities that need to take place to support the work of phase one of the programme, including a workforce baseline profile and a collaborative employment pilot for those aged 18-24.

Place Supported Delivery Programmes at Scale focus on the following priorities:

- **Elective Care:** Industrial action continues to be a risk to the delivery of elective recovery. Wirral University Teaching Hospital NHS Foundation Trust (WUTH) continue to manage risk on an individual patient basis to ensure patient safety and in October attained an overall performance of 95% against plan for outpatients and an overall performance of 87% against plan for elective admissions.
- **Cancer:** Two week waits performance at the end of October was 84.3%, this National standard has now been stood down. 31 day treatment numbers are above trajectory with this expected to continue.
- **Diagnostics:** In September 93.94% of patients waited 6 weeks or less for their diagnostic procedure against the national standard of 95% and requirement for Trust's to achieve 90% by March 2024.
- **Maternity:** Vacancies remain at less than 1%

2	Implications
2.1	<p><i>Risk Mitigation and Assurance</i></p> <p>Each programme within the Health and Care Plan has identified the relevant programme risks and mitigations. A summary risk report is available that identifies the red and amber rated risks across the portfolio of programmes.</p>
2.2	<p><i>Financial</i></p> <p>The potential financial implications arising from the Wirral Health and Care Plan are considered within the individual programme benefits, risk and issue logs, and any specific financial implications would be addressed through the appropriate processes. The Use of Resources programme will focus on identifying opportunities to deliver further efficiencies to spending on Wirral.</p>
2.3	<p><i>Legal and regulatory</i></p> <p>There are no legal or regulatory implications directly arising from this report.</p>
2.4	<p><i>Resources</i></p> <p>The Health and Care Plan programme structure includes enabling programmes for workforce, digital maturity, estates, and sustainability. Part of the remit of these programmes is to identify and support the specific resource implications of the delivery</p>

	and guiding programmes.
2.5	<i>Engagement and consultation</i> The programmes presented within the dashboard are specific to the Wirral Health and Care Plan, which has been developed collaboratively across key stakeholders across the Place through place workshops and with system colleagues within Strategy and Transformation Group meetings.
2.6	<i>Equality</i> Wirral Council and NHS Cheshire and Merseyside have a legal requirement to make sure their policies, and the way they carry out their work, do not discriminate against anyone. Within the Health and Care Plan there is a framework for our approach to tackling health inequalities and each programme of work will complete impact assessments to ensure any adverse impact is identified and mitigating actions put in place where possible.
2.7	<i>Environment and Climate</i> The enabling programmes within the Health and Care Plan include an estates and sustainability programme which has a specific aim to target investment to support net zero carbon ambitions. Furthermore, the plan is cognisant of and guided by a number of key national, regional and Wirral specific strategy and policy requirements that focus Wirral Place on environment and climate implications, including the Wirral Plan 2021-26, the Health and Wellbeing Strategy 2022-27 and Marmot Principles to build safe, sustainable and vibrant communities.
2.8	<i>Community Wealth Building</i> Community Wealth Building in Wirral focusses on partnerships and collaboration. These partnerships are led by Wirral Council with external partners and stakeholders, including residents. NHS Cheshire and Merseyside will support the Council in community wealth building by ensuring health and care organisations in the borough have a focus on reducing health inequalities and contribute to the development of a resilient and inclusive economy for Wirral.

3	Conclusion
3.1	The dashboard presented within this report provides an oversight of the whole programme portfolio, provides a monthly narrative update and RAG rating of overall programme performance, benefits, risks, and issues. There is a requirement to demonstrate progress against the delivery of the priorities within the Plan to evidence the progress made to the Wirral Place Based Partnership Board. The programme dashboard provides that evidence. The dashboard is updated on a monthly basis to provide assurance to this board.
